2011 ANNUAL REPORT AND FORM 10K

## LETTER TO OUR SHAREHOLDERS

We are pleased to report that 2011 was another very good year for the Company and its shareholders. The trailing 12 month total return through March, 2012, was nearly 35 percent, ranking 8th in the REIT universe. Before reviewing the key components of growth which drove that result, it is worth noting that the accomplishments of 2011 also provided a foundation for strong growth in the years ahead. In summary, we have substantially improved the profile of our debt and maturities and complemented those improvements with a \$156 million equity offering in January, 2012. We are now positioned with unused lines of credit of over \$150 million available for accretive acquisitions and other growth opportunities. These achievements also enhanced the security of the annual dividend. The dividend payout ratio, which was over 100 percent in 2009, will be in the mid 80 percent range in 2012.

Sun Communities, Inc. generated growth in Funds From Operations (“FFO”) per share from \$2.97 in 2010 to \$3.13 in 2011 before certain items as noted in the FFO table included in the Form 10-K. FFO per share grew at a 5.4 percent rate from 2010 to 2011 increasing from growth rates of 2.9 percent and 3.8 percent in the preceding two years. FFO per share guidance for 2012 in the range of \$3.17 to \$3.27 is net of \$0.38 cents of dilution from the equity offering.

For the past few years, each year has improved over the previous year. For 2011, occupancy gains were the strongest since 1999, FFO per share growth the best since 2001, same property performance the best since 2005, and the growth in home sales sets a new benchmark every year. Together with acquisitions and expansions, higher standards of performance are being established annually.

### 2011 HIGHLIGHTS

- Occupancy in our core portfolio added 732 sites and increased from 84.5 percent in 2010 to 85.8 percent in 2011 with 2012 budgeted to increase to 87 percent. An additional 160 sites of occupancy were added in acquisitions. Texas and Colorado continued to reflect strong demand as occupancy increased by 387 sites, approximately 10 percent greater than in 2010. The Midwest states of Michigan, Ohio, and Indiana added 443 sites as these markets continue their strong recovery. We can continue to fill sites at or above the 2011 rate for another five to six years before our portfolio occupancy reaches 95 percent which was a frequently experienced portfolio occupancy level for the industry in the 1990s.
- Home sales have grown at a 19 percent compounded annual rate since 2007 from 712 to 1,439. In addition to the contribution to earnings, home sales are important because slightly more than 50 percent of the sales represent the conversion of renters to home owners. Each year approximately one-half of our rental homes turn over to another lessee while about 25 percent of the rest decide to buy a home and live permanently in our communities. Further, these sales generate cash which provides capital for the purchase of homes to attract additional residents to our communities.
- The same property portfolio generated growth in net operating income of 3.6 percent in 2011 compared to 3.1 percent and .7 percent in the preceding two years. These results are benefiting from the momentum of increasing occupancy gains.
- Our rental home program is flourishing. We entered the business of renting homes in the early 2000s as a means of retaining foreclosed homes in our communities and maintaining a revenue stream. This initial defensive strategy gradually evolved as it became evident that we could no longer rely on the diminished number of third party “street” dealers to fill our communities. Renting homes became a means of attracting residents, many of whom found the manufactured housing lifestyle appealing and decided to purchase a home in the community. Applications to live in our communities, caused largely by the rental program, grew from several hundred annually in the early 2000s to over 23,000 in 2011.

The demand represented by the growing applications in our communities focused our attention on expansions of our existing communities and acquisitions of high quality, underperforming communities/portfolios with significant vacancies. Our two expansions that opened in 2011 are filling at the rate of 7 to 11 sites per month, well ahead of projections. We have four additional expansions comprising 452 sites due to be completed in 2012. The economics of these expansions is driven by the success of our rental program in generating rapid fill and strong cash flow.

The interrelationship of acquisitions and rentals make for an even more powerful economic result. The purchase of a 70 percent to 80 percent occupied community at an acceptable cap rate brings with it the vacant sites for what is essentially no cost. As these fill, the returns grow nicely beyond the initial accretiveness. In July, 2011, we closed on the acquisition of the Kentland portfolio consisting of 18 communities and over 5,000 sites. In the first six months, we increased occupancy by 160 sites or at an annualized rate of 6 percent. We are currently reviewing a number of acquisition opportunities with similar characteristics in an effort to lock in steady long-term incremental growth.

### 2012 PREVIEW

We project 2012 to improve substantially upon the performance metrics discussed above:

- We expect occupancy gains of over 1,100 sites compared to 892 in 2011. This reflects occupancy improvements in each of our major markets led by the increasing strength of our Midwest portfolio.
- Net operating income in our same property portfolio is expected to grow at a 6.2 percent rate, well ahead of the 3.6 percent growth in 2011.
- Home sales are expected to approximate 1,750, an increase of over 300 homes from the 2011 level. More than 50 percent of the sales will represent the conversion of renters to owners.
- Broad measures of growth including Net Operating Income and EBITDA are projected to grow at a rate of 13 percent to 16 percent from 2011 levels. Together with the equity offering, our proforma Debt to EBITDA multiple is expected to decline from 9.8 at the end of 2011 to 7.9 at the end of 2012. FFO per share will range from \$3.17 to \$3.27, net of \$0.38 cents of dilution which was the cost of this substantial reduction in the leverage of the Company. We believe that FFO per share growth will strengthen in ensuing years.

On behalf of Sun Communities’ employees and representatives across the nation, I thank you for your continued support.

## PART I

### ITEM 1. BUSINESS

#### GENERAL

Sun Communities, Inc., a Maryland corporation, together with the Sun Communities Operating Limited Partnership, a Michigan limited partnership (the “Operating Partnership”) and other consolidated subsidiaries (the “Subsidiaries”) are referred to herein as the “Company”, “us”, “we”, and “our”. We are a self-administered and self-managed real estate investment trust (“REIT”).

We are a fully integrated real estate company which, together with our affiliates and predecessors, has been in the business of acquiring, operating, developing and expanding manufactured housing communities since 1975. We lease individual parcels of land (“sites”) with utility access for placement of manufactured homes and recreational vehicles (“RV”) to our customers. We are also engaged through a taxable subsidiary, Sun Home Services, Inc., a Michigan corporation (“SHS”), in the marketing, selling, and leasing of new and pre-owned homes to current and future residents in our communities. The operations of SHS support and enhance our occupancy levels, property performance, and cash flows.

We own, operate, and develop manufactured housing communities concentrated in the midwestern, southern, and southeastern United States. As of December 31, 2011, we owned and operated a portfolio of 159 properties located in 18 states (the “Properties”, or “Property”), including 141 manufactured housing communities, eight RV communities, and 10 properties containing both manufactured housing and RV sites. As of December 31, 2011, the Properties contained an aggregate of 54,811 developed sites comprised of 47,935 developed manufactured home sites, 3,867 permanent RV sites, 3,009 seasonal RV sites, and approximately 6,400 additional manufactured home sites suitable for development.

Our executive and principal property management office is located at 27777 Franklin Road, Suite 200, Southfield, Michigan 48034 and our telephone number is (248) 208-2500. We have regional property management offices located in Austin, Texas; Dayton, Ohio; Grand Rapids, Michigan; Elkhart, Indiana; and Orlando, Florida; and we employed an aggregate of 775 full and part time people as of December 31, 2011.

Our website address is [www.suncommunities.com](http://www.suncommunities.com) and we make available, free of charge, on or through our website all of our periodic reports, including our annual report on Form 10-K, quarterly reports on Form 10-Q and current reports on Form 8-K, as soon as reasonably practicable after we file such reports with the Securities and Exchange Commission.

#### RECENT DEVELOPMENTS

##### *Acquisitions*

In May 2011, we acquired Orange City RV Resort (“Orange City”), a Florida RV community comprised of 525 developed sites. In June 2011, we closed on the acquisition of Kentland Communities (“Kentland”), comprised of 17 manufactured home communities and one RV community. The 18 communities acquired are located in western Michigan and comprise 5,434 developed sites. In November 2011, we acquired Cider Mills Crossings (“Cider Mills”), a Michigan manufactured home community comprised of 262 developed sites through an auction. In December 2011, we closed on three Florida RV communities, Club Naples RV Resort, Kountree RV Resort, and North Lake RV Resort (collectively, the “Florida Properties”), two of which are in Naples, Florida and one of which is in Moore Haven, Florida, comprised of 740 developed sites. These acquisitions complement our existing portfolio and create both short-term and long-term growth opportunities.

In February 2012, we acquired three additional Florida RV communities, Three Lakes RV resort, Blueberry Hill RV resort and Grand Lake Estates (collectively, the “Additional Florida Properties”), one of which is located in Hudson, Florida, one of which is located in Bushnell, Florida and one of which is located in Orange Lake, Florida. Together, the Additional Florida Properties are comprised of 1,124 RV sites. We believe this portfolio provides for growth from both rental increases and through improved seasonal occupancy.

##### *Secured Debt*

On March 1, 2011, we completed a collateralized mortgage backed security “CMBS” financing with JPMorgan Chase Bank, National Association for \$115.0 million bearing an interest rate of 5.837% and a maturity date of March 1, 2021. This loan is secured by 11 Properties. The loan refinanced \$104.8 million of CMBS debt which was scheduled to mature in July 2011 and was collateralized using the same property pool.

In May 2011, we completed a refinancing agreement for \$23.6 million. This debt bears an interest rate of 5.38% and has a maturity of June 1, 2021. This loan is secured by three Properties. The loan refinanced \$17.9 million of debt which was scheduled to mature in June 2012 and was collateralized using the same property pool.

In June 2011, we assumed secured debt with a principal balance \$52.4 million, as a result of the Kentland acquisition (see Note 2 for acquisition details), that has a weighted average maturity of 4.7 years and weighted average annual interest rate of 5.70%. This secured debt was recorded at fair value on the date of the acquisition. This debt is secured by 12 Properties.

In June 2011, we also entered into a \$22.9 million variable financing agreement to partially fund the Kentland and Orange City acquisition (see Note 2 for acquisition details). The agreement has a weighted average maturity of 3.9 years and weighted average annual variable interest rate of 3.0%. The debt was collateralized by six Properties – five Kentland properties and Orange City. Subsequent to year end, we paid down \$4.5 million of this debt and the mortgage on Orange City was released.

In July 2011, we reached an agreement with Fannie Mae (“FNMA”) and PNC Bank National Association regarding the settlement of the litigation we commenced in November 2009 over certain fees charged when the variable rate loan facility was extended in April 2009. The agreement became effective January 3, 2012 and the litigation was dismissed. In accordance with the terms of the agreement, we have the option to extend the maturity date of our entire \$367.0 million credit facility with PNC Bank and FNMA from 2014 to 2023, subject to compliance with certain underwriting criteria. This agreement also provided a reduction in the facility fee charged on our \$152.4 million variable rate facility, the effect of which reduced interest expense by \$1.7 million thru December 31, 2011. In addition we have a \$10.0 million variable rate facility, which matures on May 1, 2023 and provides for interest-only payments until May 1, 2014, after which principal and interest payments will be due based on a 30-year amortization. The interest rate for the \$10.0 million variable rate facility is equal to the 90-day LIBOR index, plus an investor spread equal to 95 basis points, plus a variable facility fee equal to 172 basis points through maturity.

In December 2011, we entered into a \$17.0 million variable financing agreement with Bank of America, N.A. and Private Bank, to fund the Florida Properties acquisition (see Note 2 for acquisition details). The agreement has a maturity of 5.0 years and had an effective interest rate of 2.80% at December 31, 2011. The debt was collateralized by all three of the properties acquired in the Florida Properties acquisition.

#### *Line of Credit*

In September, 2011, we entered into a senior secured revolving credit facility with Bank of America, N.A., and certain other lenders in the amount of \$130.0 million (the "Facility"), which replaced our \$115.0 million revolving line of credit. The Facility is secured by a first priority lien on all of our equity interests in each entity that owns all or a portion of the properties constituting the borrowing base and collateral assignments of our senior and mezzanine debt positions in certain borrowing base properties. The Facility has a built-in accordion feature allowing up to \$20.0 million in additional borrowings and a one-year extension option, both at our discretion. The Facility matures on October 1, 2015, assuming the election of the extension. The Facility will bear interest at a floating rate based on Eurodollar plus a margin that is determined based on our leverage ratio calculated in accordance with the Facility, which can range from 2.25% to 2.95%. Based on our current leverage ratio, the margin was 2.75% as of December 31, 2011.

#### *Equity Transactions*

In August, 2009, we entered into an “at-the-market” Sales Agreement with Brinson Patrick Securities Corporation to issue and sell up to 1,600,000 shares of common stock from time to time pursuant to our effective shelf registration statement on Form S-3. Sales under the agreement commenced during the third quarter of 2009 and we issued all 1,600,000 shares of common stock between the third quarter of 2009 and May 2011. In May 2011, the Board of Directors authorized the sale of an additional 1,600,000 shares under the agreement. During the year ended December 31, 2011, we issued 782,521 shares of common stock (480,184 shares from the first authorized issuance in 2009 and 302,337 shares from the second authorized issuance in 2011) under the agreement. The shares of common stock were sold at the prevailing market price of our common stock at the time of each sale with a weighted average price of \$37.54 and we received net proceeds of approximately \$28.8 million. As of the year ended December 31, 2011, there were 1,297,663 shares authorized for issuance under the agreement.

In August, 2010, we entered into a Common Stock Purchase Agreement (the “Purchase Agreement”) with REIT Opportunity, Ltd. (“REIT Ltd.”), which provides that, upon the terms and subject to the conditions set forth in the Purchase Agreement, REIT Ltd. is committed to purchase up to the lesser of \$100,000,000 of our common stock, or 3,889,493 shares of our common stock, which is equal to one share less than twenty percent of our issued and outstanding shares of common stock on the effective date of the Purchase Agreement. From time to time over the two year term of the Purchase Agreement, and at our sole discretion, we may present REIT Ltd. with draw down notices to purchase our common stock. Any and all issuances of shares of common stock to REIT Ltd. pursuant to the Purchase Agreement will be registered on our effective shelf registration statement on Form S-3. In January 2011, we sold 915,827 shares of common stock at a weighted average sale price of \$32.76 and received net proceeds of approximately \$30.0 million.

In June 2011, we issued \$45.5 million of Series A-1 preferred operating partnership (“Preferred OP”) units in connection with the Kentland acquisition (see Note 2 for details). Preferred OP unit holders can convert the Preferred OP units into shares of common stock at any time after December 31, 2013 based on a conversion price of \$41 per share with \$100 par value. These Preferred OP units are convertible, but not redeemable. The Preferred OP unit holders receive a preferred return of 5.1% until June 23, 2013 and 6.0% thereafter.

In January 2012, we closed an underwritten registered public offering of 4,600,000 shares of common stock at a price of \$35.50 per share. The net proceeds from the offering were approximately \$156.0 million after deducting the underwriting discounts and expenses related to the offering. We used the net proceeds of the offering to repay \$123.5 million of outstanding debt and we used \$25.0 million to fund a portion of the purchase price of the remaining three RV communities located in Florida that we acquired in 2012 (See Note 2 for additional information). We expect to use any remaining net proceeds of the offering to fund possible future acquisitions of properties, for working capital and for general corporate purposes.

## **STRUCTURE OF THE COMPANY**

The Operating Partnership is structured as an umbrella partnership REIT, or UPREIT. In 1993, we contributed our net assets to the Operating Partnership in exchange for the sole general partner interest in the Operating Partnership and the majority of all the Operating Partnership’s initial capital. We substantially conduct our operations through the Operating Partnership. The Operating Partnership owns, either directly or indirectly through Subsidiaries, all of our assets. This UPREIT structure enables us to comply with certain complex requirements under the Federal tax rules and regulations applicable to REITs, and to acquire manufactured housing communities in transactions that defer some or all of the sellers’ tax consequences. The financial results of the Operating Partnership and the Subsidiaries are consolidated in our consolidated financial statements. The financial results include certain activities that do not necessarily qualify as REIT activities under the Internal Revenue Code of 1986, as amended (the “Code”). We have formed taxable REIT subsidiaries, as defined in the Code, to engage in such activities. We use taxable REIT subsidiaries to offer certain services to our residents and engage in activities that would not otherwise be permitted under the REIT rules if provided directly by us or by the Operating Partnership. The taxable REIT subsidiaries include our home sales business, SHS, which provides manufactured home sales, leasing and other services to current and prospective tenants of the Properties.

We do not own all of the OP Units. As of December 31, 2011, the Operating Partnership had issued and outstanding 23,881,980 common OP Units, 1,325,275 Aspen Preferred OP Units, 455,476 Preferred OP Units, and 122,400 Series B-3 preferred OP Units. As of December 31, 2011, we held 21,810,258 common OP Units, or approximately 91.3% of the issued and outstanding common OP Units, and no preferred OP (“Aspen Preferred OP”) Units, Preferred OP Units or Series B-3 preferred OP Units.

Subject to certain limitations, the holder of each common OP Unit at its option may convert such common OP Unit at any time into one share of our common stock. The holders of common OP Units receive distributions on the same dates and in amounts equal to the dividends paid to holders of our common stock.

Subject to certain limitations, at any time prior to January 1, 2024, the holder of each Aspen Preferred OP Unit at its option may convert such Aspen Preferred OP Unit into: (a) if the market price of our common stock is \$68.00 per share or less, 0.397 common OP Units, or (b) if the market price of our common stock is greater than \$68.00 per share, that number of common OP Units determined by dividing (i) the sum of (A) \$27.00 plus (B) 25% of the amount by which the market price of our common stock exceeds \$68.00 per share, by (ii) the per-share market price of our common stock. The holders of Aspen Preferred OP Units generally receive distributions on the same dates as distributions are paid to holders of common OP Units. Each Aspen Preferred OP Unit is entitled to receive distributions in an amount equal to the product of (x) \$27.00, multiplied by (y) an annual rate equal to the 10-year United States Treasury bond yield plus 239 basis points; provided, however, that the aggregate distribution rate shall not be less than 6.5% nor more than 9.0%. On January 2, 2024, we are required to redeem all Aspen Preferred OP Units that have not been converted to common OP Units. In addition, we are required to redeem the Aspen Preferred OP Units of any holder thereof within five days after receipt of a written demand during the existence of certain uncured Aspen Preferred OP Unit defaults, including our failure to pay distributions on the Aspen Preferred OP Units when due and our failure to provide certain security for the payment of distributions on the Aspen Preferred OP Units. We may also redeem Aspen Preferred OP Units from time to time if we and the holder thereof agree to do so.

Subject to certain limitations, the holder of each Preferred OP Unit at its option may exchange such Preferred OP Unit at any time on or after December 31, 2013, into 2.439 shares of our common stock (which exchange rate is subject to adjustment upon stock splits, recapitalizations and similar events). The holders of Preferred OP Units generally receive distributions at the end of the quarter. Each Preferred OP Unit is entitled to receive distributions in an amount equal to the product of \$100.00 multiplied by an annual rate equal to 5.1% until June 23, 2013, and an annual rate equal to 6.0% thereafter.

Series B-3 preferred OP Units are not convertible. The holders of Series B-3 preferred OP Units generally receive distributions at the end of each quarter. Each Series B-3 preferred OP Unit is entitled to receive distributions in an amount equal to the product of \$100.00 multiplied by an annual rate equal to 8.0%. As of December 31, 2011, there were outstanding 46,700 Series B-3 preferred OP Units which were issued on December 1, 2002, 33,450 Series B-3 preferred OP Units which were issued on January 1, 2003, and 42,250 Series B-3 preferred OP Units which were issued on January 5, 2004. Subject to certain limitations, (x) during the 90-day period beginning on each of the tenth through fifteenth anniversaries of the issue date of the applicable Series B-3 preferred OP Units, (y) any time after the fifteenth anniversary of the issue date of the applicable Series B-3 preferred OP Units, or (z) after our receipt of notice of the death of the electing holder of a Series B-3 preferred OP Unit, each holder of Series B-3 preferred OP Units may require us to redeem such holder's Series B-3 preferred OP Units at the redemption price of \$100.00 per unit. In addition, any time after the fifteenth anniversary of the issue date of the applicable Series B-3 preferred OP Units we may redeem, at our option, all of the Series B-3 preferred OP Units of any holder thereof at the redemption price of \$100.00 per unit.

## **THE MANUFACTURED HOUSING COMMUNITY**

A manufactured housing community is a residential subdivision designed and improved with sites for the placement of manufactured homes and related improvements and amenities. Manufactured homes are detached, single-family homes which are produced off-site by manufacturers and installed on sites within the community. Manufactured homes are available in a wide array of designs, providing owners with a level of customization generally unavailable in other forms of multi-family housing.

Modern manufactured housing communities, such as the Properties, contain improvements similar to other garden-style residential developments, including centralized entrances, paved streets, curbs and gutters, and parkways. In addition, these communities also often provide a number of amenities, such as a clubhouse, a swimming pool, shuffleboard courts, tennis courts, and laundry facilities.

The owner of each home on our Properties leases the site on which the home is located. We own the underlying land, utility connections, streets, lighting, driveways, common area amenities and other capital improvements and are responsible for enforcement of community guidelines and maintenance. Some of the Properties provide water and sewer service through public or private utilities, while others provide these services to residents from on-site facilities. Each owner within our Properties is responsible for the maintenance of the home and leased site. As a result, capital expenditure needs tend to be less significant relative to multi-family rental apartment complexes.

## **PROPERTY MANAGEMENT**

Our property management strategy emphasizes intensive, hands-on management by dedicated, on-site district and community managers. We believe that this on-site focus enables us to continually monitor and address resident concerns, the performance of competitive properties and local market conditions. As of December 31, 2011, we employed 775 full and part time employees, of which 639 were located on-site as property managers, support staff, or maintenance personnel.

Our community managers are led by John B. McLaren, Chief Operating Officer, who has been in the manufactured housing industry since 1995, four Senior Vice Presidents of Operations and Sales and 15 Regional Vice Presidents. The Regional Vice Presidents are responsible for leading, developing and coaching their teams, staying current and anticipating changes in the market conditions, competing with other community operators, developing business with local manufactured home dealers and conducting regular and documented property inspections.

Each Regional Vice President performs regular inspections in order to continually monitor the Property's performance, physical condition and to provide community managers with the opportunity to learn. District and community managers are primarily responsible for maintaining community appearance and providing effective resident and customer service. In addition to a district or community manager, each district or property has on-site maintenance personnel and management support staff. We hold mandatory training sessions for all new property management personnel to ensure that management policies and procedures are executed effectively and professionally. All of our property management personnel participate in on-going training to ensure that changes to management policies and procedures are implemented consistently. We offer over 275 courses for our team members through our Sun University, which has led to increased knowledge, growth and accountability of daily operations and policies and procedures.

## HOME SALES AND LEASING

SHS is engaged in the marketing, selling, and leasing of new and pre-owned homes to current and future residents in our communities. Since tenants often purchase a home already on-site within a community, such services enhance occupancy and property performance. Additionally, because many of the homes on the Properties are sold through SHS, better control of home quality in our communities can be maintained than if sales services were conducted solely through third-party brokers. SHS also leases homes to prospective tenants. At December 31, 2011, SHS had 7,047 occupied leased homes in its portfolio. Homes for this rental program (the "Rental Program") are purchased at discounted rates from finance companies that hold repossessed homes within our communities. New homes are purchased as necessary to supplement these repossessed home purchases. Leases associated with the Rental Program are, in general, one year leases. We receive approximately 23,500 applications each year to live in our Properties, providing a significant "resident boarding" system allowing us to market purchasing a home to the best applicants and to rent to the remainder of approved applicants. Through the Rental Program we are able to demonstrate our product and lifestyle to the renters, while monitoring their payment history and converting qualified renters to owners.

## REGULATIONS AND INSURANCE

### *General*

Manufactured housing community properties are subject to various laws, ordinances and regulations, including regulations relating to recreational facilities such as swimming pools, clubhouses and other common areas. We believe that each Property has the necessary operating permits and approvals.

### *Insurance*

Our management believes that the Properties are covered by adequate fire, flood (where appropriate), property and business interruption insurance provided by reputable companies with commercially reasonable deductibles and limits. We maintain a blanket policy that covers all of our Properties. We have obtained title insurance insuring fee title to the Properties in an aggregate amount which we believe to be adequate. Claims made to our insurance carriers that are determined to be recoverable are classified in other receivables as incurred.

## SITE LEASES OR USAGE RIGHTS

The typical lease we enter into with a tenant for the rental of a manufactured home site is month-to-month or year-to-year, renewable upon the consent of both parties, or, in some instances, as provided by statute. A small number of our leases, mainly Florida properties, are tied to consumer price index or other indices as it relates to rent increase. Generally, market rate adjustments are made on an annual basis. These leases are cancelable for non-payment of rent, violation of community rules and regulations or other specified defaults. During the past five years, on average 2.7 percent of the homes in our communities have been removed by their owners and 5.4 percent of the homes have been sold by their owners to a new owner who then assumes rental obligations as a community resident. The cost to move a home is approximately \$4,000 to \$10,000. The average resident remains in our communities for approximately 19 years, while the average home, which gives rise to the rental stream, remains in our communities for approximately 37 years.

At Properties zoned for RV use, our customers have short-term ("seasonal") usage rights or long-term ("permanent") usage rights. The seasonal RV customers typically prepay for their stay or leave deposits to reserve a site for the following year, whereas the permanent RV customers prepay or pay on a monthly basis. Many of these RV customers do not live full time on the Property.

## FORWARD-LOOKING STATEMENTS

This Annual Report on Form 10-K contains various “forward-looking statements” within the meaning of the United States Securities Act of 1933, as amended, and the United States Securities Exchange Act of 1934, as amended, and we intend that such forward-looking statements will be subject to the safe harbors created thereby. For this purpose, any statements contained in this filing that relate to expectations, beliefs, projections, future plans and strategies, trends or prospective events or developments and similar expressions concerning matters that are not historical facts are deemed to be forward-looking statements. Words such as “forecasts,” “intends,” “intend,” “intended,” “goal,” “estimate,” “estimates,” “expects,” “expect,” “expected,” “project,” “projected,” “projections,” “plans,” “predicts,” “potential,” “seeks,” “anticipates,” “anticipated,” “should,” “could,” “may,” “will,” “designed to,” “foreseeable future,” “believe,” “believes,” “scheduled” and similar expressions are intended to identify forward-looking statements. These forward-looking statements reflect our current views with respect to future events and financial performance, but involve known and unknown risks and uncertainties, both general and specific to the matters discussed in this filing. These risks and uncertainties may cause our actual results to be materially different from any future results expressed or implied by such forward-looking statements. In addition to the risks disclosed under “Risk Factors” contained in this Annual Report on Form 10-K and our other filings with the Securities and Exchange Commission, such risks and uncertainties include:

- changes in general economic conditions, the real estate industry and the markets in which we operate;
- difficulties in our ability to evaluate, finance, complete and integrate acquisitions, developments and expansions successfully;
- our liquidity and refinancing demands;
- our ability to obtain or refinance maturing debt;
- our ability to maintain compliance with covenants contained in our debt facilities;
- availability of capital;
- difficulties in completing acquisitions;
- our failure to maintain effective internal control over financial reporting and disclosure controls and procedures;
- increases in interest rates and operating costs, including insurance premiums and real property taxes;
- risks related to natural disasters;
- general volatility of the capital markets and the market price of our shares of common stock;
- our failure to maintain our status as a REIT;
- changes in real estate and zoning laws and regulations;
- legislative or regulatory changes, including changes to laws governing the taxation of REITs;
- litigation, judgments or settlements;
- our ability to maintain rental rates and occupancy levels;
- competitive market forces; and
- the ability of manufactured home buyers to obtain financing and the level of repossessions by manufactured home lenders

Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date the statement was made. We undertake no obligation to publicly update or revise any forward-looking statements included or incorporated by reference into this filing, whether as a result of new information, future events, changes in our expectations or otherwise.

Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements. All written and oral forward-looking statements attributable to us or persons acting on our behalf are qualified in their entirety by these cautionary statements.

## ITEM 1A. RISK FACTORS

Our prospects are subject to certain uncertainties and risks. Our future results could differ materially from current results, and our actual results could differ materially from those projected in forward-looking statements as a result of certain risk factors. These risk factors include, but are not limited to, those set forth below, other one-time events, and important factors disclosed previously and from time to time in our other filings with the Securities and Exchange Commission.

### REAL ESTATE RISKS

*General economic conditions and the concentration of our properties in Michigan, Florida, Indiana, and Texas may affect our ability to generate sufficient revenue.*

The market and economic conditions in our current markets generally, and specifically in metropolitan areas of our current markets, may significantly affect manufactured home occupancy or rental rates. Occupancy and rental rates, in turn, may significantly affect our revenues, and if our communities do not generate revenues sufficient to meet our operating expenses, including debt service and capital expenditures, our cash flow and ability to pay or refinance our debt obligations could be adversely affected. We derive significant amounts of our rental income from properties located in Michigan, Florida, Indiana, and Texas. As of December 31, 2011, 66 of our 159 Properties representing approximately 37% of developed sites, are located in Michigan; 23 Properties representing approximately 21% of developed sites, are located in Florida; 18 Properties representing approximately 12% of developed sites, are located in Indiana; and 17 Properties representing approximately 10% of developed sites are located in Texas. As a result of the geographic concentration of our Properties in Michigan, Florida, Indiana, and Texas, we are exposed to the risks of downturns in the local economy or other local real estate market conditions which could adversely affect occupancy rates, rental rates, and property values of properties in these markets.

Our income would also be adversely affected if tenants were unable to pay rent or if sites were unable to be rented on favorable terms. If we were unable to promptly relet or renew the leases for a significant number of the sites, or if the rental rates upon such renewal or reletting were significantly lower than expected rates, then our business and results of operations could be adversely affected. In addition, certain expenditures associated with each Property (such as real estate taxes and maintenance costs) generally are not reduced when circumstances cause a reduction in income from the Property. Furthermore, real estate investments are relatively illiquid and, therefore, will tend to limit our ability to vary our portfolio promptly in response to changes in economic or other conditions.

The following factors, among others, may adversely affect the revenues generated by our communities:

- the national and local economic climate which may be adversely impacted by, among other factors, plant closings, and industry slowdowns;
- local real estate market conditions such as the oversupply of manufactured housing sites or a reduction in demand for manufactured housing sites in an area;
- the number of repossessed homes in a particular market;
- the lack of an established dealer network;
- the rental market which may limit the extent to which rents may be increased to meet increased expenses without decreasing occupancy rates;
- the perceptions by prospective tenants of the safety, convenience and attractiveness of our Properties and the neighborhoods where they are located;
- zoning or other regulatory restrictions;
- competition from other available manufactured housing communities and alternative forms of housing (such as apartment buildings and site-built single-family homes);
- our ability to provide adequate management, maintenance and insurance;
- increased operating costs, including insurance premiums, real estate taxes, and utilities; and
- the enactment of rent control laws or laws taxing the owners of manufactured homes.

## REAL ESTATE RISKS, CONTINUED

### *Competition affects occupancy levels and rents which could adversely affect our revenues.*

All of our Properties are located in developed areas that include other manufactured housing community properties. The number of competitive manufactured housing community properties in a particular area could have a material adverse effect on our ability to lease sites and increase rents charged at our Properties or at any newly acquired properties. We may be competing with others with greater resources and whose officers and directors have more experience than our officers and directors. In addition, other forms of multi-family residential properties, such as private and federally funded or assisted multi-family housing projects and single-family housing, provide housing alternatives to potential tenants of manufactured housing communities.

### *Our ability to sell or lease manufactured homes may be affected by various factors, which may in turn adversely affect our profitability.*

SHS operates in the manufactured home market offering manufactured home sales and leasing services to tenants and prospective tenants of our communities. The market for the sale and lease of manufactured homes may be adversely affected by the following factors:

- downturns in economic conditions which adversely impact the housing market;
- an oversupply of, or a reduced demand for, manufactured homes;
- the difficulty facing potential purchasers in obtaining affordable financing as a result of heightened lending criteria; and
- an increase or decrease in the rate of manufactured home repossessions which provide aggressively priced competition to new manufactured home sales.

Any of the above listed factors could adversely impact our rate of manufactured home sales and leases, which would result in a decrease in profitability.

### *Increases in taxes and regulatory compliance costs may reduce our revenue.*

Costs resulting from changes in real estate laws, income taxes, service or other taxes, generally are not passed through to tenants under leases and may adversely affect our funds from operations and our ability to pay or refinance our debt. Similarly, changes in laws increasing the potential liability for environmental conditions existing on properties or increasing the restrictions on discharges or other conditions may result in significant unanticipated expenditures, which would adversely affect our business and results of operations.

### *We may not be able to integrate or finance our expansion and development activities.*

From time to time, we engage in the construction and development of new communities or expansion of existing communities, and may continue to engage in the development and construction business in the future. Our development and construction business may be exposed to the following risks which are in addition to those risks associated with the ownership and operation of established manufactured housing communities:

- we may not be able to obtain financing with favorable terms for community development which may make us unable to proceed with the development;
- we may be unable to obtain, or face delays in obtaining, necessary zoning, building and other governmental permits and authorizations, which could result in increased costs and delays, and even require us to abandon development of the community entirely if we are unable to obtain such permits or authorizations;
- we may abandon development opportunities that we have already begun to explore and as a result we may not recover expenses already incurred in connection with exploring such development opportunities;
- we may be unable to complete construction and lease-up of a community on schedule resulting in increased debt service expense and construction costs;
- we may incur construction and development costs for a community which exceed our original estimates due to increased materials, labor or other costs, which could make completion of the community uneconomical and we may not be able to increase rents to compensate for the increase in development costs which may impact our profitability;

## REAL ESTATE RISKS, CONTINUED

- we may be unable to secure long-term financing on completion of development resulting in increased debt service and lower profitability; and
- occupancy rates and rents at a newly developed community may fluctuate depending on several factors, including market and economic conditions, which may result in the community not being profitable.

If any of the above occurred, our business and results of operations could be adversely affected.

### *We may not be able to integrate or finance our acquisitions and our acquisitions may not perform as expected.*

We have acquired and intend to continue to acquire manufactured housing and RV communities on a select basis. Our acquisition activities and their success are subject to the following risks:

- we may be unable to acquire a desired property because of competition from other well capitalized real estate investors, including both publicly traded real estate investment trusts and institutional investment funds;
- even if we enter into an acquisition agreement for a property, it is usually subject to customary conditions to closing, including completion of due diligence investigations to our satisfaction, which may not be satisfied;
- even if we are able to acquire a desired property, competition from other real estate investors may significantly increase the purchase price;
- we may be unable to finance acquisitions on favorable terms;
- acquired properties may fail to perform as expected;
- acquired properties may be located in new markets where we face risks associated with a lack of market knowledge or understanding of the local economy, lack of business relationships in the area and unfamiliarity with local governmental and permitting procedures; and
- we may be unable to quickly and efficiently integrate new acquisitions, particularly acquisitions of portfolios of properties, into our existing operations.

If any of the above occurred, our business and results of operations could be adversely affected.

In addition, we may acquire properties subject to liabilities and without any recourse, or with only limited recourse, with respect to unknown liabilities. As a result, if a liability were to be asserted against us based upon ownership of those properties, we might have to pay substantial sums to settle it, which could adversely affect our cash flow.

### *Rent control legislation may harm our ability to increase rents.*

State and local rent control laws in certain jurisdictions may limit our ability to increase rents and to recover increases in operating expenses and the costs of capital improvements. Enactment of such laws has been considered from time to time in other jurisdictions. Certain Properties are located, and we may purchase additional properties, in markets that are either subject to rent control or in which rent-limiting legislation exists or may be enacted.

## REAL ESTATE RISKS, CONTINUED

### *We may be subject to environmental liability.*

Under various federal, state and local laws, ordinances and regulations, an owner or operator of real estate is liable for the costs of removal or remediation of certain hazardous substances at, on, under or in such property. Such laws often impose such liability without regard to whether the owner knew of, or was responsible for, the presence of such hazardous substances. The presence of such substances, or the failure to properly remediate such substances, may adversely affect the owner's ability to sell or rent such property, to borrow using such property as collateral or to develop such property. Persons who arrange for the disposal or treatment of hazardous substances also may be liable for the costs of removal or remediation of such substances at a disposal or treatment facility owned or operated by another person. In addition, certain environmental laws impose liability for the management and disposal of asbestos-containing materials and for the release of such materials into the air. These laws may provide for third parties to seek recovery from owners or operators of real properties for personal injury associated with asbestos-containing materials. In connection with the ownership, operation, management, and development of real properties, we may be considered an owner or operator of such properties and, therefore, are potentially liable for removal or remediation costs, and also may be liable for governmental fines and injuries to persons and property. When we arrange for the treatment or disposal of hazardous substances at landfills or other facilities owned by other persons, we may be liable for the removal or remediation costs at such facilities.

All of the Properties have been subject to a Phase I or similar environmental audit (which involves general inspections without soil sampling or ground water analysis) completed by independent environmental consultants. These environmental audits have not revealed any significant environmental liability that would have a material adverse effect on our business. These audits cannot reflect conditions arising after the studies were completed, and no assurances can be given that existing environmental studies reveal all environmental liabilities, that any prior owner or operator of a property or neighboring owner or operator did not create any material environmental condition not known to us, or that a material environmental condition does not otherwise exist as to any one or more Properties.

### *Losses in excess of our insurance coverage or uninsured losses could adversely affect our cash flow.*

We maintain comprehensive liability, fire, flood (where appropriate), extended coverage, and rental loss insurance on the Properties with policy specifications, limits, and deductibles which are customarily carried for similar properties. Certain types of losses, however, may be either uninsurable or not economically insurable, such as losses due to earthquakes, riots, or acts of war. In the event an uninsured loss occurs, we could lose both our investment in and anticipated profits and cash flow from the affected property. Any loss could adversely affect our ability to repay our debt.

## FINANCING AND INVESTMENT RISKS

### *Our significant amount of debt could limit our operational flexibility or otherwise adversely affect our financial condition.*

We have a significant amount of debt. As of December 31, 2011, we had approximately \$1.4 billion of total debt outstanding, consisting of approximately \$1.1 billion in debt that is collateralized by mortgage liens on 127 of the Properties, \$81.7 million that is secured by collateralized receivables, \$21.5 million that is collateralized by liens on manufactured homes, and \$107.5 million that is secured by the first priority lien on all of our equity interest in 29 properties and \$48.8 million that is unsecured debt. If we fail to meet our obligations under our secured debt, the lenders would be entitled to foreclose on all or some of the collateral securing such debt which could have a material adverse effect on us and our ability to make expected distributions, and could threaten our continued viability.

We are subject to the risks normally associated with debt financing, including the following risks:

- our cash flow may be insufficient to meet required payments of principal and interest, or require us to dedicate a substantial portion of our cash flow to pay our debt and the interest associated with our debt rather than to other areas of our business;
- our existing indebtedness may limit our operating flexibility due to financial and other restrictive covenants, including restrictions on incurring additional debt;
- it may be more difficult for us to obtain additional financing in the future for our operations, working capital requirements, capital expenditures, debt service or other general requirements;
- we may be more vulnerable in the event of adverse economic and industry conditions or a downturn in our business;
- we may be placed at a competitive disadvantage compared to our competitors that have less debt; and
- we may not be able to refinance at all or on favorable terms, as our debt matures.

If any of the above risks occurred, our financial condition and results of operations could be materially adversely affected.

## FINANCING AND INVESTMENT RISKS, CONTINUED

***We may incur substantially more debt, which would increase the risks associated with our substantial leverage.***

Despite our current indebtedness levels, we may incur substantially more debt in the future. If new debt is added to our current debt levels, an even greater portion of our cash flow will be needed to satisfy our debt service obligations. As a result, the related risks that we now face could intensify and increase the risk of a default on our indebtedness.

***The financial condition and solvency of our borrowers may adversely affect our installment notes.***

As of December 31, 2011, we had approximately \$94.6 million of installment notes, net of reserves, to owners of manufactured homes. These installment loans are collateralized by the manufactured homes. We may invest in additional mortgages and installment loans in the future. By virtue of our investment in the mortgages and the loans, we are subject to the following risks of such investment:

- the borrowers may not be able to make debt service payments or pay principal when due;
- the value of property securing the installment notes receivable may be less than the amounts owed; and
- interest rates payable on the installment notes receivable may be lower than our cost of funds.

If any of the above occurred, our business and results of operations could be adversely affected.

## TAX RISKS

***We may suffer adverse tax consequences and be unable to attract capital if we fail to qualify as a REIT.***

We believe that since our taxable year ended December 31, 1994, we have been organized and operated, and intend to continue to operate, so as to qualify for taxation as a REIT under the Code. Although we believe that we have been and will continue to be organized and have operated and will continue to operate so as to qualify for taxation as a REIT, we cannot be assured that we have been or will continue to be organized or operated in a manner to so qualify or remain so qualified. Qualification as a REIT involves the satisfaction of numerous requirements (some on an annual and quarterly basis) established under highly technical and complex Code provisions for which there are only limited judicial or administrative interpretations, and involves the determination of various factual matters and circumstances not entirely within our control. In addition, frequent changes occur in the area of REIT taxation, which require us to continually to monitor our tax status.

If we fail to qualify as a REIT in any taxable year, we could be subject to federal income tax (including any applicable alternative minimum tax) on our taxable income at regular corporate rates. Moreover, unless entitled to relief under certain statutory provisions, we also would be disqualified from treatment as a REIT for the four taxable years following the year during which qualification was lost. This treatment would reduce our net earnings available for investment or distribution to stockholders because of the additional tax liability to us for the years involved. In addition, distributions to stockholders would no longer be required to be made. Even if we qualify for and maintain our REIT status, we will be subject to certain federal, state and local taxes on our property and certain of our operations.

***We intend for the Operating Partnership to qualify as a partnership, but we cannot guarantee that it will qualify.***

We believe that the Operating Partnership has been organized as a partnership and will qualify for treatment as such under the Code. However, if the Operating Partnership is deemed to be a “publicly traded partnership,” it will be treated as a corporation instead of a partnership for federal income tax purposes unless at least 90% of its income is qualifying income as defined in the Code. The income requirements applicable to REITs and the definition of “qualifying income” for purposes of this 90% test are similar in most respects. Qualifying income for the 90% test generally includes passive income, such as specified types of real property rents, dividends and interest. We believe that the Operating Partnership would meet this 90% test, but we cannot guarantee that it would. If the Operating Partnership were to be taxed as a corporation, it would incur substantial tax liabilities, we would fail to qualify as a REIT for federal income tax purposes, and our ability to raise additional capital could be significantly impaired.

***Our ability to accumulate cash may be restricted due to certain REIT distribution requirements.***

In order to qualify as a REIT, we must distribute to our stockholders at least 90% of our REIT taxable income (calculated without any deduction for dividends paid and excluding net capital gain) and to avoid federal income taxation, our distributions must not be less than 100% of our REIT taxable income, including capital gains. As a result of the distribution requirements, we do not expect to accumulate significant amounts of cash. Accordingly, these distributions could significantly reduce the cash available to us in subsequent periods to fund our operations and future growth.

## TAX RISKS, CONTINUED

*Our taxable REIT subsidiaries, or TRSs, are subject to special rules that may result in increased taxes.*

As a REIT, we must pay a 100% penalty tax on certain payments that we receive if the economic arrangements between us and any of our TRSs are not comparable to similar arrangements between unrelated parties. The Internal Revenue Service may successfully assert that the economic arrangements of any of our inter-company transactions are not comparable to similar arrangements between unrelated parties.

*Dividends payable by REITs do not qualify for the reduced tax rates applicable to certain dividends.*

The maximum federal tax rate for certain dividends payable to domestic stockholders that are individuals, trusts and estates is 15% (generally through 2012). Dividends payable by REITs, however, are generally not eligible for this reduced rate. Although this legislation does not adversely affect the taxation of REITs or dividends paid by REITs, the more favorable rates applicable to regular qualified corporate dividends could cause investors who are individuals, trusts and estates to perceive investments in REITs to be relatively less competitive than investments in stock of non-REIT corporations that pay dividends, which could adversely affect the comparative value of the stock of REITs, including our common stock.

*Complying with REIT requirements may cause us to forego otherwise attractive opportunities.*

To remain qualified as a REIT for federal income tax purposes, we must continually satisfy requirements and tests under the tax law concerning, among other things, the sources of our income, the nature and diversification of our assets, the amounts we distribute to our stockholders and the ownership of our stock. In order to meet these tests, we may be required to forego or limit attractive business or investment opportunities and distribute all of our net earnings rather than invest in attractive opportunities or hold larger liquid reserves. Therefore, compliance with the REIT requirements may hinder our ability to operate solely to maximize profits.

*Our ability to use net operating loss carryforwards to reduce future tax payments may be limited if we experience a change in ownership, or if taxable income does not reach sufficient levels.*

Under Section 382 of the Code, if a corporation undergoes an “ownership change” (generally defined as a greater than 50% change (by value) in its equity ownership over a three-year period), the corporation’s ability to use its pre-change net operating loss carryforwards to offset its post-change income may be limited. We may experience ownership changes in the future as a result of this offering and subsequent shifts in our stock ownership. If an ownership change were to occur, we would be limited in the portion of net operating loss carryforwards that we could use in the future to offset taxable income for U.S. Federal income tax purposes.

## BUSINESS RISKS

*Some of our directors and officers may have conflicts of interest with respect to certain related party transactions and other business interests.*

*Ownership of Origen.* We own 5,000,000 shares of Origen Financial, Inc. (“Origen”) common stock and Shiffman Origen LLC (which is owned by the Milton M. Shiffman Spouse’s Marital Trust, Gary A. Shiffman (our Chief Executive Officer), and members of Mr. Shiffman’s family) owns 1,025,000 shares of Origen common stock. Gary A. Shiffman is a member of the Board of Directors of Origen and one of our directors, Arthur A. Weiss, is a trustee of the Milton M. Shiffman Spouse’s Marital Trust. Accordingly, in all transactions involving Origen, Mr. Shiffman and/or Mr. Weiss may have a conflict of interest with respect to their respective obligations as our officer and/or director.

*Lease of Executive Offices.* Gary A. Shiffman, together with certain family members, indirectly owns a 21 percent equity interest in American Center LLC, the entity from which we lease office space for our principal executive offices. Arthur A. Weiss, one of our directors, owns a 0.75 percent indirect interest in American Center LLC. As of October 2011, we lease approximately 48,200 rentable square feet. The term of the lease is until October 31, 2016, with an option to renew for an additional five years. The annual base rent under the current lease is \$18.61 per square foot (gross) and will remain this amount through October 31, 2014. From November 1, 2014 to August 31, 2015, the annual base rent will be \$18.72 per square foot (gross) and then from September 1, 2015 to October 31, 2016, the annual base rent will be \$17.92 per square foot (gross). Mr. Shiffman and Mr. Weiss may have a conflict of interest with respect to their obligations as our officer and/or director and their ownership interest in American Center LLC.

*Legal Counsel.* During 2011, Jaffe, Raitt, Heuer, & Weiss, Professional Corporation (“JRH&W”) acted as our general counsel and represented us in various matters. Arthur A. Weiss, one of our directors, is the Chairman of the Board of Directors and a shareholder of such firm. We incurred legal fees and expenses of approximately \$2.5 million, \$0.8 million and \$1.1 million in the years ended December 31, 2011, 2010 and 2009, respectively.

## **BUSINESS RISKS, CONTINUED**

*Tax Consequences Upon Sale of Properties.* Gary A. Shiffman holds limited partnership interests in the Operating Partnership which were received in connection with the contribution of 24 properties (four of which have been sold) from partnerships previously affiliated with him (the “Sun Partnerships”). Prior to any redemption of these limited partnership interests for our common stock, Mr. Shiffman will have tax consequences different from those of us and our public stockholders on the sale of any of the Sun Partnerships. Therefore, we and Mr. Shiffman may have different objectives regarding the appropriate pricing and timing of any sale of those properties.

### ***We rely on key management.***

We are dependent on the efforts of our executive officers, Gary A. Shiffman, John B. McLaren, Karen J. Dearing and Jonathan M. Colman (together, the “Executive Officers”). The loss of services of one or more of our Executive Officers could have a temporary adverse effect on our operations. We do not currently maintain or contemplate obtaining any “key-man” life insurance on the Executive Officers.

### ***Certain provisions in our governing documents may make it difficult for a third-party to acquire us.***

*9.8% Ownership Limit.* In order to qualify and maintain our qualification as a REIT, not more than 50% of the outstanding shares of our capital stock may be owned, directly or indirectly, by five or fewer individuals. Thus, ownership of more than 9.8%, in number of shares or value, of the issued and outstanding shares of our capital stock by any single stockholder has been restricted, with certain exceptions, for the purpose of maintaining our qualification as a REIT under the Code. Such restrictions in our charter do not apply to Gary A. Shiffman, the Milton M. Shiffman Spouse’s Marital Trust and the Estate of Robert B. Bayer, Gary Shiffman, Milton M. Shiffman, Robert B. Bayer, or trustees, personal representatives and agents acting on their respective behalfs, or certain of their respective relatives.

The 9.8% ownership limit, as well as our ability to issue additional shares of common stock or shares of other stock (which may have rights and preferences over the common stock), may discourage a change of control of the Company and may also: (1) deter tender offers for the common stock, which offers may be advantageous to stockholders; and (2) limit the opportunity for stockholders to receive a premium for their common stock that might otherwise exist if an investor were attempting to assemble a block of common stock in excess of 9.8% of our outstanding shares or otherwise effect a change of control of the Company.

*Staggered Board.* Our Board of Directors has been divided into three classes of directors. The term of one class will expire each year. Directors for each class will be chosen for a three-year term upon the expiration of such class’s term, and the directors in the other two classes will continue in office. The staggered terms for directors may affect the stockholders’ ability to change control of the Company even if a change in control were in the stockholders’ interest.

*Preferred Stock.* Our charter authorizes the Board of Directors to issue up to 10,000,000 shares of preferred stock and to establish the preferences and rights (including the right to vote and the right to convert into shares of common stock) of any shares issued. The power to issue preferred stock could have the effect of delaying or preventing a change in control of the Company even if a change in control were in the stockholders’ interest.

*Rights Plan.* We adopted a stockholders’ rights plan in 2008 that provides our stockholders (other than a stockholder attempting to acquire a 15% or greater interest in us) with the right to purchase our stock at a discount in the event any person attempts to acquire a 15% or greater interest in us. Because this plan could make it more expensive for a person to acquire a controlling interest in us, it could have the effect of delaying or preventing a change in control even if a change in control were in the stockholders’ interest.

### ***Changes in our investment and financing policies may be made without stockholder approval.***

Our investment and financing policies, and our policies with respect to certain other activities, including our growth, debt, capitalization, distributions, REIT status, and operating policies, are determined by our Board of Directors. Although the Board of Directors has no present intention to do so, these policies may be amended or revised from time to time at the discretion of the Board of Directors without notice to or a vote of our stockholders. Accordingly, stockholders may not have control over changes in our policies and changes in our policies may not fully serve the interests of all stockholders.

## **BUSINESS RISKS, CONTINUED**

### ***Substantial sales of our common stock could cause our stock price to fall.***

Sales of a substantial number of shares of our common stock, or the perception that such sales could occur, could adversely affect prevailing market prices for shares. Based on the applicable conversion ratios then in effect, as of December 31, 2011, in the future we may issue to the limited partners of the Operating Partnership, up to approximately 2.1 million shares of our common stock in exchange for their common OP Units, up to approximately 0.5 million shares of our common stock in exchange for their Aspen Preferred OP Units, and up to approximately 1.1 million shares of our common stock in exchange for their Preferred OP Units, although the Preferred OP Units may not be converted into shares of common stock until December 31, 2013. The limited partners may sell such shares pursuant to registration rights or an available exemption from registration. As of December 31, 2011, options to purchase 77,086 shares of our common stock were outstanding under our 1993 Employee Stock Option Plan, our 1993 Non-Employee Director Stock Option Plan, our 2004 Non-Employee Director Option Plan and our Long-Term Incentive Plan. We currently have the authority to issue restricted stock awards or options to purchase up to an additional 693,000 shares of our common stock pursuant to our 2009 Equity Incentive Plan. In addition, we entered into an “at-the-market” Sales Agreement in August 2009 to issue and sell shares of common stock. As of December 31, 2011, we have 1,297,663 shares authorized for sale under this agreement. On August 6, 2010, we entered into the Purchase Agreement with REIT Ltd., and have 2,973,666 shares remaining to be purchased under this agreement after the issuance on January 4, 2011. No prediction can be made regarding the effect that future sales of shares of our common stock or our other securities will have on the market price of shares.

### ***An increase in interest rates may have an adverse effect on the price of our common stock.***

One of the factors that may influence the price of our common stock in the public market will be the annual distributions to stockholders relative to the prevailing market price of the common stock. An increase in market interest rates may tend to make the common stock less attractive relative to other investments, which could adversely affect the market price of our common stock.

### ***The volatility in economic conditions and the financial markets may adversely affect our industry, business and financial performance.***

The capital and credit markets have experienced unusual volatility and disruption during the past few years. Despite the fact that the U.S. economy is recovering from the recent recession, the recovery rate has been much slower than anticipated. In addition, job growth remains sluggish, and sustained high unemployment can hinder economic growth even further. While bank earnings and liquidity are on the rebound, the potential of significant future credit losses clouds the lending outlook. Credit availability has improved, but still lags pre-recession levels hampering business expansion and new development activities. The higher level of unemployment, coupled with the sluggish rate of economic recovery, may adversely impact our business. The other risk factors presented in this Annual Report on Form 10-K discuss some of the principal risks inherent in our business, including liquidity risks, operational risks, and credit risks, among others. The turbulence in financial markets has accentuated each of these risks and magnified their potential effect on us. If these economic developments continue to rebound slowly or worsen, there could be an adverse impact on our access to capital, stock price and our operating results.

### ***Our business operations may not generate the cash needed to make distributions on our capital stock or to service our indebtedness, and we may adjust our common stock dividend policy.***

Our ability to make distributions on our common stock and payments on our indebtedness and to fund planned capital expenditures will depend on our ability to generate cash in the future. We cannot assure you that our business will generate sufficient cash flow from operations or that future borrowings will be available to us in an amount sufficient to enable us to make distributions on our common stock, to pay our indebtedness or to fund our other liquidity needs.

The decision to declare and pay dividends on shares of our common stock in the future, as well as the timing, amount and composition of any such future dividends, will be at the sole discretion of our Board of Directors in light of conditions then existing, including our earnings, financial condition, capital requirements, debt maturities, the availability of debt and equity capital, applicable REIT and legal restrictions and the general overall economic conditions and other factors. Any change in our dividend policy could have a material adverse effect on the market price of our common stock.

## **BUSINESS RISKS, CONTINUED**

***Our share price could be volatile and could decline, resulting in a substantial or complete loss on our stockholders' investment.***

The stock markets, including the New York Stock Exchange (“NYSE”), on which we list our common stock, have experienced significant price and volume fluctuations. As a result, the market price of our common stock could be similarly volatile, and investors in our common stock may experience a decrease in the value of their shares, including decreases unrelated to our operating performance or prospects. The price of our common stock could be subject to wide fluctuations in response to a number of factors, including:

- our operating performance and the performance of other similar companies;
- our ability to maintain compliance with covenants contained in our debt facilities;
- actual or anticipated variations in our operating results, funds from operations, cash flows or liquidity;
- changes in our earnings estimates or those of analysts;
- changes in our dividend policy;
- publication of research reports about us or the real estate industry generally;
- increases in market interest rates that lead purchasers of our common stock to demand a higher dividend yield;
- changes in market valuations of similar companies;
- adverse market reaction to the amount of our debt outstanding at any time, the amount of our debt maturing in the near- and medium-term and our ability to refinance our debt, or our plans to incur additional debt in the future;
- additions or departures of key management personnel;
- speculation in the press or investment community;
- actions by institutional stockholders; and
- general market and economic conditions.

Many of the factors listed above are beyond our control. Those factors may cause the market price of our common stock to decline significantly, regardless of our financial condition, results of operations and prospects. It is impossible to provide any assurance that the market price of our common stock will not fall in the future, and it may be difficult for holders to resell shares of our common stock at prices they find attractive, or at all. In the past, securities class action litigation has often been instituted against companies following periods of volatility in their stock price. This type of litigation could result in substantial costs and divert our management's attention and resources.

## ITEM 2. PROPERTIES

As of December 31, 2011, the Properties consisted of 141 manufactured housing communities, eight RV communities, and 10 properties containing both manufactured housing and RV sites located in 18 states. As of December 31, 2011, the Properties contained an aggregate of 54,811 developed sites comprised of 47,935 developed manufactured home sites, 3,867 permanent RV sites, 3,009 seasonal RV sites, and approximately 6,400 additional manufactured home sites suitable for development. Most of the Properties include amenities oriented toward family and retirement living. Of the 159 Properties, 73 have more than 300 developed manufactured home sites; with the largest having 1,003 developed manufactured home sites. See “Real Estate and Accumulated Depreciation, Schedule III” for detail on properties which are encumbered.

As of December 31, 2011, the Properties had an occupancy rate of 85.3 percent excluding seasonal RV sites. Since January 1, 2011, the Properties have averaged an aggregate annual turnover of homes (where the home is moved out of the community) of approximately 2.7 percent and an average annual turnover of residents (where the resident-owned home is sold and remains within the community, typically without interruption of rental income) of approximately 4.7 percent. The average renewal rate for residents in our Rental Program was 59.8 percent for the year ended December 31, 2011.

We believe that our Properties’ high amenity levels contribute to low turnover and generally high occupancy rates. All of the Properties provide residents with attractive amenities with most offering a clubhouse, a swimming pool, and laundry facilities. Many Properties offer additional amenities such as sauna/whirlpool spas, tennis, shuffleboard and basketball courts and/or exercise rooms.

We have concentrated our communities within certain geographic areas in order to achieve economies of scale in management and operation. The Properties are principally concentrated in the midwestern, southern, and southeastern United States. We believe that geographic diversification helps to insulate the portfolio from regional economic influences.

The following tables set forth certain information relating to the properties owned as of December 31, 2011. The occupancy percentage includes manufactured home sites (“MH Sites”) and permanent RV sites, and excludes seasonal RV sites.

<sup>(2)</sup> Occupancy in these properties reflects the fact that these communities are newly developed from the ground up.

<sup>(3)</sup> Occupancy in these properties reflects the fact that these communities are in a lease-up phase following an expansion.

<sup>(4)</sup> This Property is owned by an affiliate of SunChamp LLC, a joint venture that owns 11 of our consolidated manufactured home communities, in which we own approximately a 78.9 percent equity interest as of December 31, 2011.

<sup>(5)</sup> Occupancy percentage excludes seasonal RV sites.

<sup>(6)</sup> The number of developed sites and occupancy percentage at this Property includes sites that have been covered under our comprehensive insurance coverage (subject to deductibles and certain limitations) for both property damage and business interruption from a flood that caused substantial damage to this Property.

### **ITEM 3. LEGAL PROCEEDINGS**

On or about November 19, 2009, we, Sun Secured Financing LLC, Aspen-Ft. Collins Limited Partnership, Sun Secured Financing Houston Limited Partnership, Sun Communities Finance, LLC, Sun Holly Forest LLC and Sun Saddle Oak LLC (collectively, the “Plaintiffs”) filed suit against ARCS Commercial Mortgage Co., L.P., PNC ARCS, LLC, and the Federal National Mortgage Association (collectively, the “Defendants”) in the United States District Court for the District of Columbia as Case No. 1:09-cv-02162. The essence of the dispute was whether the terms of a commercial credit facility permitted Defendants to increase the variable facility fee applicable to the outstanding variable rate loans in conjunction with an extension of the credit facility (and, if so, whether the Defendants properly exercised that right). On March 31, 2011, the parties entered into an Agreement and Release, pursuant to which the parties agreed to stay the litigation. As part of the settlement, on July 27, 2011, we, PNC Bank, National Association (as successor in interest to ARCS Commercial Mortgage Co., L.P., and PNC ARCS, LLC), and Fannie Mae entered into a Second Amended and Restated Master Credit Facility Agreement, as amended on October 3, 2011 (the “Restated Credit Agreement”) which amended and restated in its entirety the prior credit agreement. On January 3, 2012, the Restated Credit Agreement became effective in its entirety and the litigation was dismissed.

We are involved in various other legal proceedings arising in the ordinary course of business. All such proceedings, taken together, are not expected to have a material adverse impact on our results of operations or financial condition.

## PART II

### ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

#### Market Information

Our common stock has been listed on the NYSE since December 8, 1993, and traded under the symbol "SUI". The following table sets forth the high and low sales prices per share for the common stock for the periods indicated as reported by the NYSE and the distributions per share paid by us with respect to each period:

Year Ended December 31, 2011		High	Low	Distributions
1st Quarter		\$ 35.73	\$ 31.85	\$ 0.63
2nd Quarter		40.21	35.01	0.63
3rd Quarter		40.00	30.49	0.63
4th Quarter		39.45	33.00	0.63 <sup>(1)</sup>

Year Ended December 31, 2010		High	Low	Distributions
1st Quarter		\$ 25.46	\$ 17.12	\$ 0.63
2nd Quarter		31.53	25.03	0.63
3rd Quarter		31.23	25.60	0.63
4th Quarter		35.11	30.49	0.63

<sup>(1)</sup> We declared a quarterly dividend of \$0.63 per share for the fourth quarter of 2011, which was paid January 20, 2012 to stockholders of record as of December 30, 2011

On February 15, 2012, the closing share price of our common stock was \$39.93 per share on the NYSE, and there were 268 holders of record for the 26,450,402 million outstanding shares of common stock. On February 15, 2012, the Operating Partnership had (i) 2,071,722 common OP Units issued and outstanding which were convertible into an equal number of shares of our common stock, (ii) 1,325,275 Aspen Preferred OP Units issued and outstanding which were exchangeable for 526,212 shares of our common stock, and 455,476 Preferred OP Units issued and outstanding which on or after December 31, 2013 will be exchangeable for 1,111,361 shares of our common stock.

We have historically paid regular quarterly distributions to holders of our common stock and common OP Units. In addition, we are obligated to make distributions to holders of Aspen Preferred OP Units, Preferred OP Units and Series B-3 preferred OP Units. See "Structure of the Company" under Item 1 above. Our ability to make distributions on our common stock and payments on our indebtedness and to fund planned capital expenditures will depend on our ability to generate cash in the future. The decision to declare and pay dividends on shares of our common stock in the future, as well as the timing, amount and composition of any such future dividends, will be at the sole discretion of our Board of Directors in light of conditions then existing, including our earnings, financial condition, capital requirements, debt maturities, the availability of debt and equity capital, applicable REIT and legal restrictions and the general overall economic conditions and other factors.

#### Securities Authorized for Issuance Under Equity Compensation Plans

The following table reflects information about the securities authorized for issuance under our equity compensation plans as of December 31, 2011.

Plan Category	Number of securities to be issued upon exercise of outstanding options, warrants and rights (a)	Weighted-average exercise price of outstanding options, warrants and rights (b)	Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column a) (c)
Equity compensation plans approved by shareholders	70,700	\$ 29.36	791,750
Equity compensation plans not approved by shareholders <sup>(1)</sup>	6,386	32.75	-
Total	77,086	\$ 29.64	791,750

<sup>(1)</sup> On May 29, 1997, we established a Long Term Incentive Plan (the "LTIP") pursuant to which all of our full-time salaried and full-time commission only employees, excluding our officers, were entitled to receive options to purchase shares of the our common stock at \$32.75 per share (i.e., the average of the highest and lowest selling prices for the common stock on May 29, 1997), on January 31, 2002. In accordance with the terms of the LTIP, (a) we granted the eligible participants options to purchase 167,918 shares of common stock; and (b) each eligible participant received an option to purchase a number of shares of common stock equal to the product of 167,918 and the quotient derived by dividing such participant's total compensation during the period beginning on January 1, 1997 and ending on December 31, 2001 (the "Award Period") by the aggregate compensation of all of the eligible participants during the Award Period.

## **Issuer Purchases of Equity Securities**

In November 2004, our Board of Directors authorized us to repurchase up to 1,000,000 shares of our common stock. We have 400,000 common shares remaining in the repurchase program. No common shares were repurchased under this program during 2011. There is no expiration date specified for the buyback program.

## **Recent Sales of Unregistered Securities**

From time to time, we may issue shares of common stock in exchange for OP Units that may be tendered to the Operating Partnership for redemption in accordance with the terms and provisions of the limited partnership agreement of the Operating Partnership. Such shares are issued based on the exchange ratios and formulas described in “Structure of the Company” under Item 1 above.

Holders of common OP Units have converted 10,249 units, 51,881 units and 158,207 units to common stock for the years ended December 31, 2011, 2010 and 2009, respectively. In March 2009, our Operating Partnership issued 110,444 common OP Units to Water Oak, Ltd.

In June, 2011, our Operating Partnership issued 455,476 Preferred OP units in connection with our acquisition of the Kentland Communities. See Note 2 of the Consolidated Financial Statements contained herein for other consideration paid in the transaction. The Preferred OP units are convertible, but not redeemable. The holders of the Preferred OP units can convert the Preferred OP units into shares of common stock at any time after December 31, 2013 based on a conversion price of \$41 per share with \$100 par value. The Preferred OP unit holders receive an annual preferred return of 5.1% until June 23, 2013 and 6.0% thereafter.

All of the above partnership units and shares of common stock were issued in private placements in reliance on Section 4(2) of the Securities Act of 1933, as amended, including Regulation D promulgated there under. No underwriters were used in connection with any of such issuances.

## **Use of Proceeds from Sales of Registered Securities**

Through the “at-the-market” Sales Agreement we entered into on August 2009, we sold 782,521 shares of common stock (480,184 shares from the first authorized issuance in 2009 and 302,337 shares from the second authorized issuance in 2011) and received net proceeds of approximately \$28.8 million during the year ended December 31, 2011. The shares of common stock were sold at the prevailing market price of our common stock at the time of each sale with a weighted average sale price of \$37.54. The proceeds were used to pay down our line of credit.

On August 6, 2010, we entered into a Common Stock Purchase Agreement (the “Purchase Agreement”) with REIT Opportunity, Ltd. (“REIT Ltd.”), which provides that, upon the terms and subject to the conditions set forth in the Purchase Agreement, REIT Ltd. is committed to purchase up to the lesser of \$100,000,000 of our common stock, or 3,889,493 shares of our common stock, which is equal to one share less than twenty percent of our issued and outstanding shares of common stock on the effective date of the Purchase Agreement. From time to time over the two year term of the Purchase Agreement, and at our sole discretion, we may present REIT Ltd. with draw down notices to purchase our common stock. Any and all issuances of shares of common stock to REIT Ltd. pursuant to the Purchase Agreement will be registered on our effective shelf registration statement on Form S-3. We sold 915,827 shares of common stock at a weighted average sale price of \$32.76 and received net proceeds of approximately \$30.0 million during the year ended December 31, 2011. The funds were used to pay down our line of credit, and then we subsequently used the line of credit to purchase Kentland.

In January 2012, we closed an underwritten registered public offering of 4,600,000 shares of common stock at a price of \$35.50 per share. The net proceeds from the offering were \$156.0 million after deducting the underwriting discounts and expenses related to the offering. We used the net proceeds of the offering to repay \$123.5 million of outstanding debt and we used \$25.0 million to fund a portion of the purchase price of the remaining three RV communities located in Florida that we acquired in 2012 (See Note 2 for additional information). We expect to use any remaining net proceeds of the offering to fund possible future acquisitions of properties, for working capital and for general corporate purposes.

## Performance Graph

Set forth below is a line graph comparing the yearly percentage change in the cumulative total shareholder return on our common stock against the cumulative total return of a broad market index composed of all issuers listed on the NYSE and an industry index comprised of fifteen publicly traded residential real estate investment trusts, for the five year period ending on December 31, 2011. This line graph assumes a \$100 investment on December 31, 2006, a reinvestment of dividends and actual increase of the market value of our common stock relative to an initial investment of \$100. The comparisons in this table are required by the SEC and are not intended to forecast or be indicative of possible future performance of our common stock.

Index	As of December 31,					
	2006	2007	2008	2009	2010	2011
Sun Communities, Inc.	100.00	70.64	54.55	91.39	169.97	203.38

## **ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATION**

### **EXECUTIVE SUMMARY**

The following discussion and analysis of the consolidated financial condition and results of operations should be read in conjunction with the Consolidated Financial Statements and notes thereto elsewhere herein.

We are a fully integrated, self-administered and self-managed REIT. We own, operate, and develop manufactured housing communities concentrated in the midwestern, southern, and southeastern United States. As of December 31, 2011, we owned and operated a portfolio of 159 developed properties located in 18 states, including 141 manufactured housing communities, eight RV communities, and 10 properties containing both manufactured housing and RV sites.

The majority of our revenue (Income from real property) is affected by occupancy and our ability to raise rents. Our residents normally sign a one year lease and then lease on a month to month basis for the next ten to fifteen years. Few of our leases are tied to published CPI statistics or other indices therefore allowing us significant flexibility in rental increases based on the markets in which we operate. Weighted average rent increases over the last five years have ranged from 2.2 percent to 3.3 percent and we expect to continue to be able to increase rents at or near these levels in the future. Our occupancy has also increased over the past three years from 83.4% as of December 31, 2009 to 85.3% as of December 31, 2011.

Our Rental Program is a significant contributor to the stability and improvement of our occupancies and revenue stream. Over the past several years, the Rental Program has been the single largest contributor to the generation of applications to live in our communities, which numbered nearly 23,500 in 2011. We own and rent approximately 7,000 homes throughout our portfolio applying stringent approval standards (over 50% of our rental applications are denied) to each applicant thereby ensuring maintenance of the quality of our communities as desirable neighborhoods in which to live. During 2011, occupants in the Rental Program increased by 906.

Home sales units sold have increased from 1,375 in 2010 to 1,439 in 2011 and we anticipate selling approximately 1,750 homes in the coming year. Our ability to sell homes is dependent on access to financing for the prospective buyer. Although the majority of our home sales are financed through third party lenders, some of which we provide recourse, we do provide financing for certain home purchasers who are unable to obtain financing through other means.

The economic downturns and market volatility during the past few years have presented both challenges and opportunities. We provide affordable housing to the marketplace which, in difficult times, improves demand for the housing values that our products and programs offer. This demand is somewhat offset by job losses in our resident base resulting from businesses closing and layoffs which occur in times of economic contraction.

The broader financial markets which provide capital for funding our continued growth and refinancing of debt are improving, but remain constrained and contain terms more restrictive than when most of our current debt was originated.

## **CRITICAL ACCOUNTING POLICIES AND ESTIMATES**

Management's Discussion and Analysis of Financial Condition and Results of Operations discuss our Consolidated Financial Statements, which have been prepared in accordance with generally accepted accounting principles in the United States ("GAAP"). The preparation of these financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the dates of the financial statements and the reported amounts of revenues and expenses during the reporting periods. In preparing these financial statements, management has made its best estimate and judgment of certain amounts included in the financial statements. Nevertheless, actual results may differ from these estimates under different assumptions or conditions. Management believes the following significant accounting policies, among others, affect its more significant judgments and estimates used in the preparation of our Consolidated Financial Statements:

### **Investment Property**

Investment property is recorded at cost, less accumulated depreciation. We review the carrying value of long-lived assets to be held and used for impairment quarterly or whenever events or changes in circumstances indicate a possible impairment. Circumstances that may prompt a test of recoverability may include a significant decrease in the anticipated market price, an adverse change to the extent or manner in which an asset may be used or in its physical condition or other such events that may significantly change the value of the long-lived asset. An impairment loss is recognized when a long-lived asset's carrying value is not recoverable and exceeds estimated fair value. We estimate the fair value of our long lived assets based on future cash flows and any potential disposition proceeds for a given asset. Forecasting cash flows requires management to make estimates and assumptions about such variables as the estimated holding period, rental rates, occupancy, development and operating expenses during the holding period, as well as disposition proceeds. Management uses its best judgment when developing these estimates and assumptions, but the development of the projected future cash flows is based on subjective variables. Future events could occur which would cause us to conclude that impairment indicators exist, and significant adverse changes in national, regional, or local market conditions or trends may cause us to change the estimates and assumptions used in our impairment analysis. The results of an impairment analysis could be material to our financial statements.

### **Capitalized Costs**

We capitalize certain costs incurred in connection with the development, redevelopment, capital enhancement and leasing of our properties. Management is required to use professional judgment in determining whether such costs meet the criteria for immediate expense or capitalization. The amounts are dependent on the volume and timing of such activities and the costs associated with such activities. Maintenance, repairs and minor improvements to properties are expensed when incurred. Renovations and improvements to properties are capitalized and depreciated over their estimated useful lives and construction costs related to the development of new community or expansion sites are capitalized until the property is substantially complete. Costs incurred to renovate repossessed homes for our Rental Program are capitalized and costs incurred to refurbish the homes at turnover and repair the homes while occupied are expensed. Certain expenditures to dealers and residents related to obtaining lessees in our communities are capitalized and amortized over a seven year period based on the anticipated term of occupancy of a resident. Costs associated with implementing our computer systems are capitalized and amortized over the estimated useful lives of the related software and hardware.

### **Notes and Other Receivables**

We provide financing to purchasers of manufactured homes generally located in our communities. The notes are collateralized by the underlying manufactured home sold. Notes receivable include both installment loans retained by the Company as well as transferred loans that have not met the requirements for sale accounting which are presented herein as collateralized receivables (See Note 5 for additional information). For purposes of accounting policy, all notes receivable are considered one homogenous segment, as the notes are typically underwritten using the same requirements and terms. Notes receivable are reported at their outstanding unpaid principal balance adjusted for an allowance for loan loss. Interest income is accrued based upon the unpaid principal balance of the loans.

Past due status of our notes receivable is determined based upon the contractual terms of the note. When a note receivable becomes 60 days delinquent, we stop accruing interest on the note receivable. The interest on nonaccrual loans is accounted for on the cash basis until qualifying for return to accrual. Loans are returned to accrual when all principal and interest amounts contractually due are brought current and future payments are reasonably assured. Loans on a nonaccrual status were immaterial at December 31, 2011 and 2010. The ability to collect our notes receivable is measured based on current and historical information and events. We consider numerous factors including: length of delinquency, estimated costs to lease or sell, and repossession history. Our experience supports a high recovery rate for notes receivable; however there is some degree of uncertainty about the recoverability of our investment in these notes receivable. We are generally able to recover our recorded investment in uncollectible notes receivable by repossessing the homes on the notes retained by us and repurchasing the homes on the collateralized receivables, and subsequently selling or leasing these homes to potential residents in our communities. We have established a loan loss reserve based on our estimated unrecoverable costs associated with repossessed/repurchased homes. We estimate our unrecoverable costs to be the repurchase price of the home collateralizing the note receivable plus repair and remarketing costs in excess of the estimated selling price of the home being repossessed. A historical average of this excess cost is calculated based on prior repossessions/repurchases and is applied to our estimated annual future repossessions to create the allowance for both installment and collateralized notes receivable. See Note 6 for additional information.

We evaluate the collectability of a loan based on our ability to collect the scheduled payments of principal and interest when due according to the contractual terms of the loan agreement. We generally see that if the obligor is delinquent on the loan they are also delinquent on site rent. If the scheduled payment is delinquent more than five to seven days, dependent on state law, we begin the repossession and eviction process simultaneously. This process generally takes 30 to 45 days; due to the short time frame from delinquent loan to repossession we do not evaluate the notes receivables for impairments. No loans were considered impaired as of December 31, 2011 and 2010.

We evaluate the credit quality of our notes receivable at the inception of the receivable. We consider the following factors in order to determine the credit quality of the applicant- FICO scores; home debt to income ratio; total debt to income ratio; length of employment; and previous landlord references.

Other receivables are generally comprised of amounts due from residents for rent and related charges, home sale proceeds receivable from sales near year end and various other miscellaneous receivables. Accounts receivable from residents are typically due within 30 days and stated at amounts due from residents net of an allowance for doubtful accounts. Accounts outstanding longer than the contractual payment terms are considered past due. We evaluate the recoverability of our receivables whenever events occur or there are changes in circumstances such that management believes it is probable that it will be unable to collect all amounts due according to the contractual terms of the loan and lease agreements. Receivables related to community rents are reserved when we believe that collection is less than probable, which is generally after a resident balance reaches 60 to 90 days past due.

### **Investment in Affiliates**

Investments in affiliates in which we do not have a controlling direct or indirect voting interest, but can exercise significant influence over the entity with respect to its operations and major decisions, are accounted for using the equity method of accounting. The carrying value of our investment is adjusted for our proportionate share of the affiliate's net income or loss and reduced by distributions received. We review the carrying value of our investment in affiliates for other than temporary impairment whenever events or changes in circumstances indicate a possible impairment. Financial condition, operational performance, and other economic trends are some of the factors we consider when we evaluate the existence of impairment indicators. When we have a carrying value of zero for our investment, we suspend the equity method of accounting until such time that the affiliate's net income equals or exceeds the share of net losses not recognized during the time in which the equity method of accounting was suspended.

### **Revenue Recognition**

Rental income attributable to site and home leases is recorded on a straight-line basis when earned from tenants. Leases entered into by tenants are generally for one year terms but may range from month-to-month to two years and are renewable by mutual agreement from us and the resident, or in some cases, as provided by state statute. Revenue from the sale of manufactured homes is recognized upon transfer of title at the closing of the sales transaction. Interest income on notes receivable is recorded on a level yield basis over the life of the notes. We report certain taxes collected from the resident and remitted to taxing authorities in revenue. These taxes include certain Florida property and fire taxes.

### **Depreciation and Amortization**

Depreciation and amortization are computed on a straight-line basis over the estimated useful lives of the assets. Useful lives are 30 years for land improvements and buildings, 10 years for rental homes, seven to 15 years for furniture, fixtures and equipment, and seven years for intangible assets.

### **Derivative Instruments and Hedging Activities**

We have four derivative contracts consisting of two interest rate swap agreements with a total notional amount of \$45.0 million, and an two interest rate cap agreements with a notional amount of \$162.4 million as of December 31, 2011. We do not enter into derivative instruments for speculative purposes. For those hedges that qualify for cash flow hedge accounting, we adjust our balance sheet on a quarterly basis to reflect current fair market value of our derivatives. Changes in the fair value of derivatives are recorded in earnings or comprehensive income (loss), as appropriate. The ineffective portion of these hedges are immediately recognized in earnings to the extent that the change in value of a derivative does not perfectly offset the change in value of the instrument being hedged. The effective portion of these hedges are recorded in accumulated other comprehensive income (loss). We use standard market conventions to determine the fair values of derivative instruments, including the quoted market prices or quotes from brokers or dealers for the same or similar instruments. All methods of assessing fair value result in a general approximation of value and such value may never actually be realized.

## **Income Taxes**

We have elected to be taxed as a REIT as defined under Section 856(c) of the Code. In order for us to qualify as a REIT, at least ninety-five percent (95%) of our gross income in any year must be derived from qualifying sources. As a REIT, we generally will not be subject to U.S. federal income taxes at the corporate level if we distribute at least ninety percent (90%) of its REIT ordinary taxable income to our stockholders, which we fully intend to do. If we fail to qualify as a REIT in any taxable year, we will be subject to Federal income tax (including any applicable alternative minimum tax) on our taxable income at regular corporate rates. We remain subject to certain state and local taxes on our income and property as well as Federal income and excise taxes on our undistributed income.

We are subject to certain state taxes that are considered income taxes and have certain subsidiaries that are taxed as regular corporations. Deferred tax assets or liabilities are recognized for temporary differences between the tax bases of assets and liabilities and their carrying amounts in the financial statements and net operating loss carry forwards. Deferred tax assets and liabilities are measured using currently enacted tax rates. A valuation allowance is established if based on available evidence it is more likely than not that some portion or all of the deferred tax assets will not be realized.

## **Recent Accounting Pronouncements**

In April 2011, the FASB issued ASU 2011-03, "Reconsideration of Effective Control for Repurchase Agreements" (ASU 2011-03) which amends ASC Topic 860, Transfers and Servicing. The updated guidance in ASC Topic 860 removes from the assessment of effective control (1) the criterion requiring the transferor to have the ability to repurchase or redeem the financial assets on substantially the agreed terms, even in the event of default by the transferee, and (2) the collateral maintenance implementation guidance related to that criterion. The updated guidance in ASC Topic 860 is effective for the first interim or annual period beginning on or after December 15, 2011. Early adoption is not permitted. The adoption of this guidance will not have any impact on our results of operations or financial condition, and we will apply the provisions after the effective date.

In May 2011, the FASB issued ASU 2011-04, "Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs" (ASU 2011-04) which amends ASC Topic 820, Fair Value Measurement. The updated guidance in ASC Topic 820 changes the wording used to describe the requirements in U.S. GAAP for measuring fair value and for disclosing information about fair value measurements. The updated guidance in ASC Topic 820 is effective during interim and annual periods beginning after December 15, 2011. Early adoption is not permitted. We are currently evaluating the impact of ASU 2011-04 on our results of operations, financial condition and disclosure requirements. We will apply the provisions of these accounting standards after the effective date.

In June 2011, the FASB issued ASU 2011-05, "Presentation of Comprehensive Income" (ASU 2011-05) which amends ASC Topic 220, Comprehensive Income. The updated guidance in ASC Topic 220 gives an entity the option to present the total of comprehensive income, the components of net income and the components of other comprehensive income either in a single continuous statement of comprehensive income or in two separate but consecutive statements. The updated guidance in ASC Topic 220 is effective for fiscal years, and interim periods within those years, beginning after December 15, 2011. Early adoption is permitted. The adoption of this guidance did not have any impact on our results of operations or financial condition.

In December 2011, the FASB issued ASU 2011-12, "Comprehensive Income (Topic 220)—Deferral of the Effective Date for Amendments to the Presentation of Reclassifications of Items Out of Accumulated Other Comprehensive Income in Accounting Standards Update No. 2011-12" (ASU 2011-12) to defer the effective date for part of ASU 2011-05. The deferral of ASU 2011-05 is to defer the requirement of adjustments of items out of accumulated other income to be presented on the components of both net income and other comprehensive income in financial statements. This deferral is effective for fiscal years, and interim periods within those years, beginning after December 15, 2011, so that entities will not be required to comply with the presentations requirements in ASU 2011-05 that ASU 2011-12 is deferring. Early adoption is permitted. The adoption of this guidance did not have any impact on our results of operations or financial condition.

## SUPPLEMENTAL MEASURES

In addition to the results reported in accordance with GAAP, we have provided information regarding Net Operating Income (“NOI”) in the following tables. NOI is derived from revenues minus property operating expenses and real estate taxes. We use NOI as the primary basis to evaluate the performance of our operations. A reconciliation of NOI to net income (loss) attributable to Sun Communities, Inc. is included in “Results of Operations” below.

We believe that NOI is helpful to investors and analysts as a measure of operating performance because it is an indicator of the return on property investment, and provides a method of comparing property performance over time. We use NOI as a key management tool when evaluating performance and growth of particular properties and/or groups of properties. The principal limitation of NOI is that it excludes depreciation, amortization, interest expense, and non-property specific expenses such as general and administrative expenses, all of which are significant costs, and therefore, NOI is a measure of the operating performance of our properties rather than of the Company overall. We believe that these costs included in net income (loss) often have no effect on the market value of our property and therefore limit its use as a performance measure. In addition, such expenses are often incurred at a parent company level and therefore are not necessarily linked to the performance of a real estate asset.

NOI should not be considered a substitute for the reported results prepared in accordance with GAAP. NOI should not be considered as an alternative to net income (loss) as an indicator of our financial performance, or to cash flows as a measure of liquidity; nor is it indicative of funds available for our cash needs, including our ability to make cash distributions. NOI, as determined and presented by us, may not be comparable to related or similarly titled measures reported by other companies.

We also provide information regarding Funds From Operations (“FFO”). We consider FFO an appropriate supplemental measure of the financial performance of an equity REIT. Under the National Association of Real Estate Investment Trusts (“NAREIT”) definition, FFO represents net income, excluding extraordinary items (as defined under GAAP), and gain (loss) on sales of depreciable property, plus real estate related depreciation and amortization (excluding amortization of financing costs), and after adjustments for unconsolidated partnerships and joint ventures. Management also uses FFO-Adjusted a non-GAAP financial measure, which excludes certain gain and loss items that management considers unrelated to the operational and financial performance of our core business. We believe that FFO-Adjusted provides investors with another financial measure of our operating performance that is more comparable when evaluating period over period results. A discussion of FFO, FFO-Adjusted, a reconciliation of FFO to net loss, and FFO to FFO-Adjusted are included in the presentation of FFO in “Results of Operations” following the “Comparison of the Years Ended December 31, 2011 and 2010”.

## RESULTS OF OPERATIONS

We report operating results under two segments: Real Property Operations and Home Sales and Rentals. The Real Property Operations segment owns, operates, and develops manufactured housing and RV communities concentrated in the midwestern, southern, and southeastern United States and is in the business of acquiring, operating, and expanding manufactured housing and RV communities. The Home Sales and Rentals segment offers manufactured home sales and leasing services to tenants and prospective tenants of our communities. We evaluate segment operating performance based on NOI.

The accounting policies of the segments are the same as those applied in the Consolidated Financial Statements, except for the use of NOI. We may allocate certain common costs, primarily corporate functions, between the segments differently than we would for standalone financial information prepared in accordance with GAAP. These allocated costs include expenses for shared services such as information technology, finance, communications, legal, and human resources. We do not allocate interest expense and certain other corporate costs not directly associated with the segments' NOI.

## COMPARISON OF THE YEARS ENDED DECEMBER 31, 2011 AND 2010

<sup>(2)</sup> Occupied sites do not include 4,814 sites acquired during 2011. The total change in occupied sites including acquired sites is 5,706 sites.

<sup>(3)</sup> Average rent relates only to manufactured housing sites, and excludes permanent and seasonal RV sites.

Real Property NOI increased by \$11.7 million, from \$135.2 million to \$146.9 million or 8.6%. The growth in NOI is primarily due to \$6.9 million from the newly acquired properties and \$4.8 million from the same site properties as detailed below.

## REAL PROPERTY OPERATIONS - SAME SITE

A key management tool we use when evaluating performance and growth of our properties is a comparison of Same Site communities. Same Site communities consist of properties owned and operated for the same period in both years for the years ended December 31, 2011 and 2010. The Same Site data may change from time-to-time depending on acquisitions, dispositions, management discretion, significant transactions, or unique situations.

In order to evaluate the growth of the Same Site communities, management has classified certain items differently than our GAAP statements. The reclassification difference between our GAAP statements and our Same Site portfolio is the reclassification of water and sewer revenues from income from real property to utilities. A significant portion of our utility charges are re-billed to our residents. We reclassify these amounts to reflect the utility expenses associated with our Same Site portfolio, net of recovery.

The following tables reflect certain financial and other information for our Same Site communities as of and for the years ended December 31, 2011 and 2010:

Financial Information (in thousands)	Years Ended December 31,			
	2011	2010	Change	% Change

<sup>(1)</sup> Occupied sites and occupancy % include manufactured housing and permanent RV sites, and exclude seasonal RV sites.

<sup>(2)</sup> Occupancy % excludes completed but vacant expansion sites.

<sup>(3)</sup> Average rent relates only to manufactured housing sites, and excludes permanent and seasonal RV sites.

Real Property NOI increased by \$4.8 million from \$135.2 million to \$140.0 million, or 3.6 percent. The growth in NOI is primarily due to increased revenues. Income from real property revenues consist of manufactured home and RV site rent, and miscellaneous other property revenues. Income from real property revenues increased \$5.7 million, from \$193.1 million to \$198.8 million, or 3.0 percent. The growth in income from real property was due to a combination of factors. Revenue from our manufactured home and RV portfolio increased by \$5.3 million due to average rental rate increases of 2.7 percent and due to the increased number of occupied home sites. This growth in revenue was partially offset by rent concessions offered to new residents and current residents converting from home renters to home owners. Additionally, we experienced increased miscellaneous other property revenues of \$0.4 million primarily due to revenue realized on cable television royalties and revenue from late fee and non-sufficient funds charges.

Property operating expenses increased \$0.9 million, from \$57.8 million to \$58.7 million, or 1.6 percent. The growth in property operating expenses was due to several factors. Payroll and benefits increased by \$0.3 million due to increased wages from annual merit increases. Supplies and repairs increased by \$0.6 million primarily due to increased cost of lawn services and community maintenance. Utility costs reported net of rebilled water/sewer revenue, primarily related to water, electricity charges, and rubbish removal, decreased \$0.4 million due to increased water and sewer income. Real estate taxes decreased by \$0.2 million primarily due to reduced real estate taxes in Indiana and Illinois. Legal, taxes and insurance remained nearly constant. Other operating expenses increased by \$0.6 million due to increased bank charges, resident relation expenses, and bad debt expense.

## HOME SALES AND RENTALS

We acquire pre-owned and repossessed manufactured homes located within our communities from lenders and dealers at substantial discounts. We lease or sell these value priced homes to current and prospective residents. We also purchase new homes to lease and sell to current and prospective residents. The programs we have established for our customers to lease or buy new and pre-owned homes have helped to improve portfolio occupancy.

The following table reflects certain financial and other information for our Rental Program as of and for the years ended December 31, 2011 and 2010:

Financial Information (in thousands)	Years Ended December 31,

Number of sold rental homes	789	762	27	3.5%
Weighted average monthly rental rate	\$ 756	\$ 735	\$ 21	2.9%

<sup>(1)</sup> The renter's monthly payment includes the site rent and an amount attributable to the leasing of the home. The site rent is reflected in the Real Property Operations segment. For purposes of management analysis, the site rent is included in the Rental Program revenue to evaluate the incremental revenue gains associated with implementation of the Rental Program, and assess the overall growth and performance of Rental Program and financial impact to our operations.

Rental Program NOI increased \$4.3 million from \$33.7 million to \$38.0 million, or 12.9 percent due to increased revenues of \$5.1 million, offset by increased expenses of \$0.8 million. Revenues increased \$5.1 million primarily due to the increased number of residents participating in the Rental Program as indicated in the table above and from increased market rates from the site rent.

The increase in operating and maintenance expenses of \$0.8 million was due to several factors. Commissions increased by \$0.3 million due to increased number of new leases and increased lease renewal rate. Repairs costs on occupied home rentals increased by \$0.3 million due to the increased number of homes in the Rental Program. Refurbishment costs increased by \$0.1 million. Marketing and other costs increased by \$0.1 million due to an increase in bad debt expense partially offset by a decrease in utility expense.

The following table reflects certain financial and statistical information for our Home Sales Program for the years ended December 31, 2011 and 2010:

<b>Financial Information (in thousands)</b>	<b>Years Ended December 31,</b>

Home Sales NOI decreased by \$1.0 million, from \$7.9 million to \$6.9 million, or 13.3 percent primarily due to reduced profit margins on pre-owned homes.

The gross profit margin on new home sales slightly increased due to the increased average selling price per new home sold. The gross profit margin on pre-owned home sales decreased 4.1 percent from 25.6 percent to 21.5 percent. We decreased the average margin of our pre-owned homes to stimulate sales thereby accelerating the recycling of the capital invested in inventory and the Rental Program. Approximately 90 percent of these home sales are financed by third party lenders or are paid for in cash.

## OTHER INCOME STATEMENT ITEMS

**Other revenues** include other income (loss), interest income, and ancillary revenues, net. Other revenues increased by \$2.0 million, from \$9.0 million to \$11.0 million, or 22.2 percent. This was due to an increase in interest income of \$1.5 million from collateralized receivables, a \$0.4 million increase in other income, primarily due to the sale of certain raw water rights, and a \$0.1 million increase in ancillary revenues, net.

**Real Property general and administrative costs** increased by \$2.5 million, from \$17.2 million to \$19.7 million, or 14.5 percent due to increased wages, bonus, payroll taxes and health benefits of \$1.5 million mainly from additional resources from acquisition and growth, employee relation expenses of \$0.1 million, training and travel expense of \$0.1 million, office expenses of \$0.1 million and increased tax expense of \$0.7 million. Tax expense for the year ended December 31, 2010 included a \$0.7 million reversal of a state tax provision recorded in December of 2009 and the year ended December 31, 2011 does not contain such a reversal.

**Home Sales and Rentals general and administrative costs** increased by \$0.5 million, from \$7.6 million to \$8.1 million, or 6.6 percent due to increased salary, commission costs and payroll tax of \$0.4 million and increased inventory utility costs of \$0.1 million.

**Acquisition related costs** increased to \$2.0 million (See Note 2).

**Depreciation and amortization costs** increased by \$5.3 million, from \$68.9 million to \$74.2 million, or 7.7 percent due to increased depreciation on investment property for use in our Rental Program of \$1.9 million and increased other depreciation and amortization of \$3.4 million primarily due to the newly acquired properties (See Note 2).

**Interest expense** on debt, including interest on mandatorily redeemable debt, increased by \$2.5 million, from \$65.4 million to \$67.9 million, or 3.8 percent due to increased expense associated with our secured borrowing arrangements of \$1.5 million, an increase in our mortgage interest of \$0.8 million, an increase in interest on our lines of credit of \$0.3 million and a \$2.0 million increase due to acquisition related debt (See Note 2). This was offset by a \$0.1 million reduction in bank service charges and a \$2.0 million reduction in interest expense primarily due to the settlement with FNMA (See Note 9).

**Equity income (loss) and distributions from affiliates** increased by \$3.2 million, from a loss of \$1.1 million to income of \$2.1 million due to the suspension of equity accounting in 2010 as our investment below is zero. The income recorded in 2011 is dividend income.

## COMPARISON OF THE YEARS ENDED DECEMBER 31, 2010 AND 2009

### REAL PROPERTY OPERATIONS - SAME SITE

A key management tool we use when evaluating performance and growth of our properties is a comparison of Same Site communities. Same Site communities consist of properties owned and operated for the same period in both years for the years ended December 31, 2010 and 2009. Our Same Site portfolio is equal to our total portfolio for the years ended December 31, 2010 and 2009. The Same Site data may change from time-to-time depending on acquisitions, dispositions, management discretion, significant transactions, or unique situations.

In order to evaluate the growth of the Same Site communities, management has classified certain items differently than our GAAP statements. The reclassification difference between our GAAP statements and our Same Site portfolio is the reclassification of water and sewer revenues from income from real property to utilities. A significant portion of our utility charges are re-billed to our residents. We reclassify these amounts to reflect the utility expenses associated with our Same Site portfolio, net of recovery.

Real Property NOI increased by \$4.1 million from \$131.1 million to \$135.2 million, or 3.1 percent. The growth in NOI is primarily due to increased revenues. Income from real property revenues consist of manufactured home and RV site rent, and miscellaneous other property revenues. Income from real property revenues increased \$4.6 million, from \$188.4 million to \$193.0 million, or 2.5 percent. The growth in income from real property was due to a combination of factors. Revenue from our manufactured home and RV portfolio increased by \$4.2 million due to average rental rate increases of 2.6 percent and due to the increased number of occupied home sites. This growth in revenue was partially offset by rent concessions offered to new residents and current residents converting from home renters to home owners. Additionally, we experienced increased miscellaneous other property revenues of \$0.4 million primarily due to revenue realized on cable television royalties.

Property operating expenses increased \$0.6 million, from \$57.3 million to \$57.9 million, or 1.0 percent. The growth in property operating expenses was due to several factors. Payroll and benefits increased by \$0.4 million due to increased wages from annual merit increases. Supplies and repairs increased by \$0.8 million primarily due to increased cost of lawn services, water system and community maintenance. Utility costs, primarily related to water, electricity charges, and rubbish removal, decreased \$0.5 million due to increased water and sewer income. Real estate taxes decreased by \$0.3 million primarily due to tax appeal refunds and reduced real estate taxes in Indiana. Property and casualty insurance decreased by \$0.1 million due to decreased premiums on insurance policies. Other operating expenses increased by \$0.3 million due to increased administrative costs, resident relations, and bad debt expense.

For purposes of management analysis, the site rent is included in the Rental Program revenue to evaluate the incremental revenue gains associated with implementation of the Rental Program, and assess the overall growth and performance of Rental Program and financial impact to our operations.

Rental Program NOI increased \$2.8 million from \$30.9 million to \$33.7 million, or 9.0 percent due to increased revenues of \$1.9 million and by decreased expenses of \$0.9 million. Revenues increased \$1.9 million primarily due to the increased number of residents participating in the Rental Program as indicated in the table above.

The decrease in operating and maintenance expenses of \$0.9 million was due to several factors. Commissions decreased by \$0.7 million due to restructuring of the commission plan associated with new and renewed leases. Expenses associated with repairs and refurbishment increased by \$0.2 million. Repairs costs on occupied home rentals increased by \$0.3 million due to the increased number of occupied homes in the Rental Program offset by refurbishment costs which decreased by \$0.1 million due to a decline in the average cost associated with preparing a previously leased home for a new occupant. Marketing and other costs decreased by \$0.4 million due to reductions in bad debt expense and advertising expenses.

Home Sales NOI decreased by \$1.3 million, from \$9.2 million to \$7.9 million, or 14.3 percent due to decreased profit margins on new and pre-owned homes.

The gross profit margin on new home sales decreased 0.9 percent from 15.6 percent to 14.7 percent. The gross profit decreased by 55.3 percent from \$0.8 million to \$0.4 million which was primarily due to a 49.3 percent decline in sales volume.

The gross profit margin on pre-owned home sales decreased 4.9 percent from 30.5 percent to 25.6 percent. The majority of our pre-owned home sales are related to homes previously used in our Rental Program. These sales convert home renters to home owners and thereby allow us to recycle capital invested in the Rental Program. We decreased the average selling price of our pre-owned homes to increase the volume of sales thereby accelerating the recycling of this capital. Approximately 90 percent of these home sales are financed by third party lenders or are paid for in cash.

## OTHER INCOME STATEMENT ITEMS

**Other revenues** include other income (loss), interest income, and ancillary revenues, net. Other revenues increased by \$2.0 million, from \$7.0 million to \$9.0 million, or 28.6 percent. This increase was due to increased interest income of \$2.0 million. The increase in interest income was primarily due to the additional installment notes receivable recognized in association with the transfer of financial assets that are recorded as collateralized receivables in the Consolidated Balance Sheets. The interest income on these collateralized receivables is offset by the same amount of interest expense recognized on the secured debt recorded in association with this transaction. See Note 5 for additional information.

**Real Property general and administrative** costs decreased by \$0.5 million, from \$17.7 million to \$17.2 million, or 2.9 percent due to reduced sales, use and other tax expense of \$1.5 million and decreased salary and other compensation costs of \$0.1 million offset by increased legal costs of \$0.5 million and increased other expenses of \$0.6 million. The decreased sales, use and other tax expense includes \$1.6 million decrease due to the reversal of a provision for \$0.7 million related to the filing methodology for federally disregarded single member limited liability companies under the former Michigan Single Business Tax. The liability was required to be recorded at December 31, 2009 and was reversed in March 2010 after legislative action by the State of Michigan.

**Home Sales and Rentals general and administrative** costs increased by \$0.2 million, from \$7.4 million to \$7.6 million, or 2.7 percent due to increased salary costs of \$0.4 million offset by a decrease in leasing costs of \$0.1 million and a decrease in taxes and insurance of \$0.1 million.

**Georgia flood damage** charges of \$0.8 million were recorded due to a flood that caused substantial damage to our property, Countryside Village of Atlanta, located in Lawrenceville, Georgia in 2009. See Note 4 for additional information.

**Depreciation and amortization** costs increased by \$1.4 million, from \$67.4 million to \$68.9 million, or 2.1 percent due to increased depreciation on investment property for use in our Rental Program of \$0.7 million and increased amortization of promotions and other depreciation of \$0.7 million.

**Interest expense** on debt, including interest on mandatorily redeemable debt, increased by \$2.6 million, from \$62.8 million to \$65.4 million, or 4.2 percent due to increased expense associated with the increase in our FNMA facility fee of \$0.9 million and our secured borrowing arrangements of \$2.8 million partially offset by a reduction in expense of \$1.1 million primarily due to lower interest rates charged on variable rate debt. The interest expense on our secured borrowing is offset completely by the interest income recognized on our collateralized receivables. See Note 5 for additional information.

**Equity loss from affiliates** decreased by \$1.1 million, from a loss of \$2.2 million, to loss of \$1.1 million, net of \$0.5 million cash distribution, or 50.0 percent due to limited recognition of our allocation of Origen's and the LLC's equity losses. We suspend equity accounting in periods in which the recognition of equity losses would reduce the carrying value of our investment below zero.

**Provision for state income taxes** increased by \$0.1 million, from \$0.4 million to \$0.5 million, or 25.0 percent due to the utilization of investment tax credits which reduced tax expense in 2009.

## FUNDS FROM OPERATIONS

We provide information regarding FFO as a supplemental measure of operating performance. FFO is defined by the NAREIT as net income (loss) (computed in accordance GAAP), excluding gains (or losses) from sales of depreciable operating property, plus real estate-related depreciation and amortization, and after adjustments for unconsolidated partnerships and joint ventures. Due to the variety among owners of identical assets in similar condition (based on historical cost accounting and useful life estimates), we believe excluding gains and losses related to sales of previously depreciated operating real estate assets, and excluding real estate asset depreciation and amortization, provides a better indicator of our operating performance. FFO is a useful supplemental measure of our operating performance because it reflects the impact to operations from trends in occupancy rates, rental rates, and operating costs, providing perspective not readily apparent from net income (loss). Management believes that the use of FFO has been beneficial in improving the understanding of operating results of REITs among the investing public and making comparisons of REIT operating results more meaningful. Management, the investment community, and banking institutions routinely use FFO, together with other measures, to measure operating performance in our industry. Further, management uses FFO for planning and forecasting future periods.

Because FFO excludes significant economic components of net income (loss) including depreciation and amortization, FFO should be used as an adjunct to net income (loss) and not as an alternative to net income (loss). The principal limitation of FFO is that it does not represent cash flow from operations as defined by GAAP and is a supplemental measure of performance that does not replace net income (loss) as a measure of performance or net cash provided by operating activities as a measure of liquidity. In addition, FFO is not intended as a measure of a REIT's ability to meet debt principal repayments and other cash requirements, nor as a measure of working capital. FFO only provides investors with an additional performance measure. Management also uses FFO-Adjusted a non-GAAP financial measure, which excludes certain gain and loss items that management considers unrelated to the operational and financial performance of our core business. We believe that FFO-Adjusted provides investors with another financial measure of our operating performance that is more comparable when evaluating period over period results. Other REITs may use different methods for calculating FFO and FFO-Adjusted and, accordingly, our FFO and FFO-Adjusted may not be comparable to other REITs.

<sup>(1)</sup> This amount represents our equity loss from affiliates in 2010 and 2009. Origen declared cash dividends of \$2.1 million and \$0.5 million for the years ended December 31, 2011 and 2010, respectively, which remain in FFO and FFO-Adjusted. No cash dividends were declared for the year ended December 31, 2009.

<sup>(2)</sup> The state income tax benefit for the period ended December 31, 2011, 2010 and 2009 represents the reversal of the Michigan Business Tax provision previously recorded.

## LIQUIDITY AND CAPITAL RESOURCES

Our principal liquidity demands have historically been, and are expected to continue to be, distributions to our stockholders and the unitholders of the Operating Partnership, capital improvements to properties, the purchase of new and pre-owned homes, property acquisitions, development and expansion of properties, and debt repayment.

We expect to meet our short-term liquidity requirements through working capital provided by operating activities and through borrowings on our lines of credit. We consider these resources to be adequate to meet our operating requirements, including recurring capital improvements, routinely amortizing debt and other normally recurring expenditures of a capital nature, payment of dividends to our stockholders to maintain qualification as a REIT in accordance with the Code, and payment of distributions to our Operating Partnership's unitholders.

We closed on four acquisitions in 2011 in which we acquired 23 properties in total, 18 manufactured housing communities and five RV communities. Subsequent to year end, we acquired three additional RV communities. See Note 2 for details on the acquisitions. We will continue to evaluate acquisition opportunities that meet our criteria for acquisition. Should additional investment opportunities arise in 2012, we will finance the acquisitions through secured financing, the assumption of existing debt on the properties or the issuance of certain equity securities.

During the year ended December 31, 2011, we have invested \$35.9 million related to the acquisition of homes intended for the Rental Program net of proceeds from third party financing from homes sales. Expenditures for 2012 will be dependent upon the condition of the markets for repossessions and new home sales, as well as rental homes. We finance new home purchases with a \$12.0 million floor plan facility. Our ability to purchase homes for sale or rent may be limited by cash received from third party financing of our home sales, available floor plan financing and working capital available on our secured line of credit.

Cash and cash equivalents decreased by \$2.5 million from \$8.4 million at December 31, 2010, to \$5.9 million as of December 31, 2011. Net cash provided by operating activities from continuing operations increased by \$4.4 million from \$59.1 million for the year ended December 31, 2010 to \$63.5 million for the year ended December 31, 2011.

Our net cash flows provided by operating activities from continuing operations may be adversely impacted by, among other things: (a) the market and economic conditions in our current markets generally, and specifically in metropolitan areas of our current markets; (b) lower occupancy and rental rates of our properties; (c) increased operating costs, such as wage and benefit costs, insurance premiums, real estate taxes and utilities, that cannot be passed on to our tenants; (d) decreased sales of manufactured homes and (e) current volatility in economic conditions and the financial markets. See "Risk Factors" in Item 1A.

We have a secured revolving line of credit facility with a maximum borrowing capacity of \$130.0 million, subject to certain borrowing base calculations. The outstanding balance on the line of credit at December 31, 2011 and 2010 was \$107.5 million and \$81.0 million, respectively. In addition, \$4.0 million of availability was used to back standby letters of credit as of December 31, 2011 and 2010. Borrowings under the line of credit bear a floating interest rate based on Eurodollar plus a margin that is determined based on our leverage ratio calculated in accordance with the line of credit agreement, which can range from 2.25% to 2.95%. The effective weighted average interest rate on the outstanding borrowings was 3.4 percent as of December 31, 2011. As of December 31, 2011, \$18.5 million was available to be drawn under the facility based on the calculation of the borrowing base. During 2011, the highest balance on the line of credit was \$107.5 million. The borrowings under the line of credit mature October 1, 2015, assuming the election of a one year extension that is available at our discretion, subject to certain conditions. Although the secured revolving line of credit is a committed facility, the financial failure of one or more of the participating financial institutions may reduce the amount of available credit for use by us.

The line of credit facility contains various leverage, fixed charge coverage, net worth maintenance and other customary covenants all of which we were in compliance with as of December 31, 2011. The most limiting covenants contained in the line of credit are the maximum leverage ratio and minimum fixed charge coverage ratios. The maximum leverage ratio covenant requires that total indebtedness be no more than 70 percent of total asset value as defined in the terms of the line of credit agreement. The minimum fixed charge coverage ratio covenant requires a minimum ratio of 1.45:1. As of December 31, 2011, the leverage coverage was 63.0 percent and the fixed charge coverage ratio was 1.86:1.

## LIQUIDITY AND CAPITAL RESOURCES, CONTINUED

The slow economy and the conservative lending environment have generally resulted in a reduction of availability of financing and higher borrowing costs. Although base interest rates have generally decreased relative to their levels prior to the disruptions in the financial markets, the tightening of credit markets has affected the credit risk spreads charged over base interest rates on, and the availability of, mortgage loan financing. For us, this is the most relevant consequence of financial market volatility. We believe this risk is somewhat mitigated because we have adequate working capital provided by operating activities as noted above and debt maturities are appropriately staggered

We anticipate meeting our long-term liquidity requirements, such as scheduled debt maturities, large property acquisitions, and Operating Partnership unit redemptions through the issuance of certain debt or equity securities and/or the collateralization of our properties. We currently have 32 unencumbered properties with an estimated market value of \$233.7 million, most of which support the borrowing base for our \$130.0 million secured line of credit. From time to time, we may also issue shares of our capital stock or preferred stock, issue equity units in our Operating Partnership, utilize debt and/or equity venture capital, or sell selected assets. Our ability to finance our long-term liquidity requirements in such a manner will be affected by numerous economic factors affecting the manufactured housing community industry at the time, including the availability and cost of mortgage debt, our financial condition, the operating history of the properties, the state of the debt and equity markets, and the general national, regional, and local economic conditions. When it becomes necessary for us to approach the credit markets, the volatility in those markets could make borrowing more difficult to secure, more expensive, or effectively unavailable. See "Risk Factors" in Item 1A. If we are unable to obtain additional debt or equity financing on acceptable terms, our business, results of operations and financial condition would be adversely impacted.

Our primary long-term liquidity needs are principal payments on outstanding indebtedness. As of December 31, 2011, our outstanding contractual obligations, including interest expense, were as follows:

Contractual Cash Obligations	Total Due	Payments Due By Period (In thousands)			
		< 1 year	1-3 years	3-5 years	After 5 years

<sup>(1)</sup> Our contractual cash obligation related to interest expense is calculated based on the current debt levels, rates and maturities as of December 31, 2011 excluding secured borrowings, and actual payments required in future periods may be different than the amounts included above.

As of December 31, 2011, our debt to total market capitalization approximated 61.6 percent (assuming conversion of all Common Operating Partnership Units to shares of common stock). Our debt has a weighted average maturity of approximately 7.0 years and a weighted average interest rate of 5.1 percent.

Capital expenditures for the years ended December 31, 2011 and 2010 included recurring capital expenditures of \$8.2 million and \$6.8 million, respectively. We are committed to the continued upkeep of our Properties and therefore do not expect a significant decline in our recurring capital expenditures during 2012.

## **LIQUIDITY AND CAPITAL RESOURCES, CONTINUED**

Net cash used for investing activities was \$159.5 million for the year ended December 31, 2011, compared to \$43.4 million for the year ended December 31, 2010. The difference is due to increased acquisitions of \$77.1 million, increased investment in property of \$36.9 million, and decreased principal repayment on an officer's notes and other notes receivable of \$4.6 million, offset by increased proceeds related to disposition of assets of \$0.8 million and increased dividend distribution from affiliate of \$1.6 million.

Net cash provided by financing activities was \$93.5 million for the year ended December 31, 2011; compared to \$11.8 million net cash used for financing activities for the year ended December 31, 2010. The difference is due to increased net proceeds received from the issuance of additional shares of \$28.4 million, increased proceeds from issuance of other debt net of repayments on other debt of \$50.2 million, increased net borrowings on the line of credit of \$34.4 million, increased proceeds from stock option exercises of \$0.6 million, and decreased payments to retire preferred operating partnership units of \$0.9 million, offset by increased payments of deferred financing costs of \$3.1 million and increased distributions to our stockholders and OP unitholders of \$6.3 million due to equity issuances.

### **ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

Our principal market risk exposure is interest rate risk. We mitigate this risk by maintaining prudent amounts of leverage, minimizing capital costs and interest expense while continuously evaluating all available debt and equity resources and following established risk management policies and procedures, which include the periodic use of derivatives. Our primary strategy in entering into derivative contracts is to minimize the effect variability interest rate changes could have on our future cash flows. We generally employ derivative instruments that effectively convert a portion of our variable rate debt to fixed rate debt. We do not enter into derivative instruments for speculative purposes.

We have four derivative contracts consisting of two interest rate swap agreements with a total notional amount of \$45.0 million, and two interest rate cap agreements with a notional amount of \$162.4 million as of December 31, 2011. The first swap agreement fixes \$25.0 million of variable rate borrowings at 5.60 percent through July 2012. The second swap agreement fixes \$20.0 million of variable rate borrowings at 3.04 percent through January 2014. The first interest rate cap agreement has a cap rate of 11.0 percent, a notional amount of \$152.4 million, and a termination date of May 1, 2012. The second interest rate cap agreement has a cap rate of 11.02 percent, a notional amount of \$10.0 million, and a termination date of October 3, 2016. Each of these derivative contracts is based upon 90-day LIBOR.

Our remaining variable rate debt totals \$322.8 million and \$242.3 million as of December 31, 2011 and 2010, respectively, which bear interest at Prime, various LIBOR or Fannie Mae Discounted Mortgage Backed Securities ("DMBS") rates. If Prime, LIBOR, or DMBS increased or decreased by 1.0 percent during the years ended December 31, 2011 and 2010, we believe our interest expense would have increased or decreased by approximately \$2.6 million and \$2.4 million based on the \$257.7 million and \$244.2 million average balances outstanding under our variable rate debt facilities for the years ended December 31, 2011 and 2010, respectively. A portion of our variable debt is floating on DMBS rates. If the credit markets tighten, and there are fewer or no buyers of this security, the interest rate may be negatively impacted resulting in higher interest expense.

### **ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA**

Financial statements and supplementary data are filed herewith under Item 15.

### **ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE**

None.

## **ITEM 9A. CONTROLS AND PROCEDURES**

### **Evaluation of Disclosure Controls and Procedures**

Our management is responsible for establishing and maintaining disclosure controls and procedures as defined in the rules promulgated under the Securities Exchange Act of 1934, as amended (the “Exchange Act”). Under the supervision and with the participation of our management, including our Chief Executive Officer, Gary A. Shiffman, and Chief Financial Officer, Karen J. Dearing, we evaluated the effectiveness of the design and operation of our disclosure controls and procedures as of December 31, 2011. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective as of December 31, 2011, to ensure that information we are required to disclose in filings with the Securities and Exchange Commission under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the Commission’s rules and forms, and to ensure that information required to be disclosed by us in the reports that we file under the Exchange Act is accumulated and communicated to our management, including its principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure.

### **Design and Evaluation of Internal Control Over Financial Reporting**

Pursuant to Section 404 of the Sarbanes-Oxley Act of 2002, we have included a report of management’s assessment of the design and effectiveness of our internal controls as part of this Annual Report on Form 10-K for the fiscal year ended December 31, 2011. Our independent registered public accounting firm also attested to, and reported on, the effectiveness of internal control over financial reporting. Management’s report and the independent registered public accounting firm’s attestation report are included in our 2011 financial statements under the captions entitled “Management’s Report on Internal Control Over Financial Reporting” and “Report of Independent Registered Public Accounting Firm”.

### **Changes in Internal Control Over Financial Reporting**

There have been no changes in our internal control over financial reporting during the quarterly period ended December 31, 2011 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

## **ITEM 9B. OTHER INFORMATION**

None.

## PART III

### ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

#### Board of Directors and Committees

Pursuant to the terms of our charter, the Board of Directors (the “Board”) is divided into three classes. The class up for election at the annual meeting of shareholders to be held in 2012 will hold office for a term expiring at the annual meeting of shareholders to be held in 2015. A second class will hold office for a term expiring at the annual meeting of shareholders to be held in 2013 and a third class will hold office for a term expiring at the annual meeting of shareholders to be held in 2014. Each director will hold office for the term to which such director is elected and until such director’s successor is duly elected and qualified. At each of our annual meeting of the shareholders, the successors to the class of directors whose terms expire at such meeting will be elected to hold office for a term expiring at the annual meeting of shareholders held in the third year following the year of their election.

The Board meets quarterly, or more often as necessary. The Board met five times during 2011 and took various actions pursuant to resolutions adopted by unanimous written consent. All directors attended at least 75% of the meetings of the Board and each committee on which they served. More than 50% of our board members attended the annual meeting of shareholders held on July 27, 2011.

Several important functions of the Board may be performed by committees that are comprised of members of the Board. Our Bylaws authorize the formation of these committees and grant the Board the authority to prescribe the functions of each committee and the standards for membership of each committee. In addition, the Board appoints the members of each committee. The Board has four standing committees: an Audit Committee, a Compensation Committee, a Nominating and Corporate Governance Committee, and an Executive Committee. You may find copies of the charters of the Audit Committee, the Compensation Committee and the Nominating and Corporate Governance Committee under the “Investor Relations-Officers and Directors” section of our website at [www.suncommunities.com](http://www.suncommunities.com). You may also find a copy of our corporate governance guidelines and its code of business ethics under the “Investor Relations-Officers and Directors” section of our website at [www.suncommunities.com](http://www.suncommunities.com). All of the committee charters, our corporate governance guidelines and our code of business ethics are available in print to any shareholder who requests them.

The Audit Committee operates pursuant to a third amended and restated charter that was approved by the Board in December 2007, and is reviewed annually. It is available under the “Investor Relations-Officers and Directors” section of our website at [www.suncommunities.com](http://www.suncommunities.com). The Audit Committee, among other functions, (i) has the sole authority to appoint, retain, terminate and determine the compensation of our independent accountants, (ii) reviews with our independent accountants the scope and results of the audit engagement, (iii) approves professional services provided by our independent accountants, (iv) reviews the independence of our independent accountants, and (v) directs and controls our internal audit functions. The current members of the Audit Committee are Messrs. Robert H. Naftaly, Clunet R. Lewis (Chairman) and Ms. Stephanie W. Bergeron, all of whom are “independent” as that term is defined in the rules of the SEC and applicable rules of the NYSE. The Audit Committee held four formal meetings during the fiscal year ended December 31, 2011. The Board has determined that each member of the Audit Committee is an “audit committee financial expert,” as defined by SEC rules.

The Compensation Committee operates pursuant to a charter that was approved by the Board in March 2004. A copy of the Compensation Committee Charter is available under the “Investor Relations-Officers and Directors” section of our website at [www.suncommunities.com](http://www.suncommunities.com). The Compensation Committee, among other functions, (i) reviews and approves corporate goals and objectives relevant to the compensation of the Chief Executive Officer and such other executive officers as may be designated by the Chief Executive Officer, evaluates the performance of such officers in light of such goals and objectives, and determines and approves the compensation of such officers based on these evaluations, (ii) approves the compensation of our other executive officers, (iii) recommends to the Board for approval the compensation of the non-employee directors and (iv) oversees our incentive-compensation plans and equity-based plans. The current members of the Compensation Committee are Messrs. Robert H. Naftaly (Chairman), Clunet R. Lewis and Paul D. Lapidés, all of whom are independent directors under the NYSE rules. During the fiscal year ended December 31, 2011, the Compensation Committee held one formal meetings and took various actions pursuant to resolutions adopted by unanimous written consent. *See* “Report of the Compensation Committee on Executive Compensation.”

The Nominating and Corporate Governance Committee (the “NCG Committee”) operates pursuant to a charter that was approved by the Board in March 2004. A copy of the NCG Committee Charter is available under the “Investor Relations-Officers and Directors” section of our website at [www.suncommunities.com](http://www.suncommunities.com). The NCG Committee, among other functions, is responsible for (i) identifying individuals qualified to become Board members, consistent with criteria approved by the Board, (ii) recommending that the Board select the committee-recommended nominees for election at each annual meeting of shareholders, (iii) developing and recommending to the Board a set of corporate governance guidelines applicable to us, and (iv) periodically reviewing such guidelines and recommending any changes, and overseeing the evaluation of the Board. The current members of the NCG Committee are Messrs. Ted J. Simon (Chairman), Clunet R. Lewis and Ronald L. Piasecki, all of whom are independent under the NYSE rules. The NCG Committee held one formal meeting during the fiscal year ended December 31, 2011. The NCG Committee considers diversity and skills in identifying nominees for service on our Board. Regarding diversity, the NCG Committee considers the entirety of the board and a wide range of economic, social and ethnic backgrounds and does not nominate representational directors from any specific group.

The Executive Committee was established to generally manage our day-to-day business and affairs between regular Board meetings. In no event may the Executive Committee, without the prior approval of the Board acting as a whole: (i) recommend to the shareholders an amendment to our Charter; (ii) amend our Bylaws; (iii) adopt an agreement of merger or consolidation; (iv) recommend to the shareholders the sale, lease or exchange of all or substantially all of our property and assets; (v) recommend to the shareholders our dissolution or a revocation of a dissolution; (vi) fill vacancies on the Board; (vii) fix compensation of the directors for serving on the Board or on a committee of the Board; (viii) declare dividends or authorize the issuance of our stock; (ix) approve or take any action with respect to any related party transaction involving us; or (x) take any other action which is forbidden by our Bylaws. All actions taken by the Executive Committee must be promptly reported to the Board as a whole and are subject to ratification, revision and alteration by the Board, except that no rights of third persons created in reliance on authorized acts of the Executive Committee can be affected by any such revision or alteration. The current members of the Executive Committee are Messrs. Gary A. Shiffman and Ted J. Simon. The Executive Committee did not hold any formal meetings during the fiscal year ended December 31, 2011 but took various actions pursuant to resolutions adopted by unanimous written consent.

The Board oversees and implements its risk management function several different ways. Specifically, the Audit Committee discusses our risk assessment and risk management policies with the Chief Financial Officer and other accounting staff, our internal auditor and our independent accountants in conjunction with its review of our financial statements as they deem necessary. In addition, the Board discusses the general risks facing us, the risk factors disclosed in our annual and period reports and our risk management policies with our executive management team from time to time throughout the year. In the event that a specific risk is identified, the Board or the Audit Committee directs management to assess, evaluate and provide remedial recommendations to the Board, or the Audit Committee, with respect to such risk which may include suggested public disclosure.

### **Independence of Non-Employee Directors**

The NYSE rules require that a majority of the Board consist of members who are independent. There are different measures of director independence— independence under NYSE rules, under Section 16 of the Exchange Act and under Section 162(m) of the Code. The Board has reviewed information about each of our non-employee directors and determined that Messrs. Paul D. Lapidès, Clunet R. Lewis, Robert H. Naftaly, Ronald L. Piasecki, Ted J. Simon and Ms. Stephanie W. Bergeron are independent directors. The independent directors meet on a regular basis in executive sessions without management participation. In 2011, the executive sessions occurred after some of the regularly scheduled meetings of the entire Board and may occur at such other times as the independent directors deem appropriate or necessary. The Board appoints a lead director on an annual basis to serve for a term of one year. Clunet R. Lewis is currently serving as lead director. The lead director calls and presides at the executive sessions of our independent directors, acts as a liaison between our management team and the Board and is responsible for identifying, analyzing and making recommendations to the Board with respect to certain strategic and extraordinary matters.

## Consideration of Director Nominees

### *Board Membership Criteria*

The Board of Directors has established criteria for Board membership. These criteria include the following specific, minimum qualifications that the NCG Committee believes must be met by an NCG Committee-recommended nominee for a position on the Board:

- The candidate must have experience at a strategic or policymaking level in a business, government, non-profit or academic organization of high standing;
- The candidate must be highly accomplished in his or her field, with superior credentials and recognition;
- The candidate must be well regarded in the community and must have a long-term reputation for high ethical and moral standards;
- The candidate must have sufficient time and availability to devote to our affairs, particularly in light of the number of boards on which the nominee may serve; and
- The candidate's principal business or occupation must not be such as to place the candidate in competition with us or conflict with the discharge of a director's responsibilities to us or to our shareholders.

In addition to the minimum qualifications for each nominee set forth above, the NCG Committee will recommend director candidates to the full Board for nomination, or present director candidates to the full Board for consideration, to help ensure that:

- A majority of the Board of Directors shall be "independent" as defined by the NYSE rules;
- Each of its Audit, Compensation and NCG Committees shall be comprised entirely of independent directors; and
- At least one member of the Audit Committee shall have such experience, education and qualifications necessary to qualify as an "audit committee financial expert" as defined by the rules of the SEC.

### *Consideration of Shareholder Nominated Directors*

The NCG Committee's current policy is to review and consider any director candidates who have been recommended by shareholders in compliance with the procedures established from time to time by the NCG Committee. All shareholder recommendations for director candidates must be submitted in writing to our Secretary at Sun Communities, Inc., 27777 Franklin Road, Suite 200, Southfield, MI 48034, who will forward all recommendations to the NCG Committee. All shareholder recommendations for director candidates for election at the 2013 annual meeting of shareholders must be submitted to our Secretary not earlier than the 120<sup>th</sup> day and not later than the 90<sup>th</sup> day prior to the first anniversary of the 2012 annual meeting provided, however, that if the 2013 annual meeting is more than 30 days earlier or later than the first anniversary of the 2012 annual meeting, notice by the shareholder must be delivered not earlier than the 120<sup>th</sup> day and not later than the 90<sup>th</sup> day prior to the date of the 2013 annual meeting or, if the first public announcement of the date of the 2013 annual meeting is less than 100 days prior to the date of the 2012 annual meeting, the tenth day following the day on which public announcement of the date of the 2013 annual meeting is first made by us. All shareholder recommendations for director candidates must include the following information:

- The shareholder's name, address, number of shares owned, length of period held and proof of ownership;
- The name, age, business and residential address, educational background, current principal occupation or employment, and principal occupation or employment for the preceding five full fiscal years of the proposed director candidate;
- A description of the qualifications and background of the proposed director candidate which addresses the minimum qualifications and other criteria for Board membership as approved by the Board from time to time;
- A description of all arrangements or understandings between the shareholder and the proposed director candidate;
- The consent of the proposed director candidate (1) to be named in the proxy statement relating to our annual meeting of stockholders and (2) to serve as a director if elected at such annual meeting; and
- Any other information regarding the proposed director candidate that is required to be included in a proxy statement filed pursuant to the rules of the SEC.

## Identifying and Evaluating Nominees

The NCG Committee may solicit recommendations for director nominees from any or all of the following sources: non-management directors, executive officers, third-party search firms or any other source it deems appropriate. The NCG Committee will review and evaluate the qualifications of any proposed director candidate that it is considering or has been recommended to it by a shareholder in compliance with the NCG Committee's procedures for that purpose, and conduct inquiries it deems appropriate into the background of these proposed director candidates. When nominating a sitting director for re-election, the NCG Committee will consider the director's performance on the Board and the director's qualifications in respect to the criteria set forth above. Other than circumstances in which we are legally required by contract or otherwise to provide third parties with the ability to nominate directors, the NCG Committee will evaluate all proposed director candidates based on the same criteria and in substantially the same manner, with no regard to the source of the initial recommendation of the proposed director candidate.

### Board of Directors

The following list identifies each incumbent director and describes each person's principal occupation for at least the past five years. Each of the directors has served continuously from the date of his or her election to the present time.

Name	Age	Office
Gary A. Shiffman	57	Chairman, Chief Executive Officer, President and Director
Stephanie W. Bergeron	58	Director
Paul D. Lapidés	57	Director
Clunet R. Lewis	65	Director
Robert H. Naftaly	74	Director
Ronald L. Piasecki	72	Director
Ted J. Simon	81	Director
Arthur A. Weiss	63	Director

**Gary A. Shiffman** is our Chairman, Chief Executive Officer, and President, and has been an executive officer since our inception. He has been actively involved in the management, acquisition, construction and development of manufactured housing communities and has developed an extensive network of industry relationships over the past twenty years. He has overseen the acquisition, rezoning, development and marketing of numerous manufactured home expansion projects, as well as other types of income producing real estate. Additionally, Mr. Shiffman has significant direct holdings in various real estate asset classes, which include office, multi-family, industrial, residential and retail. Mr. Shiffman is an executive officer and a director of Sun Home Services, Inc. ("Sun Home Services") and all of our other corporate subsidiaries. Mr. Shiffman is also a director of Origen Financial, Inc. (OTCBB: ORGN.BB). Mr. Shiffman received the Manufactured Home Community Operator of the Year Award in 1997 and in 2002, by the Manufactured Housing Institute.

**Stephanie W. Bergeron** has been a director since May 2007. Ms. Bergeron, a registered certified public accountant, also serves as the President and Chief Executive Officer of Walsh College. Additionally, Ms. Bergeron serves as President and Chief Executive Officer of Bluepoint Partners, LLC, a firm providing financial consulting services. From December 1998 to December 2003, Ms. Bergeron served as Vice President and Treasurer and then Senior Vice President-Corporate Financial Operations of The Goodyear Tire & Rubber Company ("Goodyear"). Prior to joining Goodyear, Ms. Bergeron was a Vice President and Assistant Treasurer of DaimlerChrysler Corporation. She has also served on Audit Committees of several publicly traded companies (including as chairman) and a number of not for profit organizations. During her business career, Ms. Bergeron directed staff responsible for accounting, treasury, investor relations and tax matters. Crain's Detroit Business named Bergeron one of its "Most Influential Women" in 1997 and in 2007.

**Paul D. Lapidés** has been a director since December 1993. Mr. Lapidés is Director of the Corporate Governance Center in the Michael J. Coles College of Business at Kennesaw State University, where he is a professor of management and entrepreneurship. Mr. Lapidés is a director of EasyLink Services International Corporation (NASDAQ: ESIC) and a member of the Advisory Board of the National Association of Corporate Directors and served on the NACD's Blue Ribbon Commission on Audit Committees (1999). Mr. Lapidés has extensive knowledge and experience in the areas of real estate and corporate governance. Mr. Lapidés, a certified public accountant, has been involved in real-estate related activities including the management of a \$3.0 billion national portfolio of income-producing real. As a published author or co-author of more than 100 articles and twelve books, Mr. Lapidés is considered a well-respected authority in management and corporate governance related issues.

**Clunet R. Lewis** has been a director since December 1993. From 1995 until 2000, Mr. Lewis served in various positions with Eltrax Systems, Inc., a NASDAQ National Market System company, including Secretary, General Counsel, member of the Board of Directors and Chief Financial Officer. In these roles, Mr. Lewis was primarily responsible for the company's legal affairs, its relationship with its auditors, and the interactions between the company and the SEC. From 1989 until 1994, Mr. Lewis served as Secretary and General Counsel of Military Communications Center, Inc., a privately held company that provided retail telecommunications services to members of the United States Armed Services. From 1990 through 1991, Mr. Lewis was Managing Director of MCC Communications, Inc., a privately held company that provided international telecommunications services to members of the United States Armed Services serving in the Persian Gulf area during the Gulf War. Prior to 1993, Mr. Lewis was a shareholder of the law firm of JRH&W. While actively engaged in the practice of law, Mr. Lewis focused on mergers and acquisitions, debt financings, issuances of equity and debt securities and corporate governance and control issues.

**Robert H. Naftaly** has been a director since October 2006. Mr. Naftaly is retired as President and Chief Executive Officer of PPOM, an independent operating subsidiary of Blue Cross Blue Shield of Michigan ("BCBSM") and as Executive Vice President and Chief Operating Officer of BCBSM. Previously, Mr. Naftaly served as Vice President and General Auditor of Detroit Edison Company and was the Director of the Department of Management and Budget for the State of Michigan. He was a managing partner and founder of Geller, Naftaly, Herbach & Shapiro, a certified public accounting firm. In addition, Mr. Naftaly has served as a director of Meadowbrook Insurance Group, Inc. (NYSE:MIG) since 2002 where he is currently the Chairman of the Compensation Committee and a member of the Audit Committee and Finance Committee. Mr. Naftaly is a director of Walsh College, a premier non-profit institution that offers business and technology degrees and programs. Mr. Naftaly, a certified public accountant, draws upon a wide experience of board membership and leadership experiences. Mr. Naftaly was appointed by Governor Jennifer Granholm, as Chairperson, State Tax Commission of the State of Michigan in 2002. Mr. Naftaly is a member of the American Institute of Certified Public Accountants and the Michigan Association of Certified Public Accountants. In 2002, he received the Distinguished Achievement Award from the Michigan Association of Certified Public Accountants.

**Ronald L. Piasecki** has been a director since May 1996, upon completion of our acquisition of twenty-five manufactured housing communities (the "Aspen Properties") owned by affiliates of Aspen Enterprises, Ltd. ("Aspen"). Mr. Piasecki was a director of Aspen Properties, which he co-founded in 1974. From 1974 until its sale to us in 1996, Mr. Piasecki was the managing partner in charge of property acquisition, financing and disposition, legal and accounting relationships and oversight, resident relations, lobbying and syndication and sale of registered private equity limited partnership and participating mortgage interests. Prior to our acquisition, Aspen was one of the largest privately-held developers and owners of manufactured housing communities in the U.S. In addition, Mr. Piasecki is a director of Advanced Equities Financial Corporation, a financial services firm engaged in retail and institutional securities brokerage, venture capital investment banking and financial advisory services. Mr. Piasecki has been involved in real estate development and management since 1968 when he began working in the tax department of the then accounting firm of Lybrand, Ross Brothers and Montgomery in Detroit. Mr. Piasecki then practiced law, specializing in real estate development, syndication and management, until 1980 when he became a full time partner in Aspen. Mr. Piasecki is currently engaged in the development and management of residential real estate properties in western Michigan.

**Ted J. Simon** has been a director since December 1993. Since February 1999, Mr. Simon has been affiliated with Grand Sakwa Management LLC, a real estate development company located in Farmington Hills, Michigan. From 1981 until January 1999, Mr. Simon was the Vice President-Real Estate (Midwest Group) of The Great Atlantic & Pacific Tea Company, Inc. and Mr. Simon was a Vice President-Real Estate and a director of Borman's Inc., a wholly owned subsidiary of The Great Atlantic & Pacific Tea Company, Inc. Also, until December 2010, Mr. Simon was a director of Clarkston State Bank, a wholly-owned subsidiary of Clarkston Financial Corporation (OTC BB: CKSB.OB). Mr. Simon has extensive executive-level experience in the real estate industry in general, including the management of large real estate and investment portfolios. Mr. Simon has been involved in business activities related to residential and commercial real estate for the past 58 years. Early in his career, Mr. Simon was involved with brokerage and management activities within the Detroit metropolitan area. Later, Mr. Simon served as a senior real estate officer of various public supermarket companies with stores located across the United States, and their affiliated development subsidiaries.

**Arthur A. Weiss** has been a director since October 1996. Since 1976, Mr. Weiss has practiced law with the law firm of JRH&W, which represents us in various matters. Mr. Weiss is currently Chairman of the Board of Directors and a shareholder of JRH&W. Mr. Weiss practices law in the area of business planning, taxation, estate planning and real estate law. Mr. Weiss is a director of several closely-held companies in the real estate industry, steel industry, technology industry and banking industry. Mr. Weiss is also a director and officer of a number of closely held public and private nonprofit corporations, which include the Jewish Federation of Metropolitan Detroit and the Detroit Symphony Orchestra, where he is on the executive committee, and serves as a vice-president and board member. Mr. Weiss received a MBA in finance and a post graduate LLM degree from New York University in taxation. In addition to being an author and frequent lecturer in the Detroit area, Mr. Weiss previously was an Adjunct Professor of Law at Wayne State University. Mr. Weiss was recognized in 2008 as one of the nation's Top 100 Attorneys by Worth magazine.

In addition to each director's qualifications, experience and skills outlined in their biographical data above and the minimum Board qualifications set forth above, our NCG Committee looked for certain attributes in each director nominee and based on these attributes, and the mix of attributes of the other incumbent directors, determined that each director nominee should serve on our Board. The NCG Committee does not require that each director nominee possess all of these attributes but rather that the Board is comprised of directors that, taken together, provide us with a variety and depth of knowledge, judgment and experience necessary to provide effective oversight and vision. These attributes include: (a) significant leadership skills as a chief executive officer and/or relevant board member experience, (b) real estate industry experience, (c) transactional experience, especially within the real estate industry, (d) relevant experience in property operations, (e) financial expertise, and (f) legal or regulatory experience. The following table lists the attributes of each director, as determined by the NCG Committee:

<b>Director</b>	<b>CEO/Board Experience</b>	<b>Real Estate Industry</b>	<b>Transactional Experience</b>	<b>Property Operations</b>	<b>Financial Expertise</b>	<b>Legal / Regulatory</b>

To the best of our knowledge, as of the date of this Annual Report on Form 10-K, there are no material proceedings to which any director or nominee is currently a party, or has a material interest, adverse to the Company. Except as described below, to the best of our knowledge, during the past ten years: (i) there have been no events under any bankruptcy act, no criminal proceedings and no judgments or injunctions that are material to the evaluation of the ability or integrity of any director or nominee, (ii) no director or nominee has been the subject of a or a party to any judicial or administrative proceedings relating to an alleged violation of (a) mail or wire fraud; (b) fraud in connection with any business entity; (c) violations of federal or state securities, commodities, banking or insurance laws and regulations, and (iii) no director or nominee has been the subject of a or a party to any sanction or order of any self-regulatory organization, any registered entity (as defined in Section 1(a)(29) of the Commodity Exchange Act), or any equivalent exchange, association, entity or organization that has disciplinary authority over its members or persons associated with a member.

As announced on February 27, 2006, the U.S. Securities and Exchange Commission (the "SEC") completed its inquiry regarding the accounting for our SunChamp investment during 2000, 2001 and 2002, and the entry of an agreed-upon Administrative Order (the "Order"). The Order required us to cease and desist from violations of certain non-intent based provisions of the federal securities laws, without admitting or denying any such violations. On February 27, 2006, the SEC filed a civil action against Mr. Shiffman, in his capacity as our Chief Executive Officer, Jeffrey P. Jorissen, our then (and now former as of February 2008) Chief Financial Officer and a former Controller in the United States District Court for the Eastern District of Michigan alleging various claims generally consistent with the SEC's findings set forth in the Order. On July 21, 2008, the U.S. District Court for the Eastern District of Michigan approved a settlement whereby the SEC dismissed its civil lawsuit against Mr. Shiffman and our former Controller. The SEC concurrently reached a settlement with Mr. Jorissen.

## Executive Officers

The persons listed below are our executive officers who served during the last completed fiscal year. Each is appointed by, and serves at the pleasure of, the Board.

Name	Age	Office
Gary A. Shiffman	57	Chairman, Chief Executive Officer, and President
Karen J. Dearing	47	Executive Vice President, Treasurer, Chief Financial Officer and Secretary
John B. McLaren	41	Executive Vice President and Chief Operating Officer
Jonathan M. Colman	56	Executive Vice President

Background information for Gary A. Shiffman is provided above. Background information for the other three current executive officers is set forth below.

**Karen J. Dearing** joined us in October 1998 as the Director of Finance where she worked extensively with accounting and finance matters related to our ground up developments and expansions. Ms. Dearing became our Corporate Controller in 2002, a Senior Vice President in 2006, and Executive Vice President and Chief Financial Officer in February 2008. She was responsible for the overall management of our information technology, accounting and finance departments, and all internal and external financial reporting. Prior to working for us, Ms. Dearing had eight years of experience as the Financial Controller of a privately-owned automotive supplier specializing in critical automotive fasteners and five years' experience as a certified public accountant with Deloitte & Touche.

**John B. McLaren** has been in the manufactured housing industry since 1995. Prior to his appointment as Executive Vice President and Chief Operating Officer in February 2008, Mr. McLaren served, since August 2005, as Senior Vice President of Sun Home Services with overall responsibility for homes sales and leasing. Prior to that, Mr. McLaren was a Regional Vice President for Apartment Investment & Management Company ("AIMCO"), a Real Estate Investment Trust engaged in leasing apartments. Prior to AIMCO, Mr. McLaren spent approximately three years as Vice President of Leasing & Service for Sun Home Services with responsibility for developing and leading our rental home program.

**Jonathan M. Colman** joined us in 1994 as Vice President-Acquisitions and became a Senior Vice President in 1995 and an Executive Vice President in March 2003. A certified public accountant, Mr. Colman has over twenty years of experience in the manufactured housing community industry. He has been involved in the acquisition, financing and management of over 75 manufactured housing communities for two of the 10 largest manufactured housing community owners, including Uniprop, Inc. during its syndication of over \$90.0 million in public limited partnerships in the late 1980s. Mr. Colman is also a Vice President of all of our corporate subsidiaries.

To the best of our knowledge, as of the date of this Annual Report on Form 10-K, there are no material proceedings to which any executive officer is currently a party, or has a material interest, adverse to us. To the best of our knowledge, except with respect to Mr. Shiffman (as described above), during the past ten years: (i) there have been no events under any bankruptcy act, no criminal proceedings and no judgments or injunctions that are material to the evaluation of the ability or integrity of any executive officer, (ii) no executive officer has been the subject of a or a party to any judicial or administrative proceedings relating to an alleged violation of (a) mail or wire fraud; (b) fraud in connection with any business entity; (c) violations of federal or state securities, commodities, banking or insurance laws and regulations, and (iii) no any executive officer has been the subject of a or a party to any sanction or order of any self-regulatory organization, any registered entity (as defined in Section 1(a)(29) of the Commodity Exchange Act), or any equivalent exchange, association, entity or organization that has disciplinary authority over its members or persons associated with a member.

### Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Exchange Act, requires our directors, executive officers and beneficial owners of more than 10% of our capital stock to file reports of ownership and changes of ownership with the SEC and the NYSE. Based solely on our review of the copies of such reports received by us, and written representations from certain reporting persons, we believe, that, during the year ended December 31, 2011, our directors, executive officers and beneficial owners of more than 10% of our Common Stock have complied with all filing requirements applicable to them, except Mr. Arthur A. Weiss failed to timely file one report disclosing the sale of 1,632 shares of common stock by a trust of which he is co-trustee. In addition, in 2011 Mr. Weiss filed three Form 5's relating to sales by the same trust of an aggregate of 20,041 shares of common stock in 2008, 2009 and 2010, which sales had not been previously reported. Mr. Weiss disclaims beneficial ownership of all of the shares held by the trust. In addition, in 2011 John B. McLaren filed a Form 5, which reported dispositions of common stock by him in his 401(k) account that had not been previously reported.

## ITEM 11. EXECUTIVE COMPENSATION

### Compensation Discussion and Analysis

#### *Compensation Committee Composition and Charter*

The Compensation Committee assists the Board in fulfilling its responsibilities for determining the compensation offered to our executive officers. The Compensation Committee, among other functions:

- consults with executive management in developing a compensation philosophy;
- reviews and approves the goals and objectives relevant to the compensation of the Chief Executive Officer and other executive officers ensuring those goals are aligned with our short and long-term objectives;
- reviews and approves salary, annual and long-term incentive compensation performance objectives and payments for the executive officers;
- evaluates the performance of the executives in light of the goals and objectives of our executive compensation plans and establishes future compensation levels based upon this evaluation;
- reviews and approves grants and awards to the executive officers and other participants under our equity based compensation plans, and;
- reviews and approves any employment agreements and severance agreements to be made with any existing or prospective executive officer.

The Compensation Committee has the authority to retain and terminate independent, third-party compensation consultants and to obtain independent advice and assistance from internal and external legal, accounting and other advisors. The Compensation Committee has utilized the services of a compensation consultant in crafting its compensation policies for the compensation years included herein. Each member of the Compensation Committee is independent under NYSE rules. A copy of the Compensation Committee Charter is available under the “Investor Relations-Officers and Directors” section of our website at [www.suncommunities.com](http://www.suncommunities.com).

In late 2010, the Compensation Committee engaged FPL Associates (“FPL”), a nationally recognized consulting firm specializing in the real estate industry, to: (1) assist the Compensation Committee with identifying a peer group; (2) assess the overall framework of our executive compensation program; (3) assess the compensation levels compared to the selected peer group; and (4) provide guidance and recommendations in establishing the overall compensation structure and individual compensation opportunities that were in place during 2010 and those established in 2011. The compensation of our Chief Executive Officer, Chief Financial Officer and Chief Operating Officer were reviewed and compared to a Public REIT Peer Group (the “Peer Group”) generally comparable to Sun in terms of asset class, size and/or geography. The Peer Group contained the following companies:

Associated Realty Corporation  
Colonial Properties Trust  
EastGroup Properties, Inc.  
Equity LifeStyle Properties, Inc.  
Glimcher Realty Trust  
Home Properties, Inc.  
Mid-America Apartment Communities, Inc.  
Post Properties, Inc.  
Ramco-Gershenson Properties Trust  
UMH Properties, Inc.

The compensation data for each company was reviewed over a three-year period and compared to our compensation data for the same period. Each compensation component and total compensation of our three officers generally ranked between the 25th percentile to median of the total compensation levels of the Peer Group. The Compensation Committee believed this to be an appropriate level of compensation, although the Compensation Committee does not set a specific target level of compensation for our officers in relation to peers. As part of the review, FPL and the Compensation Committee discussed long-term equity plans with multi-year performance components including the types of programs being utilized in the marketplace, an analysis of all the peer long-term incentive plans, and key considerations with regards to such a plan for us. The Compensation Committee evaluated the possibility of adding a long-term equity plan with multi-year performance metrics as a component of our compensation program in future years. FPL has not provided any other services to us.

### ***Compensation Philosophy and Objectives***

The goals and objectives of our executive compensation program are to attract and retain a skilled executive team to manage, lead and direct our personnel and capital to obtain the best possible economic results.

The executive compensation program supports our commitment to providing superior shareholder value. This program is designed to:

- attract, retain and reward executives who have the motivation, experience and skills necessary to lead us effectively and encourage them to make career commitments to us;
- base executive compensation levels on our overall financial and operational performance and the individual contribution of an executive officer to our success;
- create a link between the performance of our stock and executive compensation; and
- position executive compensation levels to be competitive with other similarly situated public companies including the real estate industry in general and manufactured housing REITs in particular.

Annual salary and incentive awards are intended to be competitive in the marketplace to attract and retain executives. Stock options and restricted stock awards are intended to provide longer-term motivation which has the effect of linking stock price performance to executive compensation. Restricted stock is also intended to provide post-retirement financial security in lieu of other forms of more costly supplemental retirement programs. We have not implemented any policies related to stock ownership guidelines for our executive management or for members of the Board.

### ***Role of Executive Officers in Compensation Decisions***

The Compensation Committee makes all decisions regarding the compensation of executive officers, including cash-based and equity-based incentive compensation programs. The Compensation Committee reviews the performance, and determines the annual incentive compensation, of the Chief Executive Officer. The Compensation Committee and the Chief Executive Officer annually review the performance metrics of the short and long-term performance plans and the performance of the other executive officers. The conclusions reached and recommendations based on the reviews of the other executive officers, including with respect to annual incentive and equity award amounts, are presented by the Chief Executive Officer to the Compensation Committee, which can exercise its discretion in modifying any recommended incentive or equity awards. From time to time, the Compensation Committee may request our Senior Vice President of Human Resources or Chief Financial Officer to collect publicly available information on compensation levels and programs for executives. In addition, our Chief Financial Officer analyzes implications of various executive compensation awards or plan designs.

### ***Compensation Components and Processes***

In order to implement our executive compensation philosophy, the Compensation Committee exercises its independent discretion in reviewing and approving the executive compensation program as a whole, as well as specific compensation levels for each executive officer. Final aggregate compensation determinations for each fiscal year are generally made after the end of the fiscal year, after financial statements for such year become available. At that time, the Compensation Committee determines the annual incentive award, if any, for the past year's performance, sets base salaries for those executive officers whose base salaries are not bound by employment agreements for the following fiscal year and makes awards of equity-based compensation, if any. Prior to the engagement of FPL in late 2010, the Compensation Committee did not formally benchmark executive compensation but did, on occasion, review salary and compensation information for companies with comparable market capitalization, number of employees and business sectors as published in the National Association of Real Estate Investment Trusts Compensation Survey (the "NAREIT Survey") and various other compensation studies and surveys. The Compensation Committee used this information to gain a general understanding of current compensation practices and guidelines and did not tie its compensation decisions to any particular target or level of compensation noted in the NAREIT Survey or other surveys. The Compensation Committee considers (a) internal equity among executive officers, (b) market data for the positions held by these executives, (c) each executive's duties, responsibilities, and experience level, (d) each executive's performance and contribution to our success, and (e) cost to us when determining levels of compensation.

The Compensation Committee also considered the results of the advisory vote by shareholders on executive compensation, or the "say-on-pay" proposal, presented to shareholders at our July 27, 2011 Annual Meeting. As reported in our Form 8-K, filed with the SEC on July 28, 2011, approximately 96% of the shares that voted on the say-on-pay proposal approved our 2010 executive compensation. Based on the votes from our 2011 Annual Meeting, we will continue to offer an annual non-bidding advisory vote on the executive compensation. Accordingly, the Compensation Committee made no direct changes to the Company's executive compensation program as a result of the say-on-pay vote and our executive compensation program for the year ended December 31, 2011 continued to focus on the factors and objectives described above.

The key components of executive officer compensation are base salary, annual incentive awards, and long-term equity incentive awards. Base salary is generally based on factors such as an individual officer's level of responsibility, prior years' compensation, comparison to compensation of other officers, and compensation provided at competitive companies and companies of similar size.

Annual incentive awards are cash bonuses that motivate the executive officers to maximize our annual operating and financial performance and reward participants based on annual performance. The Compensation Committee annually reviews the performance measures for determining award levels which include individual performance, our performance against budget and growth in FFO and CNOI, in each case as measured against targets established by the Compensation Committee. A definition of FFO and NOI is included under the heading "Supplemental Measures" in Item 7 and CNOI is described further below. The Compensation Committee, in its sole discretion, may make adjustments to the NAREIT definition of FFO in determining FFO performance targets and achievement. The specific performance measures of the 2011 annual incentive award plan are further enumerated below.

Long-term equity incentive awards are provided to the executive officers in order to increase their personal stake in our success and motivate them to enhance our long-term value while better aligning their interests with those of other shareholders. Equity awards are generally awarded in the form of restricted stock although stock options are utilized from time to time. The value of the restricted shares awarded is the price of a share of our stock as of the close of business on the grant date. On an annual basis the Compensation Committee reviews and approves the equity incentives to be issued to each of the executive officers for the prior year's performance. There is no established target for long-term equity incentive awards for any of the executive officers either as a dollar value or percentage of their total compensation. Rather, the Compensation Committee reviews this component of each executive officer's total compensation on an annual basis. As such the Compensation Committee in May 2011 awarded equity incentive awards of 50,000 shares of restricted stock to Mr. Shiffman, 10,000 shares of restricted stock to Ms. Dearing and 7,500 shares of restricted stock to Mr. McLaren to complement their base salaries and bonuses for 2011.

Equity incentive awards were awarded in relation to the Company and individual 2011 performance in February 2012. Ms. Dearing was granted 5,000 shares of restricted stock and Mr. McLaren was granted 10,000 shares of restricted stock. In addition, in March 2011, we granted 7,500 shares of restricted stock to Ms. Dearing and 12,500 shares of restricted stock to Mr. McLaren pursuant to the terms of their new employment agreements. Restricted stock awards generally begin to vest after three to four years from the date of grant and then vest over the following four to nine years. Our executive officers (as well as our employees that receive restricted stock awards) receive dividends on the restricted stock awards that have been granted to date, including restricted stock awards that have not vested.

### ***Employment Agreements***

#### *Gary A. Shiffman*

In 2005, we entered into an employment agreement with Gary A. Shiffman pursuant to which Mr. Shiffman serves as our Chairman, Chief Executive Officer, and President. Mr. Shiffman's employment agreement is for an initial term ending December 31, 2011 and is automatically renewable for successive one year terms thereafter unless either party timely terminates the agreement. Pursuant to this employment agreement, Mr. Shiffman is paid an annual base salary of \$545,000, which will be increased by an annual cost of living adjustment beginning with calendar year 2006. In addition to his base salary and in accordance with the terms of his employment agreement and in the sole discretion of the Compensation Committee, Mr. Shiffman is entitled to annual incentive compensation of up to 75% of his then current base salary if he satisfies certain individual and Company performance criteria established from time to time by the Compensation Committee. Mr. Shiffman also is entitled to annual incentive compensation of up to 25% of his then current base salary in the sole discretion of the Compensation Committee. The non-competition clauses of Mr. Shiffman's employment agreement preclude him from engaging, directly or indirectly: (a) in the real estate business or any ancillary business during the period he is employed by us; and (b) in the manufactured housing community business or any ancillary business for a period of eighteen months following the period he is employed by us. However, Mr. Shiffman's employment agreement does allow him to make passive investments relating to real estate in general or the housing industry in particular (other than in manufactured housing communities) during the period he is employed by us.

The initial term of the employment agreement of Mr. Shiffman expired on December 31, 2011 and the agreement was automatically renewed for a one-year term. The Compensation Committee has been negotiating the terms of a new employment agreement with Mr. Shiffman and expects that a new agreement will be finalized in the second quarter of 2012.

*A copy of Mr. Shiffman's employment agreement is attached as an exhibit to our periodic filings under the Exchange Act.*

*Karen J. Dearing*

On March 7, 2011 with an effective date of January 1, 2011 (the “Effective Date”), we entered into an employment agreement with Karen J. Dearing pursuant to which Ms. Dearing serves as our Executive Vice President, Chief Financial Officer, Secretary, and Treasurer. Ms. Dearing’s employment agreement is for an initial term commencing on the Effective Date and ending on December 31, 2015. The employment agreement is automatically renewable for successive one year terms thereafter unless either party timely terminates the agreement. Pursuant to the employment agreement, Ms. Dearing is paid an annual base salary of \$335,000 thereafter, subject to adjustments in accordance with the annual cost of living provided that if the base salary for the calendar year 2014 is less than 115% of the base salary for calendar year 2011, for 2014 and 2015 only, the annual increase in the base salary shall be the greater of five percent or the otherwise applicable cost of living adjustment. Upon signing the employment agreement, Ms. Dearing was paid a one-time signing bonus of \$150,000. In addition to her base salary and in accordance with the terms of her employment agreement and in sole discretion of the Compensation Committee, Ms. Dearing is eligible for annual incentive compensation of up to 50% of her base salary if certain annual individual and/or Company performance criteria, as established by the Compensation Committee in its sole discretion, are met and up to 50% of her base salary at the sole discretion of the Compensation Committee. The clawback clause of Ms. Dearing’s employment agreement deems that the bonus payment or any other incentive compensation is not deemed fully earned and vested, and Ms. Dearing shall reimburse us if previously paid, to the extent such incentive compensation becomes subject to clawback pursuant to the provisions of the Dodd-Frank Wall Street Reform and Consumer Protection Act or NYSE rules. Upon the execution of the employment agreement, Ms. Dearing was granted 7,500 shares of restricted stock pursuant to the terms of the employment agreement, which shall vest 2,500 shares on each of the fourth, fifth, and sixth anniversaries of the Effective Date. The non-competition clauses of Ms. Dearing’s employment agreement preclude her from engaging, directly or indirectly, in the development, ownership, leasing, management, financing, or sales of manufactured housing communities or manufactured homes anywhere in the continental United States or Canada during the period she is employed by us and for a period of up to twenty four months following the period she is employed by us; provided, however, that if Ms. Dearing is terminated without “cause” the period of non-competition shall be reduced to twelve months following the period she is employed by us. Notwithstanding, Ms. Dearing’s employment agreement does allow her to make passive investments in publicly-traded entities engaged in our business during the period she is employed by us. See “Change in Control and Severance Payments” for a description of the terms of the employment agreement relating to change of control and severance payments.

*A copy of Ms. Dearing’s employment agreement is attached as an exhibit to our periodic filings under the Exchange Act.*

*John B. McLaren*

On March 7, 2011 but effective as of the Effective Date, we entered into an employment agreement with John B. McLaren pursuant to which Mr. McLaren serves as our Executive Vice President and Chief Operating Officer. Mr. McLaren’s employment agreement is for an initial term commencing on the Effective Date and ending on December 31, 2015. The employment agreement is automatically renewable for successive one year terms thereafter unless either party timely terminates the agreement. Pursuant to the employment agreement, Mr. McLaren is paid an annual base salary of \$345,000 in the first year, \$375,000 in the second year, \$400,000 in the third year, and \$425,000 thereafter, subject to adjustments in accordance with the annual cost of living. Upon signing the employment agreement, Mr. McLaren was paid a one-time signing bonus of \$150,000. In addition to his base salary and in accordance with the terms of his employment agreement and in the sole discretion of the Compensation Committee, Mr. McLaren is eligible for annual incentive compensation of up to 50% of his base salary if certain annual individual and/or Company performance criteria, as established by the Compensation Committee in its sole discretion, are met and up to 50% of his base salary at the sole discretion of the Compensation Committee. The clawback clause of Mr. McLaren’s employment agreement deems that the bonus payment or any other incentive compensation is not deemed fully earned and vested, and Mr. McLaren shall reimburse us if previously paid, to the extent such incentive compensation becomes subject to clawback pursuant to the provisions of the Dodd-Frank Wall Street Reform and Consumer Protection Act or NYSE rules. Promptly after the execution of the employment agreement, Mr. McLaren was granted 12,500 shares of restricted stock pursuant to the terms of the employment agreement, which shall vest 4,166 shares on each of the fourth and fifth anniversaries of the Effective Date, and the remainder shall vest on the sixth anniversary. The non-competition clauses of Mr. McLaren’s employment agreement preclude him from engaging, directly or indirectly, in the development, ownership, leasing, management, financing, or sales of manufactured housing communities or manufactured homes anywhere in the continental United States or Canada during the period he is employed by us and for a period of up to twenty four months following the period he is employed by us; provided, however, that if Mr. McLaren is terminated without “cause” the period of non-competition shall be reduced to twelve months following the period he is employed by us. Notwithstanding, Mr. McLaren’s employment agreement does allow him to make passive investments in publicly-traded entities engaged in our business during the period he is employed by us. See “Change in Control and Severance Payments” for a description of the terms of the employment agreement relating to change of control and severance payments.

## 2011 Compensation

The base salaries for the named executive officers for the year ended December 31, 2011, were paid in accordance with existing employment agreements or arrangements.

For 2011, the Compensation Committee established the following targets for the executive officers in relation to annual incentive awards. The achievement of such targets was used to determine a portion of the executive's annual incentive award. As indicated in each executive's employment agreement, the payment of any or all of the incentive compensation, whether or not set targets are achieved, is in the sole discretion of the Compensation Committee. The structure of the bonus plans for Mr. Shiffman and Ms. Dearing are set forth in the tables below:

<b>CEO Bonus Plan</b>		% of Salary				Maximum Discretionary Award (2)	Total Bonus Awarded
Item	Allocation of Base Salary	30 Met	% Exceed	60 Exceed	% Excel		
Achievement of individual goals	\$ 159,346	\$ 47,804		\$ 95,608	\$ 159,346	-	\$ 159,346
Company achievement of FFO <sup>(1)</sup>	318,693	95,608		191,216	318,693	-	191,216
Compensation Committee Discretion <sup>(2)</sup>	159,346	-		-	-	159,346	159,346
<b>Total</b>	<b>\$ 637,385</b>						<b>\$ 509,908</b>

Due to the exceptional results achieved in 2011, including acquisitions and financing transactions, the Compensation Committee, elected to exercise its sole discretion to award Mr. Shiffman an additional discretionary amount of \$127,477, bringing his total annual incentive bonus to \$637,385.

<b>CFO Bonus Plan</b>		% of Salary				Maximum Discretionary Award (2)	Total Bonus Awarded
Item	Allocation of Base Salary	30 Met	% Exceed	60 Exceed	% Excel		
Achievement of individual goals	\$ 83,750	\$ 25,125		\$ 50,250	\$ 83,750	-	\$ 83,750
Company achievement of FFO <sup>(1)</sup>	167,500	50,250		100,500	167,500	-	100,500
Compensation Committee Discretion <sup>(2)</sup>	83,750	-		-	-	83,750	68,675
<b>Total</b>	<b>\$ 335,000</b>						<b>\$ 252,925</b>

<sup>(1)</sup> See Target Level Table below for achievement ranges.

<sup>(2)</sup> The Compensation Committee has the discretion to award the CEO and CFO a cash bonus in any amount up to a maximum of 25% of their base salary.

The individual goals for Mr. Shiffman were focused on strategic leadership of the organization and communication of our mission and values, implementation of systems and processes that assure physical, financial and human resources of our organization, and provide strategic planning and guidance for opportunistic acquisition and/or expansions. The individual goals for Ms. Dearing were focused on evaluation and implementation of strategies associated with our capital requirements and structure including debt and equity transactions, effectively leading our accounting, tax and information technology departments, and creating and communicating along with the other executive officers, our strategic vision. The Compensation Committee determined that for fiscal year 2011 both Mr. Shiffman and Ms. Dearing "excelled" in the achievement of their individual goals and as such, achieved annual incentive awards of \$159,346 and \$83,750, respectively, for the achievement of this target.

The following tables provide a summary of the various target levels that we established compared to the actual results to evaluate the achievement of certain executive goals:

Achievement Level	Target Ranges			
	FFO	CNOI <sup>(2)</sup>	Annual Quant Sales Budget	Revenue Producing Sites ("RPS")
Met	\$3.03 ≤ FFO ≤ \$3.06	> \$146,732,533	1,651	> 556
Exceed	\$3.06 < FFO ≤ \$3.09	> \$147,466,196	1,651	> 606
Excel	\$3.09 < FFO	> \$148,199,858	1,651	> 656

Result	Company Results			
	Revised FFO <sup>(1)</sup>	CNOI <sup>(2)</sup>	Annual Quant Sales Budget	Revenue Producing Sites ("RPS")
Achievement Level	Exceed	Met	Not Met	Excel

<sup>(1)</sup> The reconciliation for Revised FFO as deemed by the Compensation Committee is below.

<sup>(2)</sup> CNOI is comprised of NOI/Gross Profit excluding any Gross Profit (Loss) on fixed asset home sales. The CNOI of acquired communities in 2011 are not in the above target.

Although we reported FFO-Adjusted per share of \$3.13, the Compensation Committee, in its sole discretion, reduced FFO-Adjusted per share for executive incentive purposes to \$3.07 to reflect a charge for unrecovered 2009 interest expense related to a change in our lending agreement with Fannie Mae and PNC Bank. The interest was added back to FFO for executive compensation purposes in 2009, but was not recovered in 2011 when the disagreement between us, Fannie Me and PNC Bank was concluded. The following table provides information regarding the charge that was excluded from the Compensation Committee's calculation of Revised FFO (shown as diluted per share):

	Year Ended December 31, 2011	
Funds from operations (FFO)	\$	3.01
Acquisition related costs		0.08
Asset impairment charge		0.06
Benefit for state income taxes		(0.02)
Unrecovered 2009 FNMA/ARCS facility fee		(0.06)
Revised FFO as deemed by the Compensation Committee	\$	3.07

We achieved Revised FFO/share of \$3.07 as adjusted by the Compensation Committee and as such Messrs. Shiffman and McLaren and Ms. Dearing achieved annual incentive awards of \$191,216, \$41,400 and \$100,500, respectively, for the achievement of this target.

The structure of the annual incentive plan for John B. McLaren is set forth in the table below:

COO Bonus Plan	Allocation of Base Salary	% of Salary			Maximum Discretionary Award <sup>(2)</sup>	Total Bonus Awarded
		30 %	60 %	100 %		
Item	Minimum	Target	Maximum			
CNOI <sup>(1)(2)</sup>	\$ 86,250	\$ 25,875	\$ 51,750	\$ 86,250	-	
Company achievement of FFO <sup>(2)</sup>	69,000	20,700	41,400	69,000	-	41,400
Achievement of Revenue Producing Sites ("RPS") <sup>(2)</sup>	17,250	5,175	10,350	17,250	-	17,250
Compensation Committee Discretion <sup>(3)</sup>	172,500				172,500	172,500
<b>Total</b>	<b>\$ 345,000</b>					<b>\$ 231,150</b>

<sup>(1)</sup> Annual Quant Sales Budget must also be achieved in order to be eligible for the CNOI Payout.

<sup>(2)</sup> See Target Ranges Table above for achievement ranges and definition of CNOI.

<sup>(3)</sup> The Compensation Committee has the discretion to award the COO a cash bonus in any amount up to a maximum of 25% of his base salary.

Combined net operating income for this purpose may not be the same as net operating income as disclosed in the accompanying financial statements as certain items that are not under Mr. McLaren's control or that are recorded solely for GAAP financial purposes are excluded from the computation of combined net operating income. For purposes of this calculation, we achieved combined net operating income of \$147,089,843 and we did not achieve the annual quant sales budget of 1,651, so Mr. McLaren did not achieve an annual incentive award for this target.

We achieved a gain in RPS of 732 sites and Mr. McLaren achieved an annual incentive award of \$17,250 related to the achievement of this target.

For Jonathan M. Colman:

Mr. Colman's annual incentive award is determined in the sole discretion of the CEO and recommended to the Compensation Committee after review of his overall responsibilities, his individual performance during the year, the annual incentives of the other executive officers and his overall compensation. For the fiscal year 2011, the CEO recommended and the Compensation Committee approved an annual incentive award of \$75,000 related to his work on the acquisition of the 23 communities completed in 2011.

## **Tax and Accounting Implications**

### *Deductibility of Executive Compensation.*

Section 162(m) of the Code limits the deductibility on our tax return of compensation over \$1.0 million to any of our named executive officers. However, compensation that is paid pursuant to a plan that is performance-related, non-discretionary and has been approved by our stockholders is not subject to section 162(m). We have such a plan and may utilize it to mitigate the potential impact of section 162(m). We did not pay any compensation during 2011 that would be subject to section 162(m). We believe that, because we qualify as a REIT under the Code and therefore are not subject to federal income taxes on its income to the extent distributed, the payment of compensation that does not satisfy the requirements of section 162(m) will not generally affect our net income. However, to the extent that compensation does not qualify for deduction under section 162(m) or under short term incentive plans approved by shareholders to, among other things, mitigate the effects of section 162(m), a larger portion of shareholder distributions may be subject to federal income taxation as dividend income rather than return of capital. We do not believe that section 162(m) will materially affect the taxability of shareholder distributions, although no assurance can be given in this regard due to the variety of factors that affect the tax position of each shareholder. For these reasons, the Compensation Committee's compensation policy and practices are not directly governed by section 162(m).

### *409A Considerations.*

We have also taken into consideration Code Section 409A in the design and implementation of our compensation programs. If an executive is entitled to nonqualified deferred compensation benefits that are subject to Section 409A, and such benefits do not comply with Section 409A, then the benefits are taxable in the first year they are not subject to a substantial risk of forfeiture. In such case, the executive is subject to regular federal income tax, interest and an additional federal income tax of 20% of the benefit includible in income.

## **Risks Arising from Compensation Policies and Practices**

Our senior management has assessed the enterprise-wide risks facing us and processes and procedures to mitigate such risks. In connection with such enterprise risk management process, our compensation programs were assessed, including program features that could potentially encourage excessive or imprudent risk taking and the specific aspects of our compensation policies and procedures which mitigate some of the material risks that might otherwise arise from such policies and procedures. Following this review, our management, Compensation Committee and full Board of Directors affirmatively determined that there were no risks arising from the compensation policies and practices that are reasonably likely to have a material adverse effect on us.

## Director Compensation Tables

Directors who are also employees receive no additional compensation for their services as directors. During 2011, we paid directors that are not our employees the following annual fees:

	<u>Chairman</u>	<u>Member</u>
Annual Retainer	\$ -	\$ 60,000
Audit Committee	\$ 32,500	\$ 30,000
Compensation Committee	\$ 10,000	\$ 5,000
NCG Committee	\$ 10,000	\$ 5,000

<sup>(2)</sup> Represents an award of phantom stock where a cash bonus is paid on the vesting date in lieu of shares. The cash bonus value is based on a 10 day average of our closing stock price prior to the vesting date.

## Change in Control and Severance Payments

Messrs. Shiffman and McLaren and Ms. Dearing have contractual arrangements with us providing for severance and change in control payments. If any such executive is terminated without “cause,” he or she is entitled to any accrued but unpaid salary, incentive compensation and benefits through the date of termination and a continuation of salary for up to eighteen months after termination in the case of Mr. Shiffman and up to twelve months in the case of Ms. Dearing and Mr. McLaren, subject to the execution of a general release and continued compliance with his or her non-competition and confidentiality covenants. If Messrs. Shiffman’s or McLaren’s or Ms. Dearing’s employment is terminated due to death or disability, he or she or his or her heirs, is entitled to any accrued but unpaid salary, incentive compensation and benefits through the date of termination or death and a continuation of salary for up to twenty four months, in the case of Mr. Shiffman and Ms. Dearing and in the case of Mr. McLaren eighteen months if the permanent disability or death is on or before the third anniversary of the Effective Date of his employment agreement, and up to twenty four months if such permanent disability or death occurs after the third anniversary of the Effective Date of his employment agreement. Upon a change of control and if Messrs. Shiffman or McLaren or Ms. Dearing is terminated within two years of the date of such change of control or less than two years remain under the term of his or her employment agreements, then he or she would receive 2.99 times his or her annual salary and a continuation of health and insurance benefits for one year. Under any of the foregoing events of termination or change of control, all stock options and other stock based compensation awarded to the executive shall become fully vested and immediately exercisable.

The following tables describe the potential payments upon termination without cause, a termination due to death or disability or after a change of control (and associated termination of the executives) for the following named executive officers:

## **ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE**

### **Relationship with Equity Affiliates**

We have entered into the following transactions with Origen Financial Services, LLC (“OFS LLC”):

- *Investment in OFS LLC.* We entered into an agreement with four unrelated companies (“Members”) and contributed cash of approximately \$0.6 million towards the formation of a limited liability company. OFS LLC purchased the origination platform of Origen. The purpose of the venture is to originate manufactured housing installment contracts for its Members. We account for our investment in OFS LLC using the equity method of accounting. As of December 31, 2011, we had an ownership interest in OFS LLC of 22.9 percent, and the carrying value of our investment was zero.
- *Loan Origination, Sale and Purchase Agreement.* OFS LLC agreed to fund loans that meet our underwriting guidelines and then transfer those loans to us pursuant to a Loan Origination, Sale and Purchase Agreement. We paid OFS LLC a fee of approximately \$650 per loan pursuant to a Loan Origination, Sale and Purchase Agreement which totaled approximately \$0.1 million during the year ended December 31, 2011. We purchased, at par, \$3.0 million of these loans during the year ended December 31, 2011.

We have entered into the following transactions with Origen:

- *Investment in Origen:* We own 5,000,000 shares of Origen common stock and Shiffman Origen LLC (which is owned by the Milton M. Shiffman Spouse’s Marital Trust, Gary A. Shiffman (our Chairman and Chief Executive Officer), and members of Mr. Shiffman’s family) owns 1,025,000 shares of Origen common stock. We account for our investment in Origen using the equity method of accounting. As of December 31, 2011 we had an ownership interest in Origen of approximately 19 percent, and the carrying value of our investment was zero.
- *Board Membership.* Gary A. Shiffman, our Chairman and Chief Executive Officer is a board member of Origen.

### **Lease of Principal Executive Offices**

Gary A. Shiffman, together with certain family members, indirectly owns a 21 percent equity interest in American Center LLC, the entity from which we lease office space for our principal executive offices. Arthur A. Weiss, one of our directors, owns a 0.75 percent indirect interest in American Center LLC. As of October 2011, we lease approximately 48,200 rentable square feet. The term of the lease is until October 31, 2016, with an option to renew for an additional five years. The annual base rent under the current lease is \$18.61 per square foot (gross) and will remain this amount through October 31, 2014. From November 1, 2014 to August 31, 2015, the annual base rent will be \$18.72 per square foot (gross) and then from September 1, 2015 to October 31, 2016, the annual base rent will be \$17.92 per square foot (gross). Mr. Shiffman and Mr. Weiss may have a conflict of interest with respect to their obligations as one of our officers and/or directors and their ownership interest in American Center LLC.

### **Legal Counsel**

During 2011, JRH&W acted as our general counsel and represented us in various matters. Arthur A. Weiss is the Chairman of the Board of Directors and a shareholder of such firm. We incurred legal fees and expenses of approximately \$2.5 million in 2011 in connection with services rendered by JRH&W.

### **Tax Consequences Upon Sale of Properties**

Gary A. Shiffman holds limited partnership interests in the Operating Partnership which were received in connection with the contribution of 24 properties (four of which have been sold) from partnerships previously affiliated with him (the “Sun Partnerships”). Prior to any redemption of these limited partnership interests for our common stock, Mr. Shiffman will have tax consequences different from those of us and our public stockholders on the sale of any of the Sun Partnerships. Therefore, we have different objectives than Mr. Shiffman regarding the appropriate pricing and timing of any sale of those properties.

### **Policies and Procedures for Approval of Related Party Transactions**

None of our executive officers or directors (or any family member or affiliate of such executive officer or director) may enter into any transaction or arrangement with us that reasonably could be expected to give rise to a conflict of interest without the prior approval of the NCG Committee. Any such transaction or arrangement must be promptly reported to the NCG Committee or the full Board. Any such disclosure provided by an executive officer or director is reviewed by the NCG Committee and approved or disapproved. In determining whether to approve such a transaction or arrangement, the NCG Committee takes into account, among other factors, whether the transaction was on terms no less favorable to us than terms generally available to third parties and the extent of the executive officer’s or director’s involvement in such transaction or arrangement.

The current policy was adopted and approved in 2004. All related party transactions disclosed above were approved by either the NCG Committee or the full Board.

## Management's Report on Internal Control Over Financial Reporting

Management is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Rule 13a-15(f) and 15d-15(f) promulgated under the Securities Exchange Act of 1934, as amended. Our internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles and includes those policies and procedures that:

- pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of our assets;
- provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles;
- provide reasonable assurance that receipts and expenditures are being made only in accordance with authorization of our management and directors; and
- provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of our assets that could have a material adverse effect on the financial statements.

All internal control systems, no matter how well designed, have inherent limitations and can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected. Even those systems determined to be effective can provide only reasonable assurance with respect to financial statement preparation and presentation.

Management assessed the effectiveness of our internal control over financial reporting as of December 31, 2011. In making this assessment, management used the criteria for effective internal control over financial reporting set forth in "Internal Control – Integrated Framework" issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on this assessment, management determined that, as of December 31, 2011, our internal control over financial reporting was effective.

Grant Thornton LLP, an independent registered public accounting firm, has issued an attestation report on our internal control over financial reporting as of December 31, 2011, and their report is included herein.

## Report of Independent Registered Public Accounting Firm

Board of Directors and Stockholders  
Sun Communities, Inc.

We have audited Sun Communities, Inc. (a Maryland Corporation) and subsidiaries' internal control over financial reporting as of December 31, 2011, based on criteria established in *Internal Control—Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Sun Communities, Inc. and subsidiaries' management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on Sun Communities, Inc. and subsidiaries' internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, Sun Communities, Inc. and subsidiaries maintained, in all material respects, effective internal control over financial reporting as of December 31, 2011, based on criteria established in *Internal Control—Integrated Framework* issued by COSO.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of Sun Communities, Inc. and subsidiaries as of December 31, 2011 and 2010, and the related consolidated statements of operations, comprehensive income (loss), stockholders' (deficit) equity, and cash flows for each of the three years in the period ended December 31, 2011, and the related financial statement schedule, and our report dated February 23, 2012 expressed an unqualified opinion.

## Report of Independent Registered Public Accounting Firm

Board of Directors and Stockholders  
Sun Communities, Inc.

We have audited the accompanying consolidated balance sheets of Sun Communities, Inc. (a Maryland Corporation) and subsidiaries (the “Company”) as of December 31, 2011 and 2010, and the related consolidated statements of operations, comprehensive income (loss), stockholders’ (deficit) equity, and cash flows for each of the three years in the period ended December 31, 2011. Our audits of the basic financial statements included the financial statement schedule listed in the accompanying index. These financial statements and the financial statement schedule are the responsibility of the Company’s management. Our responsibility is to express an opinion on these financial statements and the financial statement schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Sun Communities, Inc. and subsidiaries as of December 31, 2011 and 2010, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2011, in conformity with accounting principles generally accepted in the United States of America. Also in our opinion, the related financial statement schedule, when considered in relation to the basic financial statements taken as a whole, presents fairly, in all material respects, the information set forth therein.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the Company’s internal control over financial reporting as of December 31, 2011, based on criteria established in *Internal Control—Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) and our report dated February 23, 2012 expressed an unqualified opinion.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**1. Summary of Significant Accounting Policies**

***Business***

We own, operate, and develop manufactured housing and recreational vehicle communities concentrated in the midwestern, southern, and southeastern United States. As of December 31, 2011, we owned and operated a portfolio of 159 properties located in 18 states (the “Properties”, or “Property”), including 141 manufactured housing communities, eight RV communities, and 10 properties containing both manufactured housing and RV sites. As of December 31, 2011, the Properties contained an aggregate of 54,811 developed sites comprised of 47,935 developed manufactured home sites, 3,867 permanent RV sites, 3,009 seasonal RV sites, and approximately 6,400 additional manufactured home sites suitable for development.

***Principles of Consolidation***

The accompanying financial statements include our accounts and all majority-owned and controlled subsidiaries. All inter-company transactions have been eliminated in consolidation. Any subsidiaries, in which we have an ownership percentage equal to or greater than 50 percent, but less than 100 percent, represent subsidiaries with a noncontrolling interest. The noncontrolling interests in our subsidiaries are allocated their proportionate share of the subsidiaries’ financial results. This allocation is recorded as the noncontrolling interest in our Consolidated Financial Statements.

***Use of Estimates***

The preparation of financial statements in conformity with generally accepted accounting principles in the United States (“GAAP”) requires management to make estimates and assumptions related to the reported amounts included in our Consolidated Financial Statements and accompanying footnote disclosures. Actual results could differ from those estimates.

***Reclassifications***

Certain reclassifications have been made to prior periods’ financial statements in order to conform to current period presentation.

***Subsequent Events***

We have evaluated our financial statements for subsequent events.

***Investment Property***

Investment property is recorded at cost, less accumulated depreciation. We review the carrying value of long-lived assets to be held and used for impairment quarterly or whenever events or changes in circumstances indicate a possible impairment. Circumstances that may prompt a test of recoverability may include a significant decrease in the anticipated market price, an adverse change to the extent or manner in which an asset may be used or in its physical condition or other such events that may significantly change the value of the long-lived asset. An impairment loss is recognized when a long-lived asset’s carrying value is not recoverable and exceeds estimated fair value. We estimate the fair value of our long lived assets based on future cash flows and any potential disposition proceeds for a given asset. Forecasting cash flows requires management to make estimates and assumptions about such variables as the estimated holding period, rental rates, occupancy and operating expenses during the holding period, as well as disposition proceeds. Management uses its best judgment when developing these estimates and assumptions, but the development of the projected future cash flows is based on subjective variables. Future events could occur which would cause us to conclude that impairment indicators exist, and significant adverse changes in national, regional, or local market conditions or trends may cause us to change the estimates and assumptions used in our impairment analysis. The results of an impairment analysis could be material to our financial statements.

We periodically receive offers from interested parties to purchase certain of our properties. These offers may be the result of an active program initiated by us to sell the property, or from an unsolicited offer to purchase the property. The typical sale process involves a significant negotiation and due diligence period between us and the potential purchaser. As the intent of this process is to determine if there are items that would cause the purchaser to be unwilling to purchase or we would be unwilling to sell, it is not unusual for such potential offers of sale/purchase to be withdrawn as such issues arise. We classify assets as “held for sale” when it is probable, in our opinion, that a sale transaction will be completed within one year. This typically occurs when all significant contingencies surrounding the closing have been resolved, which often corresponds with the closing date.

**SUN COMMUNITIES INC.**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**1. Summary of Significant Accounting Policies, continued**

We allocate the purchase price of properties to net tangible and identified intangible assets acquired based on their fair values. In making estimates of fair values for purposes of allocating purchase price, we utilize an independent third party to value the net tangible and identified intangible assets in connection with the acquisition of the respective property. We provide historical and pro forma financial information obtained about each property, as well as any other information needed in order for the third party to ascertain the fair value of the tangible and intangible assets (including in-place leases) acquired.

***Other Capitalized Costs***

We capitalize certain costs incurred in connection with the development, redevelopment, capital enhancement and leasing of our properties. Management is required to use professional judgment in determining whether such costs meet the criteria for immediate expense or capitalization. The amounts are dependent on the volume and timing of such activities and the costs associated with such activities. Maintenance, repairs and minor improvements to properties are expensed when incurred. Renovations and improvements to properties are capitalized and depreciated over their estimated useful lives and construction costs related to the development of new community or expansion sites are capitalized until the property is substantially complete. Costs incurred to renovate repossessed homes for our Rental Program are capitalized and costs incurred to refurbish the homes at turnover and repair the homes while occupied are expensed. Certain expenditures to dealers and residents related to obtaining lessees in our communities are capitalized and amortized over a seven year period based on the anticipated term of occupancy of a resident. Costs associated with implementing our computer systems are capitalized and amortized over the estimated useful lives of the related software and hardware. Costs incurred to obtain new financing are capitalized and amortized over the terms of the related loan agreement using the straight-line method (which approximates the effective interest method).

***Cash and Cash Equivalents***

We consider all highly liquid investments with a maturity of three months or less from the date of purchase to be cash and cash equivalents. The maximum amount of credit risk arising from cash deposits in excess of federally insured amounts was approximately \$1.8 million and \$2.6 million as of December 31, 2011 and 2010, respectively.

***Inventory***

Inventory of manufactured homes is stated at lower of specific cost or market based on the specific identification method.

***Investments in Affiliates***

Investments in affiliates in which we do not have a controlling direct or indirect voting interest, but can exercise significant influence over the entity with respect to its operations and major decisions, are accounted for using the equity method of accounting. The carrying value of our investment is adjusted for our proportionate share of the affiliate's net income or loss and reduced by distributions received. We review the carrying value of our investment in affiliates for other than temporary impairment whenever events or changes in circumstances indicate a possible impairment. Financial condition, operational performance, and other economic trends are some of the factors we consider when we evaluate the existence of impairment indicators. When we have a carrying value of zero for our investment, we suspend the equity method of accounting until such time that the affiliate's net income equals or exceeds the share of net losses not recognized during the time in which the equity method of accounting was suspended. See Note 8 for additional information.

***Notes and Other Receivables***

We provide financing to purchasers of manufactured homes generally located in our communities. The notes are collateralized by the underlying manufactured home sold. Notes receivable include both installment loans retained by the Company as well as transferred loans that have not met the requirements for sale accounting which are presented herein as collateralized receivables (See Note 5 for additional information). For purposes of accounting policy, all notes receivable are considered one homogenous segment, as the notes are typically underwritten using the same requirements and terms. Notes receivable are reported at their outstanding unpaid principal balance adjusted for an allowance for loan loss. Interest income is accrued based upon the unpaid principal balance of the loans.

**1. Summary of Significant Accounting Policies, continued**

Past due status of our notes receivable is determined based upon the contractual terms of the note. When a note receivable becomes 60 days delinquent, we stop accruing interest on the note receivable. The interest on nonaccrual loans is accounted for on the cash basis until qualifying for return to accrual. Loans are returned to accrual when all principal and interest amounts contractually due are brought current and future payments are reasonably assured. Loans on a nonaccrual status were immaterial at December 31, 2011 and 2010. The ability to collect our notes receivable is measured based on current and historical information and events. We consider numerous factors including: length of delinquency, estimated costs to lease or sell, and repossession history. Our experience supports a high recovery rate for notes receivable; however there is some degree of uncertainty about the recoverability of our investment in these notes receivable. We are generally able to recover our recorded investment in uncollectible notes receivable by repossessing the homes on the notes retained by us and repurchasing the homes on the collateralized receivables, and subsequently selling or leasing these homes to potential residents in our communities. We have established a loan loss reserve based on our estimated unrecoverable costs associated with repossessed/repurchased homes. We estimate our unrecoverable costs to be the repurchase price of the home collateralizing the note receivable plus repair and remarketing costs in excess of the estimated selling price of the home being repossessed. A historical average of this excess cost is calculated based on prior repossessions/repurchases and is applied to our estimated annual future repossessions to create the allowance for both installment and collateralized notes receivable. See Note 6 for additional information.

We evaluate the collectability of a loan based on our ability to collect the scheduled payments of principal and interest when due according to the contractual terms of the loan agreement. We generally see that if the obligor is delinquent on the loan they are also delinquent on site rent. If the scheduled payment is delinquent more than five to seven days, dependent on state law, we begin the repossession and eviction process simultaneously. This process generally takes 30 to 45 days; due to the short time frame from delinquent loan to repossession we do not evaluate the notes receivables for impairments. No loans were considered impaired as of December 31, 2011 and 2010.

We evaluate the credit quality of our notes receivable at the inception of the receivable. We consider the following factors in order to determine the credit quality of the applicant- FICO scores; home debt to income ratio; total debt to income ratio; length of employment; and previous landlord references.

Other receivables are generally comprised of amounts due from residents for rent and related charges, home sale proceeds receivable from sales near year end and various other miscellaneous receivables. Accounts receivable from residents are typically due within 30 days and stated at amounts due from residents net of an allowance for doubtful accounts. Accounts outstanding longer than the contractual payment terms are considered past due. We evaluate the recoverability of our receivables whenever events occur or there are changes in circumstances such that management believes it is probable that it will be unable to collect all amounts due according to the contractual terms of the loan and lease agreements. Receivables related to community rents are reserved when we believe that collection is less than probable, which is generally after a resident balance reaches 60 to 90 days past due.

***Other Assets***

Included in other assets at December 31, 2011 and 2010 is restricted cash in the amount \$7.2 million and \$7.0 million, respectively. Restricted cash consists of amounts held in deposit at a financial institution to collateralize derivative instruments in a liability position and deposits for tax, insurance and repair escrows held by lenders in accordance with certain debt agreements.

***Deferred Tax Assets***

We are subject to certain state taxes that are considered to be income taxes and have certain subsidiaries that are taxed as regular corporations. Deferred tax assets or liabilities are recognized for temporary differences between the tax basis of assets and liabilities and their carrying amounts in the financial statements and net operating loss carry forwards. Deferred tax assets and liabilities are measured using currently enacted tax rates. A valuation allowance is established if, based on the available evidence, it is considered more likely than not that some portion or all of the deferred tax assets will not be realized. See Note 14 for additional information.

***Share-Based Compensation***

Share-based compensation cost for restricted stock awards is measured based on the closing share price of our common stock on the date of grant. Share-based compensation cost for stock options is estimated at the grant date based on each option's fair-value as calculated by the Binomial (lattice) option-pricing model. The Binomial (lattice) option-pricing model incorporates various assumptions including expected volatility, expected life, dividend yield, and interest rates. Share based compensation cost for phantom share awards is re-measured based on the closing share price of our common stock at the end of each reporting period. See Note 11 for additional information.

***Fair Value of Financial Instruments***

Our financial instruments consist of cash and cash equivalents, accounts and notes receivable, accounts payable, derivative instruments, and debt. We utilize fair value measurements to record fair value adjustments to certain assets and liabilities and to determine fair value disclosures. See Note 18 for additional information regarding the estimates and assumptions used to estimate the fair value of each class of financial instrument.

***Revenue Recognition***

Rental income attributable to site and home leases is recorded on a straight-line basis when earned from tenants. Leases entered into by tenants are generally for one year terms but may range from month-to-month to two years and are renewable by mutual agreement from us and the resident, or in some cases, as provided by state statute. Revenue from the sale of manufactured homes is recognized upon transfer of title at the closing of the sales transaction. Interest income on notes receivable is recorded on a level yield basis over the life of the notes. We report certain taxes collected from the resident and remitted to taxing authorities in revenue. These taxes include certain Florida property and fire taxes.

***Advertising Costs***

Advertising costs are expensed as incurred. As of December 31, 2011, 2010, and 2009, we had advertising costs of \$2.4 million, \$2.2 million and \$2.5 million, respectively.

***Depreciation and Amortization***

Depreciation and amortization are computed on a straight-line basis over the estimated useful lives of the assets. Useful lives are 30 years for land improvements and buildings, 10 years for rental homes, 7 to 15 years for furniture, fixtures and equipment, and 7 years for intangible assets.

***Derivative Instruments and Hedging Activities***

We do not enter into derivative instruments for speculative purposes. We adjust our balance sheet on a quarterly basis to reflect the current fair market value of our derivatives. For those hedges that qualify for cash flow hedge accounting, we adjust our balance sheet on a quarterly basis to reflect current fair market value of our derivatives. Changes in the fair value of derivatives are recorded in earnings or comprehensive income, as appropriate. The ineffective portion of the hedge is immediately recognized in earnings to the extent that the change in value of a derivative does not perfectly offset the change in value of the instrument being hedged. The effective portion of the hedge is recorded in accumulated other comprehensive income. We use standard market conventions to determine the fair values of derivative instruments, including the quoted market prices or quotes from brokers or dealers for the same or similar instruments. All methods of assessing fair value result in a general approximation of value and such value may never actually be realized. See Note 17 for additional information. Cash flows from derivative instruments are classified in the same category as the cash flows of the underlying hedged items, which are in the operating activities section of the Consolidated Statements of Cash Flows.

**2. Real Estate Acquisitions**

In May 2011, we acquired Orange City RV Resort (“Orange City”), a Florida RV community comprising 525 developed sites. We believe the addition of Orange City to our portfolio creates an excellent growth opportunity as well as creating a new RV presence for us geographically.

In June 2011, we closed on the acquisition of Kentland Communities (“Kentland”), comprising 17 manufactured home communities and one RV community. The 18 communities acquired are located in western Michigan and comprise 5,434 developed sites. We believe the addition of Kentland complements our existing portfolio and enhances our long-term growth opportunities.

In November 2011, we acquired Cider Mills Crossings (“Cider Mills”), a Michigan manufactured home community comprising 262 developed sites through an auction. We believe the addition of Cider Mills creates an exceptional growth opportunity for us within this community.

In December 2011, we acquired three Florida RV communities, Club Naples RV Resort, Kountree RV Resort, and North Lake RV Resort (collectively the “Florida Properties”), two of which are in Naples, Florida and one of which is in Moore Haven, Florida, comprised of 740 developed sites. We believe the addition of these three Florida properties complement the existing Florida RV portfolio and will allow for a larger geographic footprint in the state.

In February 2012, we acquired three additional Florida RV communities, Three Lakes RV resort, Blueberry Hill RV resort and Grand Lake Estates (collectively, the “Additional Florida Properties”), one of which is located in Hudson, Florida, one of which is located in Bushnell, Florida and one of which is located in Orange Lake, Florida. Together, the Additional Florida Properties are comprised of 1,124 RV sites for approximately \$25.0 million. We have engaged a third party to provide a valuation of the properties and will have the purchase price allocation for first quarter of 2012.

Acquisition related costs of approximately \$2.0 million have been incurred as of December 31, 2011 and are presented as “Acquisition related costs” in our Consolidated Statements of Operations.

During the third quarter of 2011, we completed the purchase price allocation for Kentland and Orange City.

The purchase price allocation for Cider Mills and Florida Properties is preliminary and may be adjusted as final costs and final valuations are determined.

The following table summarizes the amounts of the assets acquired and liabilities assumed recognized at the acquisition dates and the consideration paid for Kentland, Orange City, Cider Mills and the Florida Properties (in thousands):

At Acquisition Date	Kentland	Orange City	Cider Mills	Florida Properties	Total

**2. Real Estate Acquisitions, continued**

The results of operations of Kentland, Orange City, Cider Mills, and the Florida Properties are included in the Consolidated Statements of Operations beginning on their acquisition dates of June 2011, May 2011, November 2011, and December 2011, respectively. The following unaudited pro forma financial information presents the results of our operations for the years ended December 31, 2011 and 2010 as if the properties were acquired on January 1, 2010. The unaudited pro forma results have been prepared for comparative purposes only and do not purport to be indicative of either the results of operations that would have actually occurred had these transactions occurred on January 1, 2010 or the future results of operations (in thousands, except per-share data) <sup>(1)</sup>.

**3. Discontinued Operations**

In the third quarter of 2009, we sold our investments in certain land improvements and equipment that provided cable television services to certain communities within the Real Property Operations segment. Cash proceeds from this sale were \$0.3 million, resulting in a net gain on sale of \$0.1 million. The results of the cable television service business for the prior periods have been presented as a discontinued operation in the Consolidated Financial Statements.

The following tables set forth certain summarized financial information of the discontinued operation (in thousands):

Accumulated depreciation	<u>(597,999)</u>	<u>(548,218)</u>
Investment property, net	<u>\$ 1,196,606</u>	<u>\$ 1,032,326</u>

Land improvements and buildings consist primarily of infrastructure, roads, landscaping, clubhouses, maintenance buildings and amenities.

In September 2009, a flood caused substantial damage to our property, Countryside Village of Atlanta, located in Lawrenceville, Georgia, which included the destruction of 109 home sites. We have comprehensive insurance coverage for both the property damage and business interruption, subject to deductibles and certain limitations. In December 2011, we settled our insurance claim, which resulted in total proceeds of \$4.8 million. We are currently in the process of investigating the feasibility of, and seeking approval from FEMA for, rebuilding the damaged home sites, and have commenced discussions with our lender relative to the potential use of the insurance proceeds for such purpose.

In December 2011, we recorded impairment charges of \$1.4 million associated with a long-lived asset for our manufactured housing community in Reidsville, North Carolina. This community consists of 45 developed sites. Based on our impairment analysis, we reviewed the carrying value of the long-lived asset to be held and used for impairment which indicated a possible impairment. Circumstances that prompted this test of recoverability included a decrease in the net operating income and an adverse judgment that limits the number of rental homes in the community. We considered both of these factors and determined that we will not be expanding the community. We recognized the impairment loss because the long-lived asset's carrying value was deemed not recoverable and exceeded estimated fair value. We estimated the fair value of these long lived assets based on future cash flows and any potential disposition proceeds for the given asset. We used variables such as estimated holding period, rental rates, occupancy and operating expenses during the holding period, as well as disposition proceeds to forecast future cash flows. This transaction is classified as Asset Impairment Charge within the Consolidated Statements of Operations.

**SUN COMMUNITIES INC.**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**5. Transfers of Financial Assets**

We completed various transactions with an unrelated entity involving our notes receivable during 2011 and 2010, under which we received a total of \$21.5 million and \$26.9 million, respectively, of cash proceeds in exchange for relinquishing our right, title and interest in certain notes receivable. We have no further obligations or rights with respect to the control, management, administration, servicing, or collection of the installment notes. However, we are subject to certain recourse provisions requiring us to purchase the underlying homes collateralizing such notes, in the event of a note default and subsequent repossession of the home by the unrelated entity. The recourse provisions are considered to be a form of continuing involvement, and therefore these transferred loans did not meet the requirements for sale accounting. We continue to recognize these transferred loans on our balance sheet and refer to them as collateralized receivables as a transfer of financial assets. The proceeds from the transfer have been recognized as a secured borrowing.

In the event of note default, and subsequent repossession of a manufactured home by the unrelated entity, the terms of the agreement require us to repurchase the manufactured home. Default is defined as the failure to repay the installment note according to contractual terms. The repurchase price is calculated as a percentage of the outstanding principal balance of the collateralized receivable, plus any outstanding late fees, accrued interest, legal fees, and escrow advances associated with the installment note. The percentage used to determine the repurchase price of the outstanding principal balance on the installment note is based on the number of payments made on the note. In general, the repurchase price is determined as follows:

<b>Number of Payments</b>	<b>Repurchase %</b>
Less than or equal to 15	100 %
Greater than 15 but less than 64	90 %
Equal to or greater than 64 but less than 120	65 %
120 or more	50 %

The transferred assets have been classified as collateralized receivables in Notes and Other Receivables (see Note 6) and the cash proceeds received from these transactions have been classified as a secured borrowing in Debt (see Note 9) within the Consolidated Balance Sheets. The balance of the collateralized receivables was \$81.2 million (net of allowance of \$0.5 million) and \$71.0 million (net of allowance of \$0.2 million) as of December 31, 2011 and 2010, respectively. The outstanding balance on the secured borrowing was \$81.7 million and \$71.3 million as of December 31, 2011 and 2010, respectively.

The balances of the collateralized receivables and secured borrowings fluctuate. The balances increase as additional notes receivable are transferred and exchanged for cash proceeds. The balances are reduced as the related collateralized receivables are collected from the customers, or as the underlying collateral is repurchased. The change in the aggregate gross principal balance of the collateralized receivables is as follows (in thousands):

	<b>2011</b>	<b>2010</b>
Beginning balance as of December 31,	\$ 71,278	\$ 52,368
Financed sales of manufactured homes	21,509	20,637
Transfers of financial assets	-	6,271
Principal payments and payoffs from our customers	(4,425)	(3,497)
Principal reduction from repurchased homes	(6,680)	(4,501)
Total activity	10,404	18,910
Ending balance as of December 31,	<u>\$ 81,682</u>	<u>\$ 71,278</u>

The collateralized receivables earn interest income and the secured borrowings accrue interest expense at the same interest rates. The amount of interest income and expense recognized was \$8.5 million and \$7.0 million for the years ended December 31, 2011 and 2010, respectively.

*Installment Notes Receivable on Manufactured Homes*

The installment notes of \$13.4 million (net of allowance of \$0.1 million) and \$9.4 million (net of allowance of \$0.1 million) as of December 31, 2011 and 2010, respectively, are collateralized by manufactured homes. The notes represent financing provided by us to purchasers of manufactured homes primarily located in our communities and require monthly principal and interest payments. This also includes the notes receivable that were purchased in the Kentland acquisition. See Note 2 for more information. The notes have a net weighted average interest rate and maturity of 7.9 percent and 10.3 years as of December 31, 2011, and 7.0 percent and 11.1 years as of December 31, 2010.

The change in the aggregate gross principal balance of the installment notes is as follows (in thousands):

*Collateralized Receivables*

Collateralized receivables represent notes receivable that were transferred to a third party, but did not meet the requirements for sale accounting (see Note 5). The receivables have a balance of \$81.2 million (net of allowance of \$0.5 million) and \$71.0 million (net of allowance of \$0.2 million) as of December 31, 2011 and 2010, respectively. The receivables have a net weighted average interest rate and maturity of 11.2 percent and 13.2 years as of December 31, 2011, and 11.3 percent and 13.4 years as of December 31, 2010.

*Allowance for Losses for Collateralized and Installment Notes Receivable*

The allowance for losses for collateralized and installment notes receivable was \$0.6 million and \$0.3 million as of December 31, 2011 and 2010, respectively.

**7. Intangibles**

Our intangible assets are in-place leases from acquisitions and capitalized costs in relation to leasing costs. These intangible assets are recorded within Other Assets on the Consolidated Balance Sheets. They are amortized into depreciation and amortization expense over a seven year amortization period. The gross carrying amount is \$25.3 million and \$17.1 million for the years ended December 31, 2011 and 2010, respectively. The accumulated amortization is \$10.8 million and \$11.2 million for the years ended December 31, 2011 and 2010, respectively. Aggregate net amortization expense related to intangible assets was \$2.5 million for the years ended December 31, 2011, 2010 and 2009, respectively. We anticipate the amortization expense for the existing intangible assets to be \$2.8 million, \$2.6 million, \$2.3 million, \$2.1 million and \$1.9 million for the next five years.

**8. Investment in Affiliates**

*Origen Financial Services, LLC. (“OFS LLC”)*

At December 31, 2011, we had a 22.9 percent ownership interest in OFS LLC, an entity formed to originate manufactured housing installment contracts. We contributed cash of approximately \$0.5 million toward the formation of OFS LLC.

In December 2009, we concluded that our investment in OFS LLC was not recoverable due to operating losses, liquidity concerns, and declining revenue trends and recorded an other than temporary impairment charge to reduce the carrying value of our investment to zero. Equity accounting is suspended in periods when the recognition of equity losses would reduce the carrying value of our investment below zero and also because we are not obligated to provide additional funding to OFS LLC. In the event OFS LLC reports net income in future periods, we will resume application of the equity method only after our share of the LLC’s net income equals or exceeds the share of net losses not recognized during the period in which equity accounting was suspended. We recorded a loss associated with our equity allocation of OFS LLC’s financial results for the year ended December 31, 2010. The carrying value of our investment in OFS LLC was zero as of December 31, 2011 and 2010. Our equity allocation of OFS LLC’s losses was \$0.5 million for the year ended December 31, 2009.

*Origen Financial, Inc. (“Origen”)*

We own 5,000,000 shares of common stock of Origen which approximates an ownership interest of 19 percent, and the carrying value of our investment was zero as of December 31, 2011. We do, however, receive income from dividend payments on our investment. Origen had a market value of approximately \$6.5 million based on a quoted market closing price of \$1.29 per share from the “Pink Sheet Electronic OTC Trading System” as of December 31, 2011.

Our equity allocations of the losses from Origen were \$1.6 and \$1.7 million for the year ended December 31, 2010 and 2009, respectively. Equity accounting is suspended in periods when the recognition of equity losses would reduce the carrying value of our investment below zero and also because we are not obligated to provide additional funding to Origen. In the event Origen reports net income in future periods, we will resume application of the equity method only after our share Origen’s net income equals or exceeds the share of net losses not recognized during the period in which equity accounting was suspended.

These unaudited revenue and expense amounts in the table below represent actual results through November 2011, and budgeted results for December 2011.

*Collateralized Term Loans*

In March, 2011, we completed a collateralized mortgage backed security “CMBS” financing with JPMorgan Chase Bank, National Association for \$115.0 million bearing an interest rate of 5.837% and a maturity date of March 1, 2021. This loan is secured by 11 properties. The loan refinanced \$104.8 million of CMBS debt which was scheduled to mature in July 2011 and was collateralized using the same property pool.

In July 2011, we reached an agreement with Fannie Mae (“FNMA”) and PNC Bank, National Association, regarding the settlement of the litigation we commenced in November 2009 over certain fees charged when the variable rate loan facility was extended in April 2009. The agreement became effective January 3, 2012 and the litigation was dismissed. In accordance with the terms of the agreement, we have the option to extend the maturity date of our entire \$367.0 million credit facility with PNC Bank and FNMA from 2014 to 2023, subject to compliance with certain underwriting criteria. This agreement also provided a reduction in the facility fee charged on our variable rate facility, the effect of which reduced interest expense by \$1.7 million thru December 31, 2011. See Note 20 for a more detailed description of the agreement. In addition we have a \$10.0 million variable rate facility, which matures on May 1, 2023 and provides for interest-only payments until May 1, 2014, after which principal and interest payments will be due based on a 30-year amortization. The interest rate for the \$10.0 million variable rate facility is equal to the 90-day LIBOR index, plus an investor spread equal to 95 basis points, plus a variable facility fee equal to 172 basis points through maturity.

The collateralized term loans totaling \$993.8 million as of December 31, 2011, are secured by 96 properties comprised of 35,180 sites representing approximately \$585.9 million of net book value.

*Aspen Preferred OP Units*

In February 2010, our Operating Partnership completed a ten year extension on the redemption date associated with the \$35.8 million convertible Aspen Preferred OP Units to January 1, 2024. In connection with the extension, the maximum annual preferred rate on the Aspen Preferred OP Units was increased to 9.0 percent from 8.6 percent. These Aspen Preferred OP Units are convertible into 526,212 common shares based on a conversion price of \$68 per share.

We redeemed \$0.9 million of Series B-3 Preferred OP Units in the year ended December 31, 2010.

*Secured Borrowing*

See Note 5 for additional information regarding our collateralized receivables and secured borrowing transactions.

*Mortgage Notes*

In May 2011, we completed a refinancing agreement with Bank of America N.A., for \$23.6 million. This debt bears an interest rate of 5.38% and has a maturity of June 1, 2021. This loan is secured by three properties. The loan refinanced \$17.9 million of debt which was scheduled to mature in June 2012 and was collateralized using the same property pool.

In June 2011, we assumed secured debt with a principal balance \$52.4 million, as a result of the Kentland acquisition (see Note 2 for acquisition details), that has a weighted average maturity of 4.4 years and weighted average annual interest rate of 5.70%. This secured debt was recorded at fair value on the date of the acquisition. This debt is secured by 12 properties.

In June 2011, we entered into a \$22.9 million variable financing agreement with Bank of America N.A., to fund the Kentland and Orange City acquisition (see Note 2 for acquisition details). The agreement has a weighted average maturity of 3.7 years and weighted average annual variable interest rate of 3.10%. The debt was collateralized by six properties – five Kentland properties and Orange City. Subsequent to the year ended December 31, 2011, we paid off \$4.5 million of this agreement which was collateralized by Orange City.

In December 2011, we entered into a \$17.0 million variable financing agreement with Bank of America, N.A. and Private Bank to fund the Florida Properties acquisition (see Note 2 for acquisition details). The agreement has a weighted average maturity of 5.0 years and had an effective interest rate of 2.80% at December 31, 2011. The debt was collateralized by all three of the properties acquired in the Florida Properties acquisition.

The mortgage notes totaling \$143.9 million as of December 31, 2011, are collateralized by 31 properties comprised of 8,403 sites representing approximately \$243.8 million of net book value.

*Lines of Credit*

In September, 2011, we entered into a senior secured revolving credit facility with Bank of America, N.A., and certain other lenders in the amount of \$130.0 million (the "Facility"), which replaced our \$115.0 million revolving line of credit. The Facility is secured by a first priority lien on all of our equity interests in each entity that owns all or a portion of the properties constituting the borrowing base and collateral assignments of our senior and mezzanine debt positions in certain borrowing base properties. The Facility has a built-in accordion feature allowing up to \$20.0 million in additional borrowings and a one-year extension option, both at our discretion. The Facility matures on October 1, 2015, assuming the election of the extension. The Facility will bear interest at a floating rate based on Eurodollar plus a margin that is determined based on our leverage ratio calculated in accordance with the Facility, which can range from 2.25% to 2.95%. Based on our current leverage ratio, the margin is 2.75% as of December 31, 2011. The outstanding balance on the line of credit was \$107.5 million and \$81.0 million as of December 31, 2011 and December 31, 2010, respectively. In addition, \$4.0 million of availability was used to back standby letters of credit as of December 31, 2011 and December 31, 2010. The weighted average interest rate on the outstanding borrowings was 3.4 percent as of December 31, 2011. As of December 30, 2011 and December 31, 2010, \$18.5 million and \$30.0 million, respectively, were available to be drawn under the facility based on the calculation of the borrowing base at each date.

**9. Debt and Lines of Credit, continued**

In May 2010, we entered into a \$20.0 million secured line of credit agreement collateralized by a portion of our rental home portfolio. The net book value of the rental homes pledged as security for the loan must meet or exceed 200 percent of the outstanding loan balance. The agreement has a maximum 10 year term that can be prepaid partially or in full at our option any time before the maturity date without penalty. The terms of the agreement require interest only payments for the first 5 years, with the remainder of the term being amortized based on a 10 year term. The interest rate for the first 5 years is Prime plus 200 basis points, with a minimum rate of 5.5 percent and a maximum rate of 9.0 percent (effective rate 5.5 percent at December 31, 2011); and thereafter at a fixed rate of 5.15 percent over the 5-year U.S. Treasury rate in effect on May 1, 2015. Prime shall mean the prime rate published in the *Wall Street Journal* adjusted the first day of each calendar month. The outstanding balance was \$16.0 million as of December 31, 2011 and was collateralized by 841 rental homes with a net book value of \$32.0 million. The outstanding balance was \$9.0 million as of December 31, 2010.

In March 2009, we entered into a \$10.0 million manufactured home floor plan facility that was increased to \$12.0 million in the second quarter of 2011. The floor plan facility initially had a committed term of one year. In February 2010, the floor plan facility was renewed indefinitely until our lender provides us 12 month notice of their intent to terminate the agreement. The interest rate is 100 basis points over the greater of Prime or 6.0 percent (effective rate 7.0 percent at December 31, 2011). Prime means the prevailing “prime rate” as quoted in the *Wall Street Journal* on the first business day of each month. The outstanding balance was \$5.5 million and \$4.5 million as of December 31, 2011 and 2010, respectively.

The most restrictive of our debt agreements place limitations on secured borrowings and contain minimum fixed charge coverage, leverage, distribution and net worth requirements. As of December 31, 2011, we were in compliance with all covenants.

**10. Equity Transactions**

In November 2004, our Board of Directors authorized us to repurchase up to 1,000,000 shares of our common stock. We have 400,000 common shares remaining in the repurchase program. No common shares were repurchased under this buyback program during 2011 or 2010. There is no expiration date specified for the buyback program.

Common OP Unit holders can convert their Common OP units into an equivalent number of shares of common stock at any time. During 2011, holders of Common OP Units converted 10,249 units to common stock.

The vesting requirements for 20,412 restricted shares granted to our employees were satisfied during the year ended December 31, 2011.

**10. Equity Transactions, continued**

Our shelf registration statement on Form S-3 for a proposed offering of up to \$300.0 million of our common stock, preferred stock and debt securities was declared effective with the SEC in May 2009. We entered into a sales agreement to issue and sell up to 1,600,000 shares of common stock from time to time pursuant to our effective shelf registration statement on Form S-3. Sales under the agreement commenced during the third quarter of 2009 and we completed the final sale in May 2011. On May 31, 2011, we entered into an amendment to the sales agreement pursuant to our effective shelf registration statement on Form S-3. Our Board of Directors authorized the sale of an additional 1,600,000 shares after May 2011 under the sales agreement. We issued 782,521 shares of common stock (480,184 shares from the first authorized issuance in 2009 and 302,337 shares from the second authorized issuance in 2011) during the year ended December 31, 2011 under the agreement. The shares of common stock were sold at the prevailing market price of our common stock at the time of each sale with a weighted average sale price of \$37.54 and we received net proceeds of approximately \$28.8 million. The proceeds were used to pay down our line of credit. As of December 31, 2011, there were an additional 1,297,663 shares authorized for issuance under the agreement. Subsequent to December 31, 2011, we have issued 40,524 shares at a weighted average price of \$37.22 and received \$1.5 million in net proceeds.

In August, 2010, we entered into a Common Stock Purchase Agreement (the "Purchase Agreement") with REIT Opportunity, Ltd. ("REIT Ltd."), which provides that, upon the terms and subject to the conditions set forth in the Purchase Agreement, REIT Ltd. is committed to purchase up to the lesser of \$100,000,000 of our common stock, or 3,889,493 shares of our common stock, which is equal to one share less than twenty percent of our issued and outstanding shares of common stock on the effective date of the Purchase Agreement. From time to time over the two year term of the Purchase Agreement, and at our sole discretion, we may present REIT Ltd. with draw down notices to purchase our common stock. Any and all issuances of shares of common stock to REIT Ltd. pursuant to the Purchase Agreement will be registered on our effective shelf registration statement on Form S-3. In January, 2011 we sold 915,827 shares of common stock at a weighted average sale price of \$32.76 and received net proceeds of \$30.0 million. The funds were used to pay down our line of credit.

In June 2011, we issued \$45.5 million of Preferred OP units in connection with the Kentland acquisition (see Note 2 for details). Preferred OP unit holders can convert the Preferred OP units into shares of common stock at any time after December 31, 2013 based on a conversion price of \$41 per share with \$100 par value. These Preferred OP units are convertible, but not redeemable. The Preferred OP unit holders receive a preferred return of 5.1% until June 23, 2013 and 6.0% thereafter.

In January, 2012, we closed an underwritten registered public offering of 4,600,000 shares of common stock at a price of \$35.50 per share. The net proceeds from the offering were \$156.0 million after deducting the underwriting discounts and expenses related to the offering. We used the net proceeds of the offering to repay \$123.5 million of outstanding debt and we used \$25.0 million to fund a portion of the purchase price of the remaining three RV communities located in Florida that we acquired in 2012 (See Note 2 for additional information). We expect to use any remaining net proceeds of the offering to fund possible future acquisitions of properties and for working capital and general corporate purposes.

Cash dividends of \$3.15 per share were declared for the year ended December 31, 2011. Cash payments for aggregate dividends, distributions and dividend equivalents made to common stockholders, common OP unitholders, and restricted stockholders were \$58.5 million for the year ended December 31, 2011.

On January 20, 2012, aggregate dividends, distributions and dividend equivalents of \$15.0 million were made to common stockholders, common OP unitholders, and restricted stockholders of record on December 30, 2011.

**11. Share-Based Compensation**

As of December 31, 2011, we have three share-based compensation plans approved by stockholders. The plans consist of Sun Communities, Inc. Equity Incentive Plan ("2009 Equity Plan") and two Non-Employee Director Option Plans ("Director Plans"). The 2009 Equity Plan was approved by our stockholders at the Annual Meeting of Stockholders held on July 29, 2009. The 2009 Equity Plan replaced the Sun Communities, Inc. Stock Option Plan adopted in 1993, as amended and restated in 1996 and 2000 ("1993 Plan"), and terminates automatically July 29, 2019.

Upon the approval of the 2009 Equity Plan by our stockholders, the Board of Directors terminated the 1993 Plan with respect to new awards. Outstanding awards previously granted under the 1993 Plan were not affected by the termination of the 1993 Plan, and the terms of the 1993 Plan shall continue to govern such previously granted awards.

The maximum number of shares of common stock that may be issued under the 2009 Equity Plan is 950,000 shares, with 693,000 shares remaining for future issuance. The maximum number of shares of common stock that may be issued under the Director Plans is 200,000 shares, with 83,750 shares remaining for future issuance.

**SUN COMMUNITIES INC.  
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**11. Share-Based Compensation, continued**

The types of awards that may be granted under the 2009 Equity Plan include stock options, stock appreciation rights, restricted stock, and other stock based awards. The 1993 Plan provided for the same types of equity awards as the 2009 Plan. We believe granting equity awards will provide certain key employees additional incentives to promote our financial success, and promote employee retention by providing an opportunity to acquire or increase the employees' direct proprietary interest in our operations and future.

The types of awards that may be granted under the Director Plans are options to non-employee directors.

We have recognized compensation costs associated with shared based awards of \$1.6 million, \$1.6 million, and \$2.6 million for the years ended December 31, 2011, 2010, and 2009 respectively.

*Restricted Stock*

The majority of our share-based compensation is awarded as restricted stock grants to key employees. We measure the fair value associated with these awards using the closing price of our common stock as of the grant date to calculate compensation cost. Employee awards typically vest over several years and are subject to continued employment by the employee. Award recipients receive dividend payments on unvested shares of restricted stock. We may also award performance-based restricted stock which is subject to satisfaction of certain conditions related to our financial performance. If achievement of the performance targets is not probable, any compensation cost related to these awards that has been recognized is reversed.

The following table summarizes our restricted stock activity for the year ended December 31, 2011:

	Number of Shares	Weighted Average Grant Date Fair Value
Unvested restricted shares at January 1, 2011	141,783	\$ 21.11
Granted	154,500	\$ 37.15
Vested	(20,412)	\$ 36.87
Forfeited	-	
Unvested restricted shares at December 31, 2011	<u>275,871</u>	\$ 28.93

Total compensation cost recognized for restricted stock was \$1.5 million, \$1.5 million, and \$2.5 million for the years ended December 31, 2011, 2010, and 2009, respectively. The total fair value of shares vested was \$0.8 million, \$1.8 million, and \$2.9 million for the years ended December 31, 2011, 2010 and 2009, respectively. The remaining net compensation cost related to our unvested restricted shares outstanding as of December 31, 2011 was approximately \$6.0 million. That expense is expected to be recognized \$1.1 million in 2012, \$1.2 million in 2013, \$1.1 million in 2014 and \$2.6 million thereafter.

Subsequent to the year ended December 31, 2011, restricted stock was granted to executive officers in February 2012. The total granted was 15,000 shares, which had a grant date fair value of \$40.80.

*Options*

We have granted stock options to certain employees and non-employee directors. Option awards are generally granted with an exercise price equal to the market price of our common stock as of the grant date. Stock options generally vest over a three year period from the date of grant and have a maximum term of 10 years. We have granted 10,500 options to our non-employee directors during each of the years ended December 31, 2011, 2010, and 2009. We issue new shares at the time of share option exercise (or share unit conversion).

**SUN COMMUNITIES INC.**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**11. Share-Based Compensation, continued**

The weighted average fair value of the options issued is estimated on the date of the grant using the Binomial (lattice) option pricing model, with the following weighted average assumptions used for the grants in the periods indicated:

	July 2011 Award	July 2010 Award	July 2009 Award
Estimated fair value per share of options granted:	\$ 9.70	\$ 6.93	\$ 1.66
Number of options granted	10,500	10,500	10,500
Assumptions:			
Annualized dividend yield	6.70%	8.50%	16.90%
Common stock price volatility	45.20%	40.77%	32.70%
Risk-free rate of return	1.52%	2.40%	3.24%
Expected option terms (in years)	5.0	7.3	7.3

The following table summarizes our option activity during the year ended December 31, 2011:

	Number of Options	Weighted Average Exercise Price (per common share)	Weighted Average Contractual Term (in years)	Aggregate Intrinsic Value (in 000's)
Options outstanding at January 1, 2011	140,177	\$ 29.20		
Granted	10,500	37.35		
Exercised	(64,641)	29.43		
Forfeited or expired	(8,950)	33.33		
Options outstanding at December 31, 2011	<u>77,086</u>	\$ 29.64	5.59	\$ 540
Options vested and expected to vest	<u>77,086</u>	\$ 29.64	5.59	\$ 540
Options vested and exercisable at December 31, 2011	47,086	\$ 30.75	3.66	\$ 272

The options outstanding as of December 31, 2011 consist of 12,336 employee options and 64,750 non-employee director options. The compensation expense associated with non-vested stock option awards was not significant for the years ended December 31, 2011, 2010, and 2009. Aggregate intrinsic value represents the value of our closing share price as of December 31, 2011 in excess of the weighted-average exercise price multiplied by the number of options outstanding or exercisable. The aggregate intrinsic value excludes the effect of stock options that have a zero or negative intrinsic value.

*Phantom Awards*

We have granted phantom awards to certain key employees. Employee awards typically vest over several years and are subject to continued employment by the employee. A cash bonus is paid when the awards vest which is based on a 10 day average of our closing stock price prior to the vesting date. The awards also pay cash bonuses per unvested share equal to the amount of dividend paid per share of common stock.

The value of the awards is re-measured at each reporting date. As our stock price rises, the phantom awards increase in value, along with the associated compensation expense. Accordingly, as our stock price declines, the phantom awards decrease in value, along with the associated compensation expense.

**SUN COMMUNITIES INC.**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**11. Share-Based Compensation, continued**

For the year ended December 31 2011 and 2010, we recorded compensation expense of approximately \$0.1 million related to phantom awards. For the year ended December 31, 2009, we recognized an immaterial amount of compensation expense related to these phantom awards. The following table summarizes the phantom award activity for the year ended December 31, 2011:

	Number of Shares	Aggregate Fair Value (in 000's)
Unvested phantom awards at January 1, 2011	5,326	\$ 177
Granted	-	
Vested	(2,588)	(99)
Forfeited	(150)	
Unvested phantom awards at December 31, 2011	<u>2,588</u>	<u>\$ 95</u>

We had 2,588 unvested phantom awards with an aggregate fair value of approximately \$0.1 million based on our closing share price of \$36.53 as of December 31, 2011. The awards vest (cash bonus is paid) in varying amounts until 2014. The remaining unrecognized expense related to these phantom awards is immaterial based on the closing share price as of December 31, 2011.

**13. Segment Reporting**

Our consolidated operations can be segmented into Real Property Operations and Home Sales and Rentals. Transactions between our segments are eliminated in consolidation. Seasonal RV revenue is included in Real Property Operations' revenues and is approximately \$4.7 million annually. This seasonal revenue is recognized 49% in the first quarter, 8.0% in the second, 15% in the third quarter and 28% in the fourth quarter of each fiscal year.

**14. Income Taxes**

We have elected to be taxed as a REIT as defined under Section 856(c) of the Code, as amended. In order for us to qualify as a REIT, at least ninety-five percent (95%) of our gross income in any year must be derived from qualifying sources. In addition, a REIT must distribute at least ninety percent (90%) of its REIT ordinary taxable income to its stockholders.

Qualification as a REIT involves the satisfaction of numerous requirements (some on an annual and quarterly basis) established under highly technical and complex Code provisions for which there are only limited judicial or administrative interpretations, and involves the determination of various factual matters and circumstances not entirely within our control. In addition, frequent changes occur in the area of REIT taxation which requires us to continually monitor our tax status. We analyzed the various REIT tests and confirmed that we continued to qualify as a REIT for the year ended December 31, 2011.

As a REIT, we generally will not be subject to U.S. federal income taxes at the corporate level on the ordinary taxable income we distribute to our stockholders as dividends. If we fail to qualify as a REIT in any taxable year, our taxable income could be subject to U.S. federal income tax at regular corporate rates (including any applicable alternative minimum tax). Even if we qualify as a REIT, we may be subject to certain state and local income taxes and to U.S. federal income and excise taxes on our undistributed income.

For income tax purposes, distributions paid to common stockholders consist of ordinary income, capital gains, and return of capital. For the years ended December 31, 2011, 2010, and 2009, distributions paid per share were taxable as follows (unaudited):

	Years Ended December 31,					
	2011		2010		2009	
	Amount	Percentage	Amount	Percentage	Amount	Percentage
Ordinary income	\$ 0.74	23.5%	\$ 0.52	20.5%	\$ 0.63	25.1%
Capital gain	-	0.0%	-	0.0%	0.01	0.3%
Return of capital	2.41	76.5%	2.00	79.5%	1.88	74.6%

SHS, our taxable REIT subsidiary, is subject to U.S. federal income taxes. Our deferred tax assets and liabilities reflect the impact of temporary differences between the amounts of assets and liabilities for financial reporting purposes and the bases of such assets and liabilities as measured by tax laws. Deferred tax assets are reduced, if necessary, by a valuation allowance to the amount where realization is more likely than not assured after considering all available evidence. Our temporary differences primarily relate to net operating loss carryforwards and depreciation.

**SUN COMMUNITIES INC.**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**14. Income Taxes, continued**

The deferred income tax assets included in the Consolidated Balance Sheets are comprised of the following tax effects of temporary differences (in thousands):

	<u>As of December 31,</u>	
	<u>2011</u>	<u>2010</u>
Deferred tax assets:		
Net operating loss carryforwards	\$ 19,723	\$ 15,644
Real estate assets	17,297	15,201
Amortization of intangibles	(128)	(128)
Gross deferred tax assets	36,892	30,717
Valuation allowance	(35,892)	(29,717)
Net deferred tax assets	<u>\$ 1,000</u>	<u>\$ 1,000</u>

SHS has net operating loss carry forwards of approximately \$58.0 million at December 31, 2011. The loss carryforwards will begin to expire in 2021 through 2031 if not offset by future taxable income. Management believes its net deferred tax asset will be realized but realization is continuously subject to an assessment as to recoverability in the future. The deferred tax asset will be used when we generate sufficient taxable income. No federal tax expense was recognized in the years ended December 31, 2011, 2010, and 2009.

We had no unrecognized tax benefits as of December 31, 2011 and 2010. We expect no significant increases or decreases in unrecognized tax benefits due to changes in tax positions within one year of December 31, 2011.

We classify certain state taxes as income taxes for financial reporting purposes in accordance with ASC Topic 740, Income Taxes. We record the Michigan Business Tax and Texas Margin Tax as income taxes in our financial statements. We recorded a provision for state income taxes of approximately \$0.2 million, \$0.5 million, and \$0.4 million in the years ended December 31, 2011, 2010, and 2009, respectively. The current portion of the state income tax provision is approximately \$0.6 million, \$0.5 million, and \$0.6 million for the years ended December 31, 2011, 2010, and 2009, respectively. The deferred tax benefit portion of the state income tax provision is approximately \$0.4 million and \$0.2 million for December 31, 2011 and 2009, respectively. The deferred tax benefit portion of the state income tax provision for December 31, 2010 was immaterial.

A deferred tax liability is included in our Consolidated Balance Sheets of \$0.4 million as of December 31, 2010 in relation to the Michigan Business Tax and we had no deferred tax liability in relation to the Michigan Business Tax as of December 31, 2011 due to changes in the tax law. No deferred tax liability is recorded in relation to the Texas Margin Tax as of December 31, 2011 and 2010.

We and our subsidiaries are subject to income taxes in the U.S. and various state jurisdictions. Tax regulations within each jurisdiction are subject to the interpretation of the related tax laws and regulations and require significant judgment to apply. With few exceptions, we are no longer subject to U.S. Federal, State and Local, examinations by tax authorities before 2007.

Our policy is to report income tax penalties and income tax related interest expense as a component of income tax expense. No interest or penalty associated with any unrecognized income tax benefit or provision was accrued, nor was any income tax related interest or penalty recognized during the year ended December 31, 2011.

**SUN COMMUNITIES INC.**

**15. Loss Per Share**

We have outstanding stock options and unvested restricted shares, and our Operating Partnership has Common OP Units, and convertible Preferred OP Units, which if converted or exercised, may impact dilution. Although our unvested restricted shares qualify as participating securities, we do not include them in the computation of basic loss per share under the two-class method in periods we report net losses, as the result would be anti-dilutive.

Computations of basic and diluted loss per share from continuing operations were as follows (in thousands, except per share data):

	Years Ended December 31,		
	2011	2010	2009
<b>Numerator</b>			
Net loss from continuing operations attributable to common stockholders	\$ (1,086)	\$ (2,883)	\$ (6,099)
<b>Denominator</b>			
Basic weighted average common shares outstanding	21,147	19,168	18,484
Add: dilutive securities	-	-	-
Diluted weighted average common shares	21,147	19,168	18,484
Basic and diluted loss per share from continuing operations available to common stockholders	\$ (0.05)	\$ (0.15)	\$ (0.33)

We excluded securities from the computation of diluted loss per share because the inclusion of these securities would have been anti-dilutive for the periods presented. The following table presents the number of outstanding potentially dilutive securities that were excluded from the computation of diluted loss per share as of December 31, 2011, 2010, and 2009 (amounts in thousands):

	Years Ended December 31,		
	2011	2010	2009
Stock options	77	140	152
Unvested restricted stock	276	142	188
Common OP Units	2,072	2,082	2,140
Aspen Preferred OP units	1,111	-	-
Convertible Preferred OP Units	526	526	526
Total securities	4,062	2,890	3,006

The figures above represent the total number of potentially dilutive securities, and do not reflect the incremental impact to the number of diluted weighted average shares outstanding that would be computed if the impact to us had been dilutive to the calculation of loss per share available to common stockholders.

**17. Derivative Instruments and Hedging Activities**

Our objective in using interest rate derivatives is to manage exposure to interest rate movements thereby minimizing the effect of interest rate changes and the effect they could have on future cash flows. Interest rate swaps and caps are used to accomplish this objective. We require hedging derivative instruments to be highly effective in reducing the risk exposure that they are designated to hedge. We formally designate any instrument that meets these hedging criteria as a hedge at the inception of the derivative contract.

As of December 31, 2011, we had four derivative contracts consisting of two interest rate swap agreements with a total notional amount of \$45.0 million and two interest rate cap agreements with a notional amount of \$162.4 million. We generally employ derivative instruments that effectively convert a portion of our variable rate debt to fixed rate debt and to cap the maximum interest rate on certain variable rate borrowings. We do not enter into derivative instruments for speculative purposes.

**SUN COMMUNITIES INC.**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**17. Derivative Instruments and Hedging Activities, continued**

The following table provides the terms of our interest rate derivative contracts that were in effect as of December 31, 2011:

Type	Purpose	Effective Date	Maturity Date	Notional (in millions)	Based on	Variable Rate	Fixed Rate	Spread	Effective Fixed Rate
Swap	Floating to Fixed Rate	09/04/02	07/03/12	25.0	3 Month LIBOR	0.3721%	4.7000%	0.9000%	5.6000%

Cap	Cap Floating Rate	04/28/09	05/01/12	152.4	3 Month LIBOR	0.5810%	11.0000%	0.0000%	N/A
Cap	Cap Floating Rate	10/03/11	10/03/16	10.0	3 Month LIBOR	0.5810%	11.0200%	0.0000%	N/A

Generally our financial derivative instruments are designated and qualify as cash flow hedges and the effective portion of the gain or loss on such hedges are reported as a component of accumulated other comprehensive income (loss) in our Consolidated Balance Sheets. To the extent that the hedging relationship is not effective or do not qualify as a cash flow hedge, the ineffective portion is recorded in interest expense. Hedges that received designated hedge accounting treatment are evaluated for effectiveness at the time that they are designated as well as through the hedging period.

In accordance with ASC Topic 815, Derivatives and Hedging, we have recorded the fair value of our derivative instruments designated as cash flow hedges on the balance sheet. See Note 18 for information on the determination of fair value for the derivative instruments. The following table summarizes the fair value of derivative instruments included in our Consolidated Balance Sheets as of December 31, 2011 and 2010 (in thousands):

	Asset Derivatives			Liability Derivatives		
	Balance Sheet Location	Fair Value As of December 31,		Balance Sheet Location	Fair Value As of December 31,	
		2011	2010		2011	2010
<b>Derivatives designated as hedging instruments</b>						
Interest rate swaps and cap agreement	Other assets	\$ -	\$ -	Other liabilities	\$ 1,106	\$ 2,166
Total derivatives designated as hedging instruments		\$ -	\$ -		\$ 1,106	\$ 2,166

These valuation adjustments will only be realized under certain situations. For example, if we terminate the swaps prior to maturity or if the derivatives fail to qualify for hedge accounting, then we would need to amortize amounts currently included in other comprehensive income (loss) into interest expense over the terms of the derivative contracts. We do not intend to terminate the swaps prior to maturity and, therefore, the net of valuation adjustments through the various maturity dates will approximate zero, unless the derivatives fail to qualify for hedge accounting.

Our hedges were highly effective and had minimal effect on income. The following table summarizes the impact of derivative instruments for the years ended December 31, 2011, 2010, and 2009 as recorded in the Consolidated Statements of Operations (in thousands):

Derivatives in cash flow hedging	Amount of Gain or (Loss) Recognized in OCI (Effective Portion)			Location of Gain or (Loss) Reclassified from Accumulated OCI into Income (Effective Portion)	Amount of Gain or (Loss) Reclassified from Accumulated OCI into Income (Effective Portion)			Location of Gain or (Loss) Recognized in Income on Derivative (Ineffective Portion and Amount Excluded from Effectiveness Testing)	Amount of Gain or (Loss) Recognized in Income on Derivative (Ineffective Portion and Amount Excluded from Effectiveness Testing)

Certain of our derivative instruments contain provisions that require us to provide ongoing collateralization on derivative instruments in a liability position. As of December 31, 2011 and 2010, we had collateral deposits recorded in other assets of \$3.1 million and \$3.8 million, respectively.

**SUN COMMUNITIES INC.**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**18. Fair Value of Financial Instruments**

Our financial instruments consist primarily of cash and cash equivalents, accounts and notes receivable, accounts payable, derivative instruments, and debt. We utilize fair value measurements to record fair value adjustments to certain assets and liabilities and to determine fair value disclosures. The following methods and assumptions were used to estimate the fair value of each class of financial instruments for which it is practicable to estimate that value:

*Derivative Instruments*

The derivative instruments held by us are interest rate swaps and cap agreements for which quoted market prices are indirectly available. For those derivatives, we use model-derived valuations in which all observable inputs and significant value drivers are observable in active markets provided by brokers or dealers to determine the fair values of derivative instruments on a recurring basis.

*Installment Notes on Manufactured Homes*

The net carrying value of the installment notes on manufactured homes estimates the fair value as the interest rates in the portfolio are comparable to current prevailing market rates.

*Long Term Debt and Lines of Credit*

The fair value of long term debt (excluding the secured borrowing) is based on the estimates of management and on rates currently quoted and rates currently prevailing for comparable loans and instruments of comparable maturities.

*Collateralized Receivables and Secured Borrowing*

The fair value of these financial instruments offset each other as our collateralized receivables represent a transfer of financial assets and the cash proceeds received from these transactions have been classified as a secured borrowing in the Consolidated Balance Sheets. The net carrying value of the collateralized receivables estimates the fair value as the interest rates in the portfolio are comparable to current prevailing market rates.

*Other Financial Instruments*

The carrying values of cash and cash equivalents, accounts receivable, and accounts payable approximate their fair market values due to the short-term nature of these instruments.

The table below sets forth our financial assets and liabilities that required disclosure of their fair values on a recurring basis as of December 31, 2011. The table presents the carrying values and fair values of our financial instruments as of December 31, 2011 and 2010 that were measured using the valuation techniques described above. The table excludes financial instruments such as cash and cash equivalents, accounts receivable, and accounts payable because the carrying values associated with these instruments approximate fair value since their maturities are less than one year.

**18. Fair Value of Financial Instruments, continued**

ASC Topic 820, Fair Value Measurements and Disclosures, establishes a fair value hierarchy that requires the use of observable market data, when available, and prioritizes the inputs to valuation techniques used to measure fair value in the following categories:

Level 1—Quoted unadjusted prices for identical instruments in active markets.

Level 2—Quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active and model-derived valuations in which all observable inputs and significant value drivers are observable in active markets.

Level 3—Model derived valuations in which one or more significant inputs or significant value drivers are unobservable, including assumptions developed by us.

The table below sets forth, by level, our financial assets and liabilities that were required to be carried at fair value in the Consolidated Balance Sheets as of December 31, 2011.

**19. Recent Accounting Pronouncements**

*Accounting Updates to be Adopted*

In April 2011, the FASB issued ASU 2011-03, “Reconsideration of Effective Control for Repurchase Agreements” (ASU 2011-03) which amends ASC Topic 860, Transfers and Servicing. The updated guidance in ASC Topic 860 removes from the assessment of effective control (1) the criterion requiring the transferor to have the ability to repurchase or redeem the financial assets on substantially the agreed terms, even in the event of default by the transferee, and (2) the collateral maintenance implementation guidance related to that criterion. The updated guidance in ASC Topic 860 is effective for the first interim or annual period beginning on or after December 15, 2011. Early adoption is not permitted. We are currently evaluating the impact of ASU 2011-03 on our results of operations, financial condition and disclosure requirements.

In May 2011, the FASB issued ASU 2011-04, “Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs” (ASU 2011-04) which amends ASC Topic 820, Fair Value Measurement. The updated guidance in ASC Topic 820 changes the wording used to describe the requirements in U.S. GAAP for measuring fair value and for disclosing information about fair value measurements. The updated guidance in ASC Topic 820 is effective during interim and annual periods beginning after December 15, 2011. Early adoption is not permitted. We are currently evaluating the impact of ASU 2011-04 on our results of operations, financial condition and disclosure requirements. We will apply the provisions of these accounting standards after the effective date.

**SUN COMMUNITIES INC.**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**19. Recent Accounting Pronouncements, continued**

*Accounting Updates Adopted in 2011*

In June 2011, the FASB issued ASU 2011-05, “Presentation of Comprehensive Income” (ASU 2011-05) which amends ASC Topic 220, Comprehensive Income. The updated guidance in ASC Topic 220 gives an entity the option to present the total of comprehensive income, the components of net income and the components of other comprehensive income either in a single continuous statement of comprehensive income or in two separate but consecutive statements. The updated guidance in ASC Topic 220 is effective for fiscal years, and interim periods within those years, beginning after December 15, 2011. Early adoption is permitted. The adoption of this guidance did not have any impact on our results of operations or financial condition.

In December 2011, the FASB issued ASU 2011-12, “Comprehensive Income (Topic 220)—Deferral of the Effective Date for Amendments to the Presentation of Reclassifications of Items Out of Accumulated Other Comprehensive Income in Accounting Standards Update No. 2011-12” (ASU 2011-12) to defer the effective date for part of ASU 2011-05. The deferral of ASU 2011-05 is to defer the requirement of adjustments of items out of accumulated other income to be presented on the components of both net income and other comprehensive income in financial statements. This deferral is effective for fiscal years, and interim periods within those years, beginning after December 15, 2011, so that entities will not be required to comply with the presentations requirements in ASU 2011-05 that ASU 2011-12 is deferring. Early adoption is permitted. The adoption of this guidance did not have any impact on our results of operations or financial condition.

**20. Commitments and Contingencies**

On or about November 19, 2009, we, Sun Secured Financing LLC, Aspen-Ft. Collins Limited Partnership, Sun Secured Financing Houston Limited Partnership, Sun Communities Finance, LLC, Sun Holly Forest LLC and Sun Saddle Oak LLC (collectively, the “Plaintiffs”) filed suit against ARCS Commercial Mortgage Co., L.P., PNC ARCS, LLC, and the Federal National Mortgage Association (collectively, the “Defendants”) in the United States District Court for the District of Columbia as Case No. 1:09-cv-02162. The essence of the dispute was whether the terms of a commercial credit facility permitted Defendants to increase the Variable Facility Fee applicable to the outstanding variable rate loans in conjunction with an extension of the credit facility (and, if so, whether the Defendants properly exercised that right). On March 31, 2011, the parties entered into an Agreement and Release, pursuant to which the parties agreed to stay the litigation. As part of the settlement, on July 27, 2011, we, PNC Bank, National Association (as successor in interest to ARCS Commercial Mortgage Co., L.P., and PNC ARCS, LLC), and Fannie Mae entered into a Second Amended and Restated Master Credit Facility Agreement, as amended on October 3, 2011 (the “Restated Credit Agreement”) which amended and restated in its entirety the prior credit agreement. On January 3, 2012, the Restated Credit Agreement became effective in its entirety and the litigation was dismissed.

On June 4, 2010, we settled all of the claims arising out of the litigation filed in 2003 by TJ Holdings, LLC in the Superior Court of Guilford County, North Carolina and the associated arbitration proceeding commenced by TJ Holdings in Southfield, Michigan. Under the terms of the settlement agreement, in which neither party admitted any liability whatsoever, we paid TJ Holdings \$360,000. In addition, pursuant to this settlement, TJ Holdings’ percentage ownership interest in Sun/Forest, LLC will be increased on a one time basis, in the event of a sale or refinance of all of the SunChamp Properties, to between 9.03% and 28.99% depending on our average closing stock price as reported by the NYSE during the 30 days preceding the sale or refinance of all the SunChamp Properties. Once this percentage ownership interest has been adjusted, there will be no further adjustments from subsequent sales or refinances of the SunChamp Properties. The likelihood of a sale or refinancing of all of the SunChamp properties is not probable as these properties continue to see growth potential nor do we have a need to refinance all of the properties, so we do not expect it to have a material adverse impact on our results of operations or financial condition.

In 2011, we discovered that we did not register with the SEC shares of our common stock purchased in the open market by our 401(k) plan for the benefit of participants in the plan. We intend to file a registration statement on Form S-3 offering to rescind the purchase of shares of our common stock by persons who acquired such shares through our 401(k) plan from September 16, 2010 through September 15, 2011. We do not expect this to have a material adverse effect on our financial position, results of operations or cash flows.

We are involved in various other legal proceedings arising in the ordinary course of business. All such proceedings, taken together, are not expected to have a material adverse impact on our results of operations or financial condition.

**SUN COMMUNITIES INC.**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**21. Related Party Transactions**

We have entered into the following transactions with OFS LLC:

*Investment in OFS LLC.* We entered into an agreement with four unrelated companies (“Members”) and we contributed cash of approximately \$0.6 million towards the formation of OFS LLC. OFS LLC purchased the loan origination platform of Origen. The purpose of the venture is to originate manufactured housing installment contracts for its Members. We account for our investment in OFS LLC using the equity method of accounting. As of December 31, 2011, we had an ownership interest in the OFS LLC of 22.9 percent, and the carrying value of our investment was zero.

*Loan Origination, Sale and Purchase Agreement.* OFS LLC agreed to fund loans that meet our underwriting guidelines and then transfer those loans to us pursuant to a Loan Origination, Sale and Purchase Agreement. We paid OFS LLC a fee of \$650 per loan pursuant to a Loan Origination, Sale and Purchase Agreement which totaled approximately \$0.1 million during the year ended December 31, 2011 and 2010. We purchased, at par, \$3.0 million and \$4.8 million of these loans during the years ended December 31, 2011 and 2010, respectively.

We have entered into the following transactions with Origen:

*Investment in Origen.* We own 5,000,000 shares of Origen common stock and Shiffman Origen LLC (which is owned by the Milton M. Shiffman Spouse’s Marital Trust, Gary A. Shiffman (our Chairman and Chief Executive Officer), and members of Mr. Shiffman’s family own 1,025,000 shares. Gary A. Shiffman is a member of the Board of Directors of Origen and Arthur A. Weiss, our director, is a trustee of the Milton M. Shiffman Spouse’s Marital Trust. We account for our investment in Origen using the equity method of accounting. As of December 31, 2011 we had an ownership interest in Origen of approximately 19 percent, and the carrying value of our investment was zero.

*Board Membership.* Gary A. Shiffman, our Chairman and Chief Executive Officer, is a board member of Origen.

In addition to the transactions with Origen described above, Gary A. Shiffman and his affiliates and/or Arthur A. Weiss, one of our directors, have entered into the following transactions with us:

*Lease of Executive Offices.* Gary A. Shiffman, together with certain family members, indirectly owns a 21 percent equity interest in American Center LLC, the entity from which we lease office space for our principal executive offices. Arthur A. Weiss owns a 0.75 percent indirect interest in American Center LLC. As of October 2011, we lease approximately 48,200 rentable square feet. The term of the lease is until October 31, 2016, with an option to renew for an additional five years. The annual base rent under the current lease is \$18.61 per square foot (gross) and will remain this amount through October 31, 2014. From November 1, 2014 to August 31, 2015, the annual base rent will be \$18.72 per square foot (gross) and then from September 1, 2015 to October 31, 2016, the annual base rent will be \$17.92 per square foot (gross). Our annual rent expense associated with the lease of our executive offices was approximately \$0.7 million for the year ended December 31, 2011, 2010 and 2009. Our future annual rent expense will be approximately \$0.9 million through 2016. Gary A. Shiffman may have a conflict of interest with respect to his obligations as our officer and/or director and his ownership interest in American Center LLC.

*Legal Counsel.* During 2011, Jaffe, Raitt, Heuer, & Weiss, Professional Corporation (“JRH&W”) acted as our general counsel and represented us in various matters. Arthur A. Weiss is the Chairman of the Board of Directors and a shareholder of such firm. We incurred legal fees and expenses of approximately \$2.5 million, \$0.8 million and \$1.1 million in the years ended December 31, 2011, 2010 and 2009, respectively.

*Tax Consequences Upon Sale of Properties.* Gary A. Shiffman holds limited partnership interests in the Operating Partnership which were received in connection with the contribution of 24 properties (four of which have been sold) from partnerships previously affiliated with him (the “Sun Partnerships”). Prior to any redemption of these limited partnership interests for our common stock, Gary A. Shiffman will have tax consequences different from those of us and our public stockholders on the sale of any of the Sun Partnerships. Therefore, we and Gary A. Shiffman may have different objectives regarding the appropriate pricing and timing of any sale of those properties.
